### **Notice Concerning Acquisition of Shares of Nakano Shokai Co., Ltd. (to Make It a Consolidated Subsidiary)**

Yamato Holdings Co., Ltd. (the “Company”) hereby announces that it has resolved, at the Board of Directors meeting held on November 5, 2024, to acquire 87.7% of issued shares of Nakano Shokai Co., Ltd. (“Nakano Shokai”) and make it a subsidiary of the Company. The details are as follows:

#### 1. Reason for the acquisition of shares

Under the Medium-term Management Plan “Sustainability Transformation 2030 ~1st Stage~”, which ends in the fiscal year ending March 31, 2027, Yamato Group is working to transform its business portfolio, by expanding earnings to achieve profit growth in the base domain (Express (“EXP”) Business), strengthening the TA-Q-BIN network, and expanding in the growth domain (Contract Logistics (“CL”) Business and the Global Business).

Meanwhile, Nakano Shokai comprehensively provides multiple functions tailored to the needs of its clients, which are mainly retailers, manufacturers and suppliers of food products, as well as the upstream logistics domain of e-commerce operators, including the subleasing of logistics facilities reconfigured to match client specifications, in addition to storage, warehouse operations and transportation services.

The Company decided to acquire the shares because the addition of Nakano Shokai to the Yamato Group will expand the corporate business domain through (1) expansion of the CL Business, (2) generation of synergies with the EXP Business, and (3) achieving cost synergies (CL and EXP Businesses) through joint use of resources of both companies.

#### 2. Overview of the subsidiary (Nakano Shokai) subject to change

December 1, 2024 (scheduled)  
(For Yamato's fiscal year ending March 2025, Nakano Shokai will be consolidated only during January-March of 2025)

## Funding

Use cash-on-hand

## EV-EBITDA-Ratio

Approx. 6.5x (Post-Synergy※)

※Expectation of the Fiscal year ending September 2027

# 2. Our aspiration

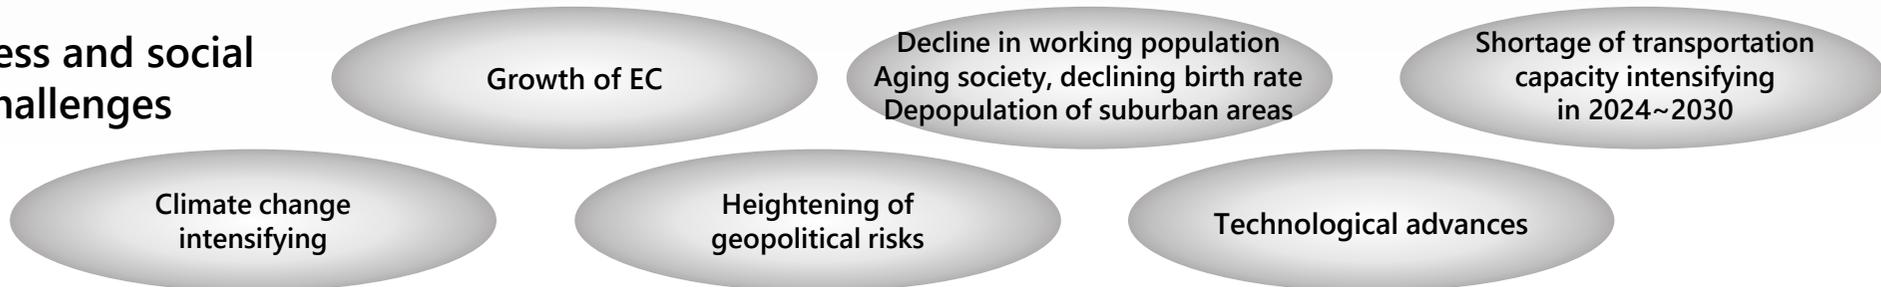

## Management Philosophy

Yamato helps enrich our society by enhancing our social infrastructure, creating more convenient services for evolving lifestyles and industries, and developing innovative logistics and distribution systems.

## Heightened uncertainty

### Business and social challenges

# 3. Direction of our management

from our Mid-Term Management Plan material

(Growth image under "SX2030 ~1st Stage~")

Dramatic profit growth through the reinforcement of the EXP Business (base domain) and business portfolio reform (expansion of business domain)

FY2027/3 plan

Operating revenue	2,000~2,400 bn yen
Operating profit	120~160 bn yen
Operating margin	6% or above
Profit attributable to owners of parent	80~100 bn yen
ROE	12% or above
ROIC	8% or above

Business portfolio reform

Breakdown of operating revenue

- Base domain
- Growth domain
- New domain

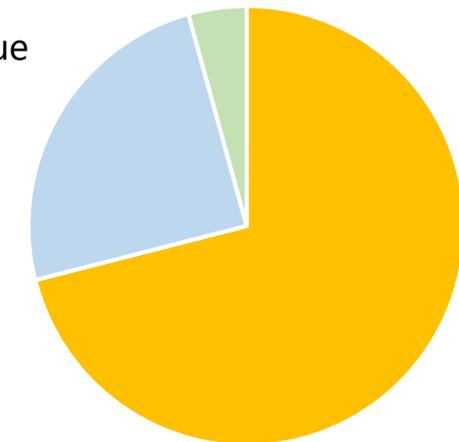

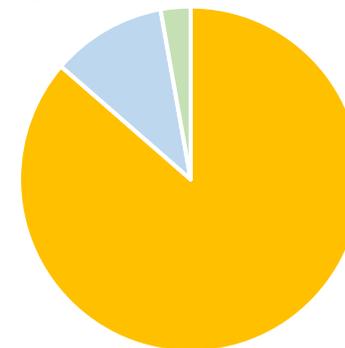

Image for FY2031/3

Operating margin: 8% or above ROE:16% or above ROIC:12% or above

\*EXP: Domestic transportation and delivery business, centered around transportation (TA-Q-BIN) services that pay consideration to climate change

# 4. Yamato's business portfolio reform ~expand the Corporate business domain

## Growth of CL Business and expansion of EXP Business through M&A

→Support supply chain reforms of corporate clients (grow no. of clients that use 3PL・LLP)

### Growth strategy of CL Business

FY March 2024 results (% of consolidated results)

\* Includes one-off impact from COVID vaccine and large recall mandates

#### Earnings

- Business environment
  - Logistics is becoming more complicated, driven by expansion of EC, and increase in small-lot high-frequency deliveries
  - Growing demand for outsourcing
- Growth in no. of clients using 3PL and LLP (※1)
  - Seek to grow CL Business and expand EXP Business, by providing one-stop solutions including last-mile deliveries
  - Provide more customized 3PL and LLP proposals
  - Support supply chain reforms of corporate clients

#### Key strategies

### M&A strategy※2

While continuing organic growth of existing businesses, Yamato will aim for further growth and corporate value enhancement by promoting M&A and strategic business alliances

#### Target

- Expect multiple acquisitions, while ensuring compatibility with Yamato's growth strategy
  - Sector: Auto parts, high-tech, food cold chain, healthcare, etc.
  - Region: Japan, U.S. & Mexico, India, Southeast Asia
  - Size: Expecting maximum size by FY March 2027 to be 400bn yen in operating revenue, and 40bn yen in operating profit

#### Yamato Group's strengths

- Wide-ranging customer base in Japan, built through the TA-Q-BIN business
  - Established through real and digital contact points with customers, including approx. 60,000 Sales Drivers nationwide
- Stable financial base

#### Financial discipline

- Promote initiatives with discipline, to achieve synergies and reduce cost of capital
  - Funding: Use interest-bearing debt in principle
  - Monitoring: Conduct regular monitoring, based on quantitative standards such as "ROIC of 10% or above within 3 years of acquisition" etc.

※1 LLP (Lead Logistics Partner): Partner that engages in and supports clients' planning and strategy, on top of logistics administration and operations

※2 This section explains the overall M&A strategy of Yamato Group, including the Global Business etc.

# 5. Overview of Nakano Shokai

Engages in contract logistics business using its strengths in the integrated provision of multiple functions, tailored to clients' needs, its highly efficient management model, and flexible trunk-route transportation network

# 6. Synergies and the PMI structure

## Expansion of CL Business and EXP Business (Corporate business)

### 【Generate revenue synergies】

Increase sales opportunities by utilizing client base, and promote the provision of solutions

### 【Achieve cost synergies】

Promote the integrated use of warehouse and transportation networks

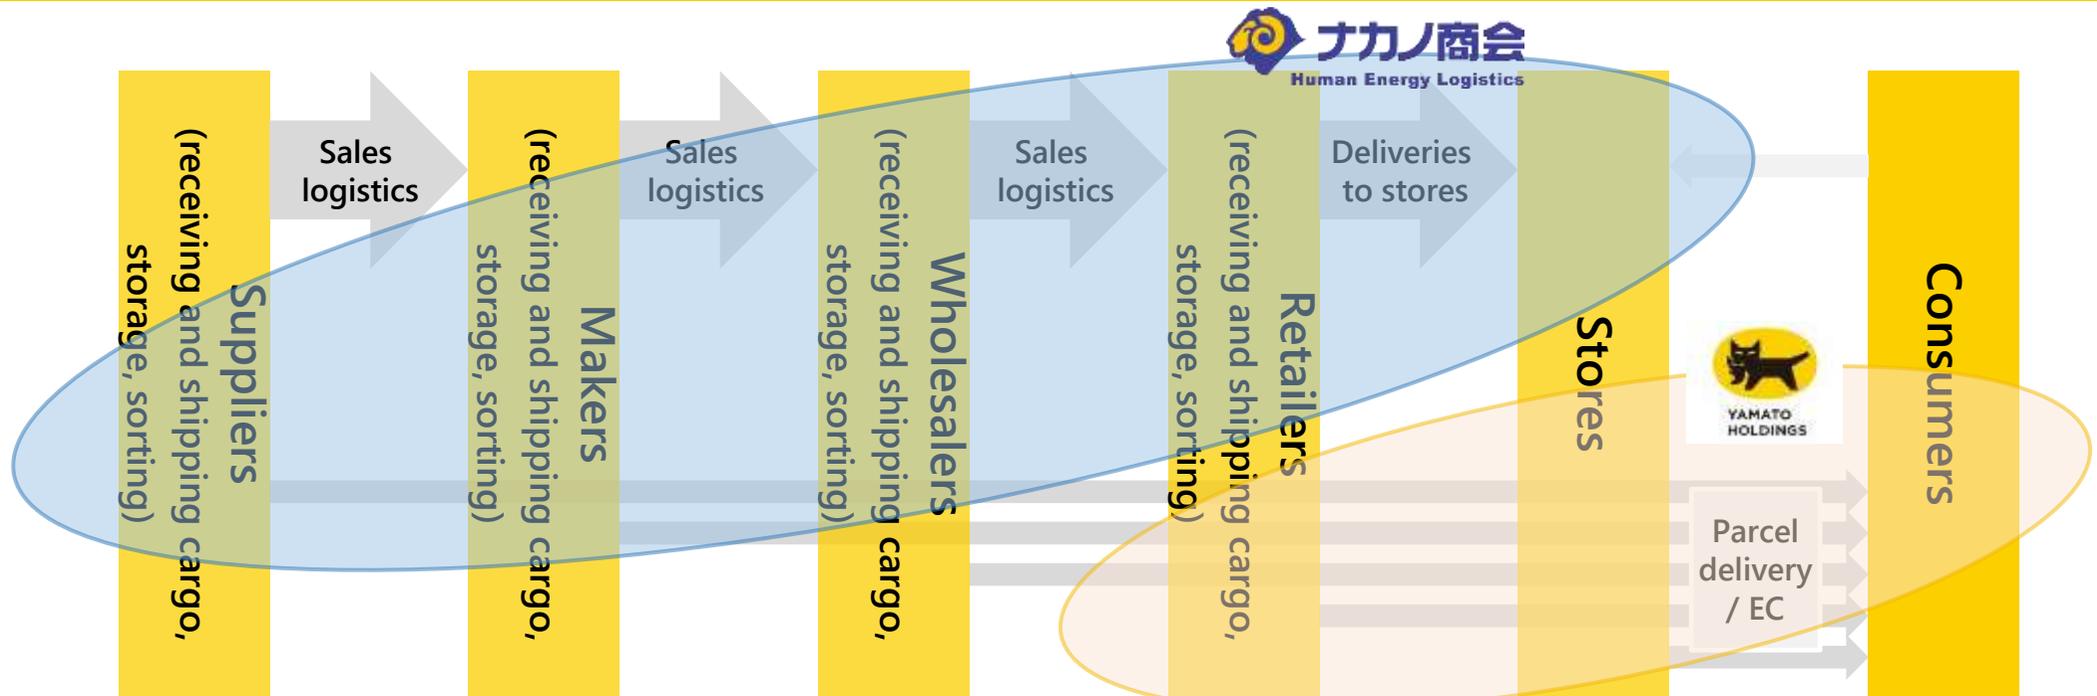

**PMI structure to generate synergies**

- Increase sales opportunities by utilizing the client base of both companies, that do not overlap in sector/domain
- Provide comprehensive solution proposals spanning the entire supply chain, from upstream to downstream
- Utilize Nakano Shokai's resources and knowhow
- Promote the integrated operations of warehouse and transportation networks of both companies
- Have set up a PMI (Post Merger Integration) structure with cross-divisional members, and currently analyzing the issues and tasks, including sustainability initiatives
- At the same time as closing, start executing the synergy generation plan and establish a mechanism for periodic monitoring

# 7. Generating revenue synergies

Increase sales opportunities by utilizing the client bases of Nakano Shokai and Yamato's CL Business, which differ in sector/domain. Propose comprehensive solutions for the entire supply chain, from upstream to downstream

## Client base of Nakano Shokai 【Sales of 86.7bn yen (FY2023/9)】

- Nakano Shokai's clients are corporate clients, mainly retailers, makers and suppliers of food etc., and wholesalers in between
- Also has strengths in the upstream logistics domain of EC operators (warehouse operations, transportation between facilities, etc.)

## Client base of our CL business 【Sales of 89bn yen (FY2024/3)】

- Strengths in its intricate store delivery network, close to consumers
- Has corporate clients in sectors not covered by Nakano Shokai, such as communications, services, medical and electronics

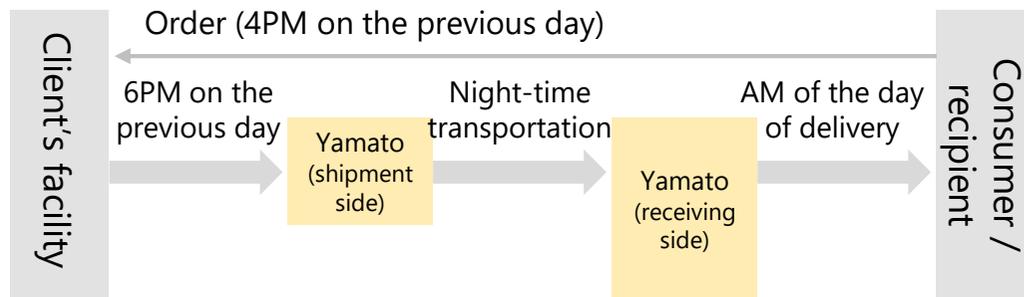

# 8. Examples of revenue synergies

## Customized logistics & transportation services

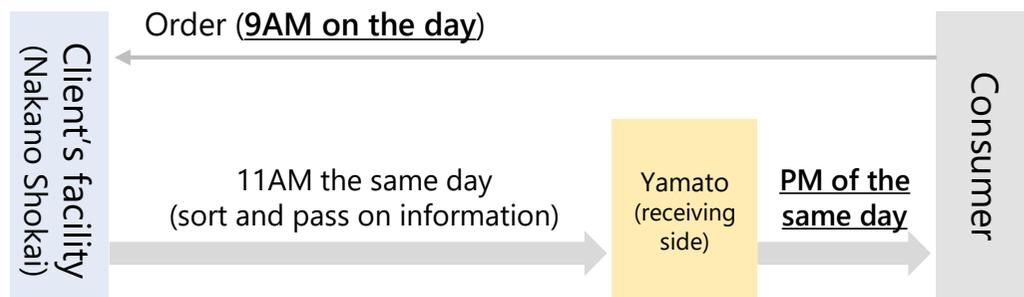

Logistics & transportation that cater to the needs of each corporate client

(Example) Shorter lead time, with Nakano Shokai handling the logistics to the prefecture close to consumers, and Yamato handling the ensuing deliveries

### Current Next day delivery

### Future Same day delivery

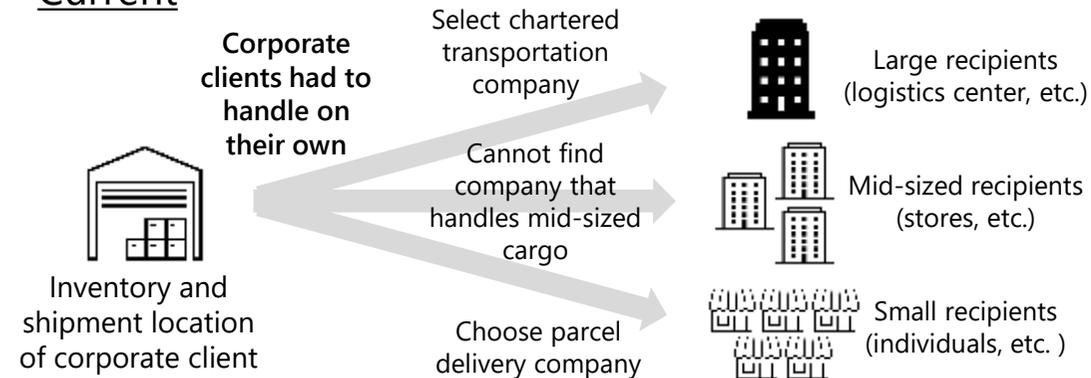

## Provide delivery services according to clients' cargo volume and item size

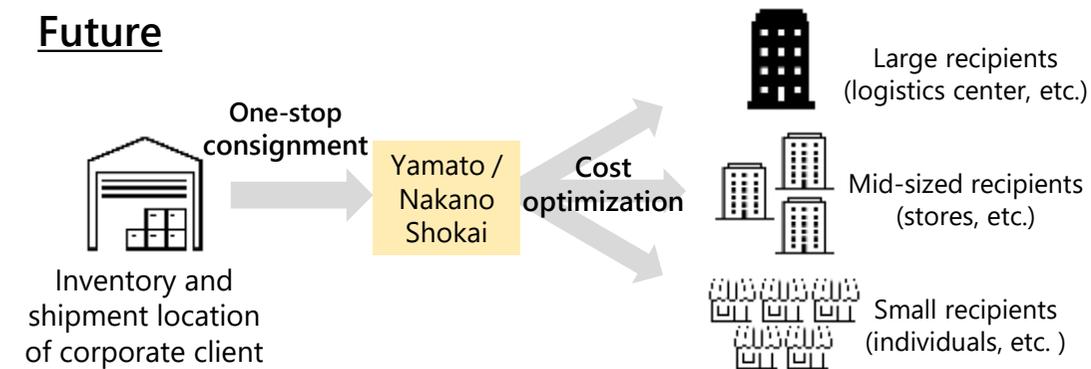

One-stop delivery services for corporate clients

(Example) Utilize the transportation & delivery networks of both companies, to provide the optimal transportation & delivery method based on cargo volume and size, and comprehensively manage the flow from the location of inventory to the destination, thereby optimizing costs

### Current

### Future

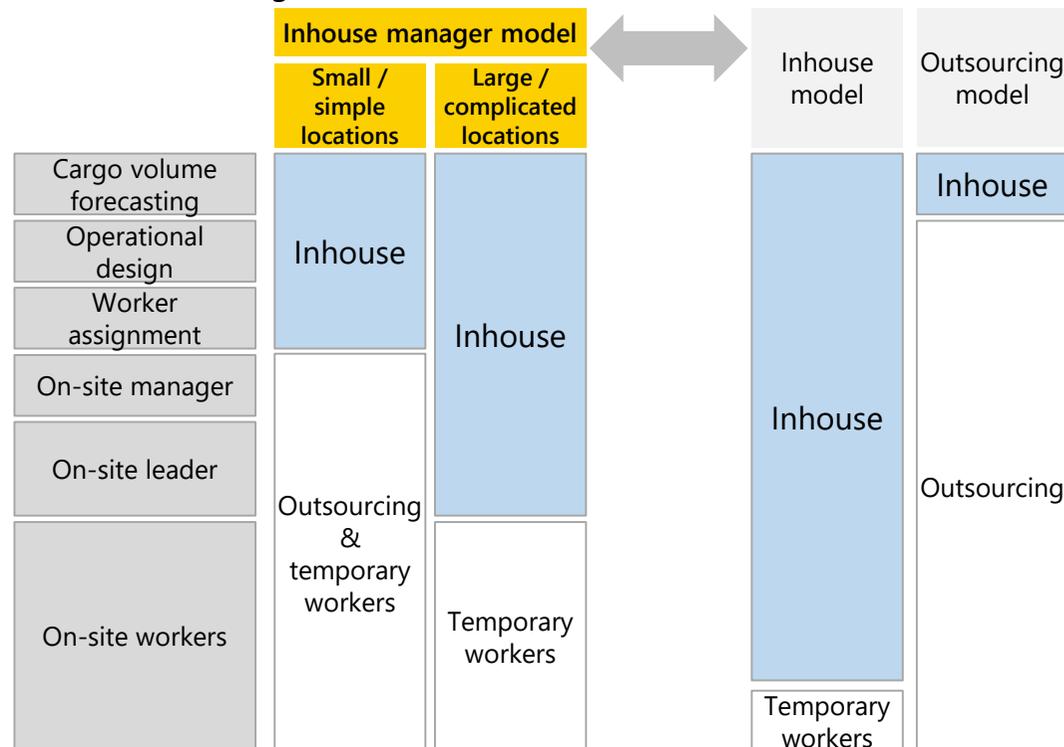

# 9. Achieving cost synergies

## Utilize Nakano Shokai's resources and knowhow Promote the integrated use of Nakano Shokai's and Yamato's warehouse and transportation network

### "Inhouse Manager Model"

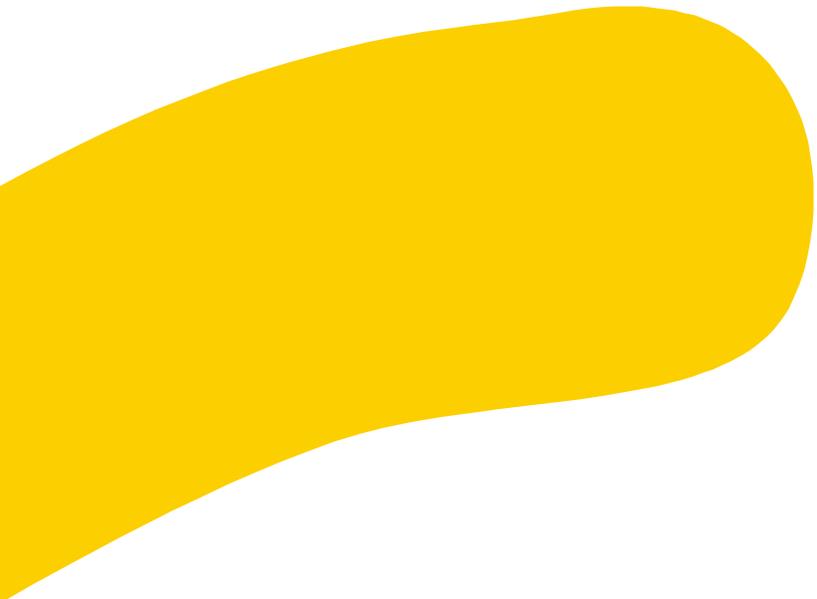

Nakano Shokai prioritizes the **training of warehouse managers** who proactively think of ways to improve profits, profitability, and efficiency, while making its worker costs **variable instead of fixed (outsources or uses temporary workers)**, thereby making it possible to flexibly adapt to fluctuations in cargo volume

### Transportation network

Promote integrated operations of Nakano Shokai's and Yamato's transportation network and resources, and **utilize Nakano Shokai's knowhow at Yamato Transport**, thereby expanding the Corporate business domain

<b>Resources</b>	<ul style="list-style-type: none"> <li>• Approx. 700 inhouse drivers               <ul style="list-style-type: none"> <li>– Licensed to drive large trucks, which are crucial in the Corporate business domain</li> </ul> </li> <li>• 3,500~5,000 operations per day, including partners' vehicles               <ul style="list-style-type: none"> <li>– 30% inhouse, 70% partners (owns approx. 400 vehicles)</li> <li>– Vehicles operate 24 hours a day, with 1~6.5 operations per day per vehicle, depending on the distance travelled</li> </ul> </li> </ul>
<b>Knowhow</b>	<ul style="list-style-type: none"> <li>• <b>Driver training to avoid dependence on individual drivers</b> <ul style="list-style-type: none"> <li>– Manuals that outline the operational process, which differs by client</li> <li>– Conducts driver training using the license scheme, making it possible for drivers to deliver to any client location, thereby achieving high vehicle operation efficiency</li> </ul> </li> <li>• <b>Automatic vehicle assignment system, including for partners' vehicles</b> <ul style="list-style-type: none"> <li>– Developed to systemize vehicle assignment knowhow, and automate operations</li> <li>– High vehicle operation efficiency by assigning minimal number of vehicles needed</li> </ul> </li> </ul>
