Yamato Transport Co., Ltd.

Revision of reported fares and pricing of TA-Q-BIN from April 1, 2024

Yamato Transport Co., Ltd. (Headquarters: Chuo-ku, Tokyo; President and Representative Director: Yutaka Nagao, hereinafter “Yamato Transport”) will revise the reported fares and pricing (hereinafter “Reported Fares etc.”) of TA-Q-BIN effective Monday, April 1, 2024.

1. Background and Objective

Yamato Transport revised the Reported Fares etc. in April 2023, after nearly 6 years, based on changes in the external environment, including cost increases caused by instability in global affairs. We also announced that we will review the Reported Fares etc. every fiscal year, in order to reflect the impact from future changes in the external environment to pricing etc. in a timely and suitable manner.

External costs are expected to continue to rise in fiscal year 2024. However, taking into account how the current cost inflation seems to be coming under control, we will only make a partial revision to TA-Q-BIN rates, in order to minimize the impact on individual customers who use TA-Q-BIN based on the Reported Fares etc. In addition, we will revise the additional charge for Cool TA-Q-BIN, whose operations differ from the regular TA-Q-BIN, and amend the standards for Golf TA-Q-BIN, resulting in an overall revision rate of approximately 2%.

On the other hand, for corporate clients who account for approximately 90% of delivery volume, and to whom we apply discount rates from the Reported Fares etc. based on individual contracts, we will continue discussions to optimize the contracts, while taking into account the status of revisions to date.

By promoting these initiatives, we will maintain and strengthen our transportation and delivery network, while improving the work environment for our employees and logistics partners, thereby contributing to the sustainable growth of the logistics industry, while creating an environment to continue providing higher quality services to our customers.
