II. Business Overview

1. Management Policy, Management Environment and Tasks to be Addressed

The management policy and management environment of the Yamato Group and its tasks to be addressed are as follows.

Forward-looking statements in the text are based on the judgment of the Yamato Group as of the filing date of the Annual Securities Report.

(1) Management policy

With the Management Philosophy that Yamato helps enrich our society by enhancing our social infrastructure, creating more convenient services for evolving lifestyles and industries, and developing innovative logistics and distribution systems, we are developing products and services that are useful for enhancing the convenience of lifestyles.

In the future, as a member of society, we will continuously contribute to the creation of an enriched society by creating a “new logistics ecosystem” that meets the needs of customers and addresses social issues head on. In addition, we will aim for stable management by building next-generation sales, trunk line transportation, and last-mile operations with technology as the starting point, and by working to increase profitability.

(2) Objective indicators to judge the management environment, the management strategy and the status of achievement of the management goals

The Yamato Group has set, in order to realize sustainable enhancement of corporate value through “helping enrich our society,” as stated in our Management Philosophy, its vision for 2030 as “a value-creating company that contributes to the realization of a sustainable future.” To realize this vision, while promoting the Medium-term Management Plan “Sustainability Transformation 2030 —1st Stage—,” which ends in the fiscal year ending March 31, 2027, we have updated the Plan in light of the progress of initiatives and changes in the business environment.

In the economic environment during the fiscal year under review, the continuing decline in real wages amid a growing likelihood of price increases led to a persistent sense of stagnation in personal consumption. In addition, the business environment remains challenging due to a worsening labor shortage and soaring energy and raw material prices driven by the escalating tensions in the Middle East towards the end of the fiscal year, making it difficult to predict the future.

In these circumstances, in accordance with the Medium-term Management Plan “Sustainability Transformation 2030 —1st Stage—,” the Yamato Group promotes efforts at: the reinforcement of the TA-Q-BIN network to achieve profit growth in basic domain; the expansion of corporate business domain driven by synergies between its businesses generated by leveraging the customer base and sales network of the Express Business; the commercialization of new business models to meet the diversifying needs of customers and society; and the strengthening of the Group’s management base. The Group also promotes efforts to generate “economic value” and to create “environmental value” and “social value” toward social sustainability.

We are optimizing pricing for major corporate customers and appropriately passing on cost increases to consumers through the October 2025 revision of the reported fares for TA-Q-BIN, to convert the business structure of our TA-Q-BIN business so that it can generate profit in a stable manner within the basic domain. While putting more resources towards developing an environment where sales drivers can interact with customers to focus on providing better services, we proceeded with the development of products and services that meet customer needs. As part of such initiatives, we expanded sales of “Koneko-Bin 420,” a service that allows customers to send packages nationwide for a flat fee by purchasing product-specific materials in advance. Moreover, in November 2025, we launched the new intra-prefectural fare, as well as the “Same-Day TA-Q-BIN Delivery” service that delivers packages received in the morning on the same day to broaden the line-up of TA-Q-BIN services.

In the corporate business domain, we aim to support customers’ business expansion by leveraging the customer base and sales network of the Express Business and combining our transportation and delivery network with added value services such as warehouse operations and international forwarding, thereby driving profit growth of the Yamato Group. In October 2025, we opened an integrated business solution hub in Koriyama City, Fukushima Prefecture, which combines the Group’s transportation terminal with a logistics center offering high value-added functions. We will develop similar logistics hubs to areas having relevant demand to offer new value to our customers and local communities. Additionally, in the Global business, we opened the Yamato Group’s largest overseas logistics center in January 2026 to assist manufacturers aiming to expand production in India in establishing global supply chains. We are strengthening our sales capabilities, primarily in North America, China, and Southeast Asia, and are working to improve the efficiency of international forwarding, enhance our proposals to cross-border e-commerce businesses, and capture logistics demand driven by expanding domestic demand, while also considering M&A and strategic business alliances.

In addition, we have addressed environmental and social challenges, such as the worsening of medium and long-term transportation capacity shortages and the response to climate change, and, by actively working with business partners to solve these issues, have accumulated knowledge and expertise in areas such as reducing greenhouse gas emissions, building sustainable and efficient logistics systems, and managing employee health. We will refine and promote these insights into a “green mobility” business model and provide them to our customers as solutions that enhance the sustainability of their supply chains, thereby driving new growth for the Yamato Group.

"SX2030 —1st Stage—" Key Initiatives

- i) **Basic domain: Reinforcement of the TA-Q-BIN network and expanding the value we provide**
 We will swiftly proceed with the following initiatives: the promotion of appropriate pricing in line with added value; "sales office reform," which aims to create an environment where sales drivers can interact with customers to focus on providing better services; the development of products and services that capture customer needs; the relocation of pickup and delivery bases based on local market demand; and the deployment of new service locations that provide services beyond just package sending and receiving. In the transportation domain, to increase transportation and load efficiencies as well as restrain fixed costs and control variable costs according to workload while meeting the needs of our customers, we will make efforts to station workers taking on sorting properly by reviewing the way of carrying between terminals and between terminals and collection and delivery bases in conformity with changes in the fluid volume of loads.
- ii) **Growth domain: Expansion of corporate business domain**
 We will accelerate profit growth by providing corporate customers with high-value-added solutions that utilize the Group's management resources, such as our existing transportation network and domestic and international warehouses, as well as an integrated business solution hub, which combines the Group's transportation terminal with a logistics center offering high value-added functions, and know-how of cargo air transportation, customs clearance, and real estate.
- iii) **New domain: Commercialization of new business models**
 We will generate economic value through the creation of business models that address environmental and social issues with a diverse range of partners, utilizing existing management resources. In doing so, we will enhance sustainability across society and the logistics industry while accelerating growth by positioning these business models as a new revenue base.
- iv) **Reinforcement of the Group's management platform**
 We will promote HR strategy, digital strategy, and environmental/social strategy as the foundation for sustainable enhancement of corporate value and work on reinforcement of sustainable management and corporate governance. We will also transform our Group-wide business structure by leveraging AI to restructure business models across all business domains.
- v) **Embed management principles that place more focus on capital efficiency within the Group**
 We have set operating margin, ROE, and ROIC as new management metrics to embed management principles with greater emphasis on capital efficiency and achieve ROI above WACC. Besides improving business profitability and accelerating profit growth, we will work to improve capital efficiency by strengthening balance sheet management and optimizing cash flows, thereby building a foundation

for increasing EPS (earnings per share) and shareholder value.

When formulating the Medium-term Management Plan, we have set targets of consolidated operating revenue of 2.0-2.4 trillion yen, consolidated operating profit of 120-160 billion yen (consolidated operating margin of at least 6%), ROE of at least 12%, and ROIC of at least 8% for the fiscal year ending March 31, 2027, the final year of the Medium-term Management Plan. However, in light of changes in the business environment and the progress of initiatives, we revised our consolidated earnings forecast for the fiscal year ending March 31, 2027 to consolidated operating revenue of 1.92 trillion yen, consolidated operating profit of 42.0 billion yen (consolidated operating margin of 2.2%), ROE of 4.2%, and ROIC of 3.7%.

Under the Plan, we aim to be “a value-creating company that contributes to the realization of a sustainable future” and will continue to focus on the “Reinforcement of the TA-Q-BIN network and transformation of the business portfolio.” We will continue to seek to maximize profit growth drivers such as pricing optimization, expansion of corporate customers business, optimization of operating costs, and reduction of indirect costs, for which we made steady progress in the fiscal year under review, while enhancing balance sheet management and optimizing capital allocation to achieve sustainable improvement in corporate value.

Our growth image

Achieve rapid recovery of the Express business, and concentrate funds generated on the CL and Global businesses.
Dramatically improve the Group's overall return on capital by shifting toward high value-add businesses

(3) Business and financial issues that require priority action

In the business environment surrounding the Yamato Group, the future outlook remains unclear due to factors such as the unstable international situation and fluctuations in financial markets. In addition, costs are expected to continuously rise in line with changes in the external environment such as the impact of rising prices and the worsening of medium and long-term transportation capacity shortages. Furthermore, in the medium and long term, we are expecting the further growth of EC, heightening of geopolitical risks, aging society, declining birthrate, depopulation of suburban areas, labor shortage, climate change intensifying, etc. Under these circumstances, at the Yamato Group we have set our aspiration of “a value-creating company that contributes to the realization of a sustainable future” to be realized in 2030 in order to realize sustainable enhancement of corporate value through “helping enrich our society” as stated in our Management Philosophy. Moreover, we will promote the following initiatives i) through v) by positioning the Medium-term Management Plan “Sustainability Transformation 2030 — 1st Stage—,” which is formulated with the fiscal year ending March 31, 2027, as the final year, as “Three years to reinforce TA-Q-BIN network and reform business portfolio.”

i) Reinforcement of the TA-Q-BIN network and expanding the value we provide

Although the parcel delivery market is showing a trend of expansion alongside the growth of EC, the market for individuals and small corporations, which is the basic domain, is being affected by the declining population and sluggish personal consumption. In addition, with the advancement of EC and changes in demographics, the work volume of collection and delivery in the last-mile domain and the transport volume of parcels between urban and rural areas in the transportation domain are changing, and the profitability of TA-Q-BIN network is on a downward trend.

In considering these circumstances, we will work to reform our revenue structure and optimize pricing in line with added value in a planned manner in order to transform our basic domain TA-Q-BIN business into a business structure that can ensure stable profits. Moreover, while developing an environment where sales drivers can interact with customers to focus on providing better services, we proceed with the relocation of pickup and delivery bases based on local market demand, and the development of products and services

that meet customer needs, as well as services that go beyond just sending and receiving of TA-Q-BIN parcels.

In the transportation domain, to increase transportation and load efficiencies as well as restrain fixed costs and control variable costs according to workload while making our TA-Q-BIN network social infrastructure more efficient and sustainable and meeting the needs of our customers, we will make efforts to station workers taking on sorting properly by reviewing the way of carrying between terminals and between terminals and collection and delivery bases in conformity with changes in the fluid volume of loads.

ii) Expansion of corporate customers business

Companies are required to take responses amid increasing risk factors such as the division of the world into political and economic blocs, reshaping of global supply chains, and global environmental problems. The Yamato Group views changes as an opportunity, and positions as a growth area the solutions business aiming to solve customers' management issues that extend throughout the entire supply chain.

In Contract Logistics business, which addresses the overall logistics and management challenges of corporate customers, we will expand the value we offer, including the operation of inventory and distribution bases in inter-company logistics and comprehensive logistics centers for e-commerce businesses. In addition, as a foundation for business growth, we will promote the utilization and expansion of "integrated business solution hubs" that combine sorting, transportation, and logistics functions to logistics bases nationwide. By using these locations that are integrated with a robust nationwide transportation and delivery network, we will contribute to optimizing our customers' entire supply chains and business strategies, thereby driving further expansion of our corporate customers business.

In Global business, we work to improve the value we provide to our customers across their entire supply chain by combining the international transportation and overseas contract logistics services provided by Global business. We will strengthen our sales capabilities, primarily in North America, China, and Southeast Asia, and work to improve the efficiency of international forwarding, enhance our proposals to cross-border e-commerce businesses, and capture logistics demand driven by expanding domestic demand, while also considering M&A and strategic business alliances.

iii) Develop new business model

Towards the realization of sustainable future, we have addressed environmental and social challenges, such as the worsening of medium- to long-term transportation capacity shortages and the response to climate change, and, by actively working with business partners to solve these issues, we have accumulated knowledge and expertise in areas such as reducing greenhouse gas emissions, building efficient logistics systems, and managing employee health. We will refine and promote these insights into a "green mobility" business model, thereby driving new growth for the Yamato Group.

Specifically, we will expand sales of our "EV Lifecycle Service," which supports the introduction and operation of EVs, and promote energy business to supply renewable energy, primarily through Yamato Energy Management Co., Ltd. In addition, we will contribute to improving the sustainability of the entire logistics industry and solving its challenges through the development of an open platform for joint transportation and delivery involving various stakeholders, and through health management support services for road transport operators.

iv) Reinforcement of the Group's management platform

We will promote HR strategy, digital strategy, and environmental/social strategy as the foundation for sustainable enhancement of corporate value and work on reinforcement of sustainable management and corporate governance.

With regard to the HR strategy, we continue to improve the treatment of employees including sales drivers and make an investment towards the development of better working conditions. In addition, in order to further strengthen our frontline organizations and human resources that interact directly with customers, while working to streamline operations in indirect departments and organization, we will promote the deployment of personnel to TA-Q-BIN offices and corporate sales branches, and the development of leadership talent. Moreover, in order to improve employee job satisfaction, we will advance system reforms to determine compensation based on performance, particularly for sales and planning positions.

In our digital strategy, we will fully implement our newly adopted "AI Data-Driven Management" scheme. With this, through the optimal allocation of management resources and the streamlining of back-office operations using data, we aim to improve overall operational productivity and strengthen profitability by creating new customer experience value. In addition, we will promote the development of personnel who will be central to promoting the use of AI in each organization.

With regard to reinforcement of sustainable management, we will work to continuously strengthen our initiatives for identified key issues (materiality) to enhance corporate value and realize a sustainable society over the medium to long term based on our two visions: "Connect. Deliver the future via green logistics" and "Through co-creation and fair business activities, help create a society that 'Leaves No One Behind.'"

In the area of the Environment, in order to realize "net-zero (in-house) GHG emissions in 2050" and "48% reduction in GHG emissions in 2030 (compared with the fiscal year ended March 31, 2021)," we will continue to promote measures such as "introduction of EVs," "introduction of solar power generation units," and "increase in the use of electricity derived from renewable energy sources," and work to ascertain net emissions in the supply chain (Scope 3) and set reduction targets.

With regard to Society, we continue to prioritize respect for human life and strengthen our initiatives to ensure the safety and health of our employees and partners, while also working to create a work environment where a variety of employees can play an active role. We will also work to address various social issues and build a sustainable supply chain through suitable relationships with business partners by holding regular discussions and establishing structure, process and mechanism for early detection and resolution of issues. In strengthening corporate governance, we will continue working to separate management supervision and execution, promote the enhancement of executive management, and maintain and enhance management transparency, while striving to sustainably increase corporate value through constructive dialogue with shareholders and investors and enhancement of disclosure.

v) Embed management principles that place more focus on capital efficiency within the Group

In addition to promoting i) through iv) above, the Yamato Group has set operating margin, ROE, and ROIC as management metrics to embed management principles with greater emphasis on capital efficiency and achieve ROI above WACC. Besides improving business profitability and accelerating profit growth, we will work to improve capital efficiency by strengthening balance sheet management and optimizing cash flows, thereby building a foundation for increasing EPS (earnings per share) and shareholder value.

During the period of the Medium-term Management Plan, we will promote growth investments in facility strategy and AI and DX strategies, etc. to help improve operation efficiency, while also promoting environmental investments in EVs, solar power generation equipment, etc. to realize a low-carbon society, balancing the provision of logistics services with low environmental impact to customers and the improvement of energy efficiency of operations. In the growth domain of Contract Logistics business and Global business, we will utilize M&As and strategic alliances in addition to autonomous growth.

To support the above plan from a financial perspective, we will work to strengthen balance sheet management and consider liquidating non-current assets as appropriate, while raising funds through borrowings from financial institutions and issuance of corporate bonds as necessary by taking into consideration financial soundness and efficiency, such as status of cash generation, cash and deposits held, equity ratio, etc. as well as effective use of funds held in the Group. From the perspective of financial soundness, we set the equity ratio at around 45% and the D/E ratio at 0.3 to 0.5 times as guides. With regard to shareholder returns, the Company set a target payout ratio of 40% or more based on profit attributable to owners of parent. We will flexibly consider the acquisition of treasury shares from standpoints of the progress of growth investments, cash flow trends, stock price movement, etc.

2. Approach to Sustainability and Associated Initiatives

The Yamato Group's approach to sustainability and its associated initiatives are as follows.

Forward-looking statements in the text are based on the judgment of the Yamato Group as of the filing date of the Annual Securities Report.

(1) Promotion of sustainable management

As we face pressing issues that must be addressed by society as a whole, such as climate change, a shrinking working population, and human rights and inequality, there is an increasing need for each company to respond to those social challenges. In considering these circumstances, the Yamato Group promotes sustainable management with the aim of enhancing its corporate value over the medium to long term and realizing a sustainable society.

i) Governance

The Company deliberates and resolves important items related to sustainability at the Management Committee and the Board of Directors. In addition, in order to promote sustainable management, with the President as the Committee Chair and the members consisting of Executive Officers, etc. of Yamato Transport Co., Ltd. and the Presidents of major Group companies, the Yamato Group Environment Committee and the Yamato Group Social Promotion Committee meet once a year to deliberate and resolve sustainability issues. Also, in the area of "Environment," three subcommittees (Energy, Climate & Atmosphere; Resource Conservation & Waste; and Management and Collaboration) and in the "Social" area, three subcommittees (Human Rights & Diversity; Supply Chain Management; and Local Community) meet three times a year to discuss measures and check on their progress.

(Sustainability Promotion System)

(Roles of Yamato Group Environment Committee and Social Promotion Committee)

Yamato Group Environment Committee	i) As the decision-making body for initiatives with regard to environmental issues of the Yamato Group, it clarifies the direction of our initiatives, and examines, deliberates, and makes decisions with regard to environmental issues while confirming the status of operations of the environmental management system. ii) The Yamato Holdings Representative Director and President performs the top management role of Environment Executive Officer, which includes receiving reports from the committee's members. The Environment Executive Officer evaluates the results of the committee's activities, conducts a review (Top Management Review) and determines future policy and other matters.
Yamato Group Social Promotion Committee	i) As the decision-making body for initiatives with regard to social promotion of the Yamato Group, it clarifies the direction of our initiatives with respect to important issues concerning society and local regions, and examines, deliberates and makes decisions with regard to policies for social promotion. ii) The Yamato Holdings Representative Director and President performs the top management role of supervision, which includes receiving reports from the Yamato Group Social Promotion Committee and from each company in the Yamato Group. The President evaluates the results of the committee's activities, conducts a review, and determines future policy and other matters.

ii) Strategy

With a view to the improvement of corporate value over the medium to long term and the realization of a sustainable society, in our "YAMATO NEXT 100" grand design for medium- to long-term management, the Company adopted its vision for the environment and

society as well as identified the key materiality that it should address with priority. Moreover, under the “Yamato Group Environmental Policy,” the “Yamato Group Human Rights Policy,” the “Basic Policy on Diversity” and the “Yamato Group Responsible Procurement Policy,” we are promoting initiatives for the material issues.

Starting from the fiscal year ended March 31, 2025, the Company has set its aspiration of “a value-creating company that contributes to the realization of a sustainable future” to be realized in 2030, and is working to strengthen sustainable management as a foundation for realizing sustainable enhancement of corporate value under the Medium-term Management Plan “Sustainability Transformation 2030 —1st Stage—,” which ends in the fiscal year ending March 31, 2027.

With regard to “Environment” area, in order to realize “net-zero (in-house) GHG emissions in 2050” and “48% reduction in GHG emissions in 2030 (compared with fiscal year ended March 31, 2021),” we are promoting measures such as “introduction of 23,500 EVs” and “increase in the use of electricity derived from renewable energy sources,” and working to ascertain net emissions in the supply chain (Scope 3) and set reduction targets.

With regard to “Social” area, we prioritize respect for human life and strengthen our initiatives to ensure the safety and health of our employees and partners, while also working to create a work environment where a variety of employees can play an active role. We are also working to address various social issues throughout the entire supply chain and build a sustainable supply chain through suitable relationships with business partners by measures such as holding regular discussions and establishing structure, process and mechanism for early detection and resolution of issues.

(Vision for the Environment and Society)

Environmental Vision	Connect. Deliver the future via green logistics. The Yamato Group will further promote its vision of “Connect. Deliver the future via green logistics.” By leveraging cutting-edge connections between data, people, and resources, we will increase the efficiency of transportation and provide delivery services that are better for the planet, our customers’ lifestyles, and the economy. We will also support a strong, smart society by striving toward virtually zero greenhouse gas emissions^{*1} and by creating business models based on sustainable resource use and consumption. ^{*1} In-house emissions of consolidated subsidiaries in Japan and Swan Co., Ltd. (Scope 1 & Scope 2)
Social Vision	Through co-creation and fair business activities, help create a society that “leaves no one behind.”^{*2} As a social infrastructure company, the Yamato Group will contribute to improving the quality of life of various people, including employees and customers, by reducing and eliminating various inequalities and obstacles in society. We will do this by delivering goods and value to everyone through fair and efficient business processes. By promoting digital innovation and our strengths offline, as well as co-creation with various partners, we will be a leader in solving social challenges and creating a society that leaves no one behind. ^{*2} To leave no one behind: A basic philosophy of the SDGs

(Material issues)

Material Issues	Themes of Initiatives	Vision	Risk/ Opportunity	Related SDGs
 Energy & Climate	Mitigate climate change	Reduce greenhouse gas emissions by using electricity generated via renewable energy sources, enhancing transportation efficiency through the utilization of digital technology, and reducing the use of dry ice, etc.	Risk Opportunity	
 Atmosphere	Clean up the skies (prevent air pollution)	Pursue transportation that reduces the effects of air pollutants emitted by vehicles and cleans up skies in local communities	Risk	
 Resource Conservation & Waste	Promote resource conservation and reduce waste	Drastically reduce our environmental burden and promote the use of technology and creation of opportunities for minimizing environmental impact	Risk Opportunity	
 Resilience of Companies & Society	Support a society that combats environmental changes	Collaborate with diverse partners to increase the resilience of stakeholders and local communities and create environmental value	Risk Opportunity	
 Labor	Create a work environment where employees can thrive	Implement a high-value-added model for labor and promote "decent work"	Risk Opportunity	
 Human Rights & Diversity	Create a corporate culture that respects human rights and diversity	Respect human rights, recognize diversity, and create a framework for human rights due diligence	Risk Opportunity	
 Safety & Security	Create initiatives to carry out business in a safe and secure manner	Maintain traffic and labor safety and provide reliable service	Risk	
 Data Utilization & Security	Create an information security infrastructure	Create an information security infrastructure and businesses that utilize data to resolve social issues	Risk Opportunity	
 Supply Chain Management	Develop a common understanding with stakeholders	Build a stable business infrastructure through sound, resilient supply chains	Risk Opportunity	
 Community	Create corporate citizenship activities that are rooted in local communities and create a framework for business creation	Establish corporate citizenship activities that are unique to the Yamato Group. Create a business model that revitalizes local economies	Opportunity	

iii) Risk management

The Company deliberates and resolves challenges and risks in promoting sustainable management at meetings of the Yamato Group Environment Committee and the Yamato Group Social Promotion Committee. In addition, important items are discussed and resolved at the Management Committee and the Board of Directors as necessary.

Information on risk management with respect to climate change is stated under "(3) Response to climate change."

iv) Indicators and targets

The Company has set forth achievement targets for its material issues in the Medium-term Management Plan "Sustainability Transformation 2030 —1st Stage—" formulated with the fiscal year ending March 31, 2027 as the final year. Specific targets for the fiscal year ending March 31, 2027 and results for the fiscal year ended March 31, 2025 are described in the "Integrated Report 2025." (Integrated Report 2025_Reinforcement of Group Management Foundation)

https://www.yamato-hd.co.jp/english/investors/library/annualreport/pdf/e_ir2025_06.pdf

The results for the fiscal year ended March 31, 2026 will be included in the "Integrated Report 2026" to be released in the fiscal year ending March 31, 2027.

(2) Promotion of HR strategies that support management strategies

The Yamato Group promotes HR strategies linked with management strategies in accordance with the Yamato Group Human Resources Management Policy as a foundation for realizing the sustainable enhancement of corporate value through "helping enrich our society" as stated in its Management Philosophy.

(Yamato Group Human Resources Management Policy)

Yamato endeavors to create value for the future, and further advance itself to continuously help enrich our society.

Yamato recognizes employee's contribution and growth through fair evaluation and feedback, and aims to foster an inclusive work environment where each individual feels actively engaged.

Yamato encourages employees who take ownership with a customer-centric perspective and sincerity, and rewards those who constantly strive to be at their best with challenging opportunities and personal growth.

i) Strategy

During the current Medium-term Management Plan “Sustainability Transformation 2030 —1st Stage—,” we are reinforcing the TA-Q-BIN network and transforming our business portfolio. Key components of the HR strategy for accomplishing these objectives are optimal human resource allocation following business structure reform, development and recruiting of human resources who create added value, establishing a good working environment, and fostering organizational culture. The Human Resources Department will collaborate with business departments to improve operational efficiency and increase the value the Group provides to enhance its ability to generate earnings. This involves deploying personnel to areas directly linked to earning power, such as TA-Q-BIN sales offices and corporate sales, and systematically developing and hiring skilled personnel. Moreover, toward enhancing support to and motivation of diverse employees, we will establish welfare policy that matches the diversifying lifestyles of employees, promote employee health management and health promotion measures, and continue initiatives to promote diversity, human rights due diligence, and participation of female employees.

The target outputs of our HR strategy are enhanced human productivity and improvement of engagement. Human productivity continues to improve because we have reduced personnel expenses, but our essential issue is increasing added value. We will support pricing optimization and growth of corporate customers business in business departments by securing and developing human resources with the knowledge and skills necessary to provide value, and by establishing a personnel system that leads to improved performance and a sense of rewarding work. We have made engagement a key indicator for the sustainable creation of corporate value, and structured a plan-do-check-act (PDCA) cycle that employs the results of employee awareness surveys. These indicators are influenced by a complex mix of factors other than our HR strategy, so business departments and the Human Resources Department will enhance cooperation to evaluate and verify the effectiveness of measures from multiple angles. Through these initiatives, we will aim to create higher added value by maximizing activities and contribution of each and every employee.

A. Building an optimal human resources portfolio to create added value

In coordination with the “Reinforcement of the TA-Q-BIN network and transformation of the business portfolio” initiative under the Medium-term Management Plan “Sustainability Transformation 2030 —1st Stage—,” we are promoting appropriate organizational structuring and personnel allocation based on a “right people in the right positions” approach.

At Yamato Transport Co., Ltd.—the core business company—the scope of job-based personnel management was expanded from the head office to its regional branches in the fiscal year ended March 31, 2026. The company also reviewed personnel allocation based on jobs and open positions, performance evaluation, and the governance framework for talent development. In the fiscal year ending March 31, 2027, in response to increasingly diverse customer needs and changes in business operations driven by new technologies, we will drive fundamental reforms in human resources management and redefine a series of initiatives ranging from personnel management to performance evaluation. By doing so, we will support business structure reform and accelerate the development of the growth domain through human resource initiatives, thereby contributing to the successful execution of each business strategy.

Investment in human capital based on a “right people in the right positions” approach is needed in order to build such an optimal human resources portfolio linked to our management strategies. We will put a structure in place for monitoring investments and the actualization of their effects over the medium to long term, which will include the establishment of “human productivity” as a key indicator, and will proceed to promote associated initiatives.

B. Improving work comfort and job satisfaction for diverse employees

To establish a foundation for realizing sustainable growth, we promote the fostering of a corporate culture that respects human rights and diversity and measures to put a work environment in place where our employees can thrive. Moreover, we will link measures to boost an actual sense of employees’ own growth through their work as well as their true sense of contributing to the forward development of the company to the improvement of employees’ work comfort and job satisfaction and, in the process, their engagement.

The Yamato Group implements human rights impact assessments for all of our business activities and systematically implements regular reviews of risk mapping for latent issues. From the fiscal year ended March 31, 2025 onward, we implemented assessments for the negative impact of our business on human rights, identifying human rights issues by conducting interviews and surveys of our companies and supply chains. We assess the human rights risks of issues identified by calculating their severity and possibility of occurrence based on human rights indices announced by international institutions and other bodies, mapping the results, and implementing initiatives for these issues to reduce risks. We also receive and apply support and advice from external experts regarding identifying human rights risks. We have positioned the “development of an environment in which non-Japanese employees are not left behind in the workplace” and the “development of an environment in which diverse human resources can play active roles and support of women’s empowerment” as priority challenges of human rights risks. Accordingly, human rights risks are identified and assessed, with countermeasures incorporated into medium- to long-term plans to promote the initiatives. In the fiscal year ending March 31, 2027, as part of our human rights due diligence efforts, we will enhance “employee education to prevent discrimination and harassment,” and promote the “elimination of barriers caused by language and cultural differences amid increasing linguistic diversity.”

In addition, as a measure to promote women to managers, we have a support program for female employees who aim to become managers in place in Yamato Transport Co., Ltd. We are working to prepare development plans for program participants and provide opportunities to gain experience based on these plans. We conduct training for both participants and their superiors with “doing away with unconscious bias” as its theme. In doing so, we back up the empowerment of ambitious female employees. Moreover, from the perspective of providing participants with experience at an earlier stage, we will provide mid-term training programs for regularly hired employees, while supporting the autonomous career development of motivated female employees, including advancement to management positions for which they have a good aptitude.

In the area of employment of people with disabilities, we have appointed employees in charge of disability welfare across Group companies (including each regional branch of Yamato Transport Co., Ltd.) and held regular meetings for all employees in charge to share issues and good practices for employment promotion. In addition, we collaborate with affiliated organizations (the Yamato Welfare Foundation, Swan Co., Ltd., and Yamato Self-Support Center Social Welfare Corporation) to expand existing duties, support the establishment of new ones, and support employee retention. In addition, we have been implementing education based on the “Universal Manners Test,” which was jointly developed with Mirairo Inc., which is a company we have invested in, as well as training that promotes understanding of reasonable accommodations for people with disabilities and encourages changes in their own behavior. Through such education and training, we are promoting the development of an environment in which a diverse range of employees can play an active role.

To improve job satisfaction, we are striving to improve the workplace by encouraging open communication between management and employees. At Yamato Transport Co., Ltd., in order to help exchange opinions on issues in the workplace and deepen mutual

understanding, “workplace discussions” are held at each site nationwide. In the fiscal year under review, initiatives have been implemented for management to hold dialogues with general managers of sales offices, logistics center managers, other operational managers, as well as employees engaged in driving, office work, and operations. Furthermore, to prevent harassment in the workplace, we provide education for all employees and promote the creation of a comfortable work environment.

ii) Indicators and targets

(Indicators and targets aimed at FY2027/3)

[Material issue: Labor]

Indicator: Human productivity*1

Target: Improvement of work productivity

*1 $(\text{Consolidated operating revenue} - \text{Consolidated subcontracting expenses}) \div \text{Consolidated personnel expenses}$

Indicator: Employee awareness survey*2

Target: Improvement of engagement

*2 Applicable scope: Consolidated subsidiaries in Japan and Swan Co., Ltd.

[Material issue: Human rights & diversity]

Indicators and FY2027/3 targets	FY2025/3 actual	FY2026/3 actual
10% of all managers are women*1	6.6%	6.9%
3.1% percentage rate of employees with disabilities*2,3	3.3%	3.1%
100% attendance at human rights and anti-harassment training for all employees*1	90%	100%

*1 Applicable scope: Consolidated subsidiaries in Japan and Swan Co., Ltd.

*2 Applicable scope: Consolidated subsidiaries in Japan and Swan Co., Ltd. (excluding companies that are not subject to reporting on the employment status of people with disabilities)

*3 Following the April 2025 reduction of the exclusion rate under the amended Act to Facilitate the Employment of Persons with Disabilities (Act No. 123 of 1960): from 20% to 10% for the road freight transport industry and from 15% to 5% for the freight forwarding industry

(3) Response to climate change

The Yamato Group recognizes that identifying the risks and opportunities that climate change issues pose to society and enterprises, evaluating the impact, and developing countermeasures are essential for business sustainability. Based on the recommendations of the Task Force on Climate-related Financial Disclosure (TCFD), we conducted a scenario analysis for Yamato Transport Co., Ltd. and continue to revise its evaluations, including an additional financial impact evaluation of physical risks undertaken. By clarifying the business impact of climate change issues and focusing on items that will have a significant impact, we will work on measures to improve sustainability of our business and enhance our corporate value by engaging in dialogue with our stakeholders.

i) Governance

The Yamato Group deliberates and resolves on environmental issues, including climate change, based on an environmental management framework with the Yamato Group Environment Committee as the decision-making body, while the Board of Directors supervises the execution of these decisions.

Specifically, the President and Representative Director chairs the Environment Committee and is responsible for overseeing environmental management. Then, important items discussed by the Environment Committee, such as Basic Policy on environmental issues, including climate change, are deliberated and resolved by the higher-level Management Committee and the Board of Directors.

In addition, as environmental officers, the Executive Officers in charge of environmental fields, the Executive Officers and other similar positions of Yamato Transport Co., Ltd., and the Presidents of Group companies are responsible for ensuring the implementation, maintenance, and oversight of environmental management, including the preparation of the necessary management resources.

Furthermore, in principle, all general managers and heads of field organizations are “environmental managers,” responsible for managing risks and opportunities related to the environment, including climate change.

ii) Strategy

STEP 1: Assessment of risk importance

[Criteria for assessing importance]

We have established the level of importance in accordance with three grades (high, medium and low) based on criteria for evaluating the financial impact of revenue and costs incurred over a one-year period.

High: 10 billion yen or greater; medium: 1 billion yen or greater but less than 10 billion yen; low: less than 1 billion yen

[Assumed time period]

Short term (up to 2026); medium term (from 2027 to 2030); long term: (from 2031 to 2050)

Impacts of climate change on the Yamato Group						Occurrence timing
Risks			Risks	Opportunities	Magnitude of impacts	
Category	Type	Risk driver				
Transition Risks	Policy and Legal	(i) Carbon Pricing	Profit may decline if we cannot pass carbon tax on to prices.	Revenue may increase if low-carbon transport is sold as added value.	High	Medium-term
		(ii) Strengthened emissions reporting requirements	Revenue may decrease due to a loss in reputation if false reporting is made and found. System development costs and personnel expenses may increase in response to requests by business partners for precise reporting of GHG emissions.	—	Low	Medium-term
	Technology	(iii) Rising expectations for adding new technologies and high value to services	Revenue may decrease in the event of delays in responding to the transportation means and the deeper penetration of materials for curbing CO ₂ emissions accompanying the shift to a low-carbon society.	We may be chosen by customers as partners and revenue may increase if we introduce transportation means that will curb CO ₂ emissions as the shift to a low-carbon society takes place.	Low	Medium-term
		(iv) Request for low-carbon transport	Expenses for introducing low-carbon vehicles and equipment will increase.	If we promote low-carbon transport by introducing electric vehicles, energy used for vehicles may change from fossil fuels to electricity and procurement costs may fall.	Medium	Medium-term
	Market	(v) Change in energy mix	Expenses for energy used for vehicles and facilities may increase due to sharp rises in fuel prices and electricity prices caused by the deeper penetration of renewable energy, etc.	The energy self-sufficiency rate may rise and energy costs may fall, reflecting the introduction of renewable energy power generation facilities and solar power systems and the promotion of energy-savings activities.	Medium	Medium-term
		(vi) Rise in consumers and customers' environmental awareness	Our service may be avoided and revenue may fall if we fail to fully respond to the rising awareness of corporate and organizational clients of the need to reduce CO ₂ emissions throughout the supply chain and consumers' rising awareness of climate change and ethical consumption.	In eco-friendly corporate and organizational clients and those in EU countries, if expectations for reduced CO ₂ emissions throughout the supply chain and growing consumer expectations relating to climate change and ethical consumption are met, our service will be chosen, thereby resulting in revenue increase. If consumers actively use delivery lockers and pickup services at sales offices, redelivery due to absence may be reduced and delivery efficiency may improve, which may reduce working hours and related costs.	High	Medium-term
	Reputation	(vii) Criticism of the industrial sector	Expectations for the transport industry are high because it affects Scope 3 emissions in other industries. If it fails to achieve low-carbon transport, revenue may decline.	—	Low	Medium-term
		(viii) Impact on funding	If we are categorized as a company that is not environmentally sustainable, funding may become difficult.	Funding may diversify with a shift to a low-carbon society, and funding by a variety of means may become easier. Higher evaluation for our environmental initiatives will result in an expansion in investment and stock price stabilization.	Low	Medium-term
Physical Risks	Physical Risks	(ix) Increase in frequency and severity of extreme weather events	More frequent extreme weather events may lead to the more frequent suspension of business due to their effects on employees, delays in the recovery of facilities affected by extreme weather, and power and fuel supply disruptions, which in turn may cause a decrease in revenue.	Increasing our capability to deal with natural disasters may increase demand from customers that are concerned about more extreme natural disasters, and this may increase revenue. We may reduce losses of business opportunities and expenses for restoration by relocating at an early stage business sites to places where the risk of natural disasters is low.	Medium	Short-term
			If customers' facilities and products are affected and shipments stop, revenue may fall. Damage to logistics facilities and equipment and cargo may increase losses and repair costs.			
	Chronic	(x) Rising sea levels	Costs may increase due to the impact of increased insurance premiums and expenses for flood disaster measures at logistics sites located in coastal areas.	—	Low	Long-term
		(xi) Change in rainfall patterns and extreme changes in weather patterns	Decreases in shipments from customers significantly affected by climate change and water risk may cause a decrease in revenue. Delays in delivery due to disruptions to roads caused by flooding may increase related expenses.	—	Low	Medium-term
	Chronic	(xii) Rise in average temperatures	Rising average temperatures may increase health damage, including heat stroke, to employees and may lead to difficulty in hiring employees and an increase in employees who leave the company, which in turn leads to increases in expenses, including personnel cost and recruiting expense.	—	Low	Long-term
Rising average temperatures may cause an increase in energy consumption for temperature control at logistics facilities, which may result in an increase in utility costs. Local specialties may not be able to be harvested, which may cause a decrease in revenue from the delivery of fresh produce.						

STEP 2: Definition of scenario categories

In the scenario analysis that we performed in the fiscal year ended March 31, 2024, we envisioned the following two scenarios for Yamato Transport Co., Ltd. based on information from the UN Intergovernmental Panel on Climate Change (IPCC), the International Energy Agency (IEA)*¹, and so forth.

- A. 1.5°C Scenario²: The incurrence of costs associated with reducing carbon emissions will become necessary and we must enforce stricter regulations and higher fuel and electricity costs; however, sustainability is the key to creating and offering competitive products in the society under this scenario.
- B. 4°C Scenario: While we will continue to practice our current style of management, incurring costs to address damages from natural disasters, etc. in each area of operation will become necessary in the society under this scenario.

*1 IPCC: RCP8.5

IEA: Net Zero Emissions by 2050 Scenario, Sustainable Development Scenario, Stated Policies Scenario, etc.

*2 See 2°C Scenario for items with no scenario for 1.5°C

STEP 3: Evaluation of business impact

Recognizing the possibility that the introduction of a carbon tax and abnormal weather and disasters would exert a particularly large impact on revenue and costs among the risks that we extracted, we performed the following analysis and business impact evaluation. (A and C were reevaluated in 2025)

●Items evaluated

- A. Financial impact from introduction of carbon tax
- B. Financial impact from decreasing revenues and increasing repair costs for facilities and equipment due to abnormal weather and disasters
- C. Financial impact from asset losses and the suspension of operations due to a flood disaster

●Details

- A. Financial impact from introduction of carbon tax

If a carbon tax is fully introduced and tax rates increase, emissions generated by vehicles, large-scale facilities, and other business operations, may become subject to taxation, potentially increasing the Company's tax burden. Assuming carbon tax price of 140 US dollars/tCO₂ for 2030 and 250 US dollars/tCO₂ for 2050³, we estimated the associated carbon tax burden at 15.6 billion yen in 2030 and 27.9 billion yen in 2050 under the 1.5°C scenario, with no mitigation measures implemented.

*3 Source: p. 329, World Energy Outlook 2024 issued in 2024 by International Energy Agency (IEA)

- B. Financial impact assessment regarding decreasing revenues and increasing repair costs for facilities and equipment due to abnormal weather and disasters

As a result of estimating business impact of the decrease in revenues due to abnormal weather such as increasingly severe typhoons and heavy rain caused by linear rainbands, and the increase in damaged facility and equipment repair costs⁴, we calculated that estimate to be 1.9 billion yen for 2030 and 3.8 billion yen for 2050.

*4 Estimated using disasters that occurred in past as reference

- C. Financial impact from asset losses and the suspension of operations due to a flood disaster

A flood disaster may adversely affect financial performance through asset losses and the suspension of operations. We estimated that the annual impact of a 1-in-100 year flood under the 4°C scenario (equivalent to RCP8.5) would be 400 million yen in 2030 and 400 million yen in 2050. Damage to buildings and other depreciable assets, as well as losses resulting from the suspension of operations, were calculated using damage rates and estimated downtime associated with the floodwater depth at each evaluated facility.

[Estimation methodology]

Estimates were developed based on selected calculation methods set out in "A Guide to Flood Risk Assessments for Enhanced TCFD Disclosures" issued by the Ministry of Land, Infrastructure, Transport and Tourism. Flood risk data were sourced from "Aqueduct Floods," a dataset provided by the World Resources Institute (WRI)⁵.

*5 Spatial floodwater depth data were derived by averaging projected floodwater depths across the following five climate models. The locations of 46 sites were evaluated. Climate models:

GFDL-ESM2M (Geophysical Fluid Dynamics Laboratory);

HadGEM2-ES (Met Office Hadley Centre);

IPSL-CM5A-LR (Institut Pierre Simon Laplace);

MIROC-ESM-CHEM (The Atmosphere and Ocean Research Institute, The University of Tokyo; The National Institute for Environmental Studies; Japan Agency for Marine-Earth Science and Technology); and

NorESM1-M (Bjerknes Centre for Climate Research, Norwegian Meteorological Institute).

STEP 4: Direction of countermeasures

A. Introduction of carbon tax

The Yamato Group is working towards its high adopted target of virtually zero in-house emissions by the year 2050 in order to reduce GHG emissions.

- a. Having adopted a reduction of 48% compared with FY2021/3 as our target value for 2030, our primary planned measures for realizing that target include introducing 23,500 low-carbon vehicles (mainly EVs) and solar power generation units by 2030. By doing so, we estimate reduction effects of 6.9 billion yen by 2030 compared to if we did not take this initiative.
- b. Should we achieve virtually zero in-house emissions by also bolstering measures, such as introducing EVs with cartridge batteries and other low-carbon vehicles and increasing the use of electricity derived from renewable energy sources generated by the solar power generation equipment installed at Yamato Group's bases and regional power generation companies, with a view to 2050, we envision that we will be able to eliminate the financial impact of a carbon tax.
- c. We are looking into introducing internal carbon pricing with the aim of proactive capital investment in low-carbon transition.

B. Decrease in revenues and increase in damaged facility and equipment repair costs due to abnormal weather and disasters

In addition to store openings utilizing a hazard map and regular updates to its business continuity plan (BCP) manual, the Yamato Group communicates information on adapting to climate change to internal members and external partners. In the future, we will perform demonstrations of utilization models of renewable energy that boosts resilience and EVs with cartridge batteries.

C. Initiatives to seize opportunities for increased environmental awareness among consumers and customers

In order to achieve "net-zero (in-house) GHG emissions by 2050," the Yamato Group is promoting the reduction of its GHG emissions by introducing EVs and procuring electricity derived from renewable energy sources generated by Yamato Group's bases and regional power generation companies. In addition, to support our customers' efforts to build supply chains with a lower environmental impact, we launched the GHG Emissions Reporting Service for corporate customers in November 2025. In this service, we calculate GHG emissions generated in transportation and delivery processes of TA-Q-BIN, TA-Q-BIN Compact, and EAZY (hereinafter collectively, the three parcel delivery services). The calculation method used in this service is based on ISO 14083:2023^{*6}, the international standard for calculating GHG emissions in the logistics domain, published in March 2023. Validation has been obtained from SOCOTEC Certification Japan Co., Ltd. Since the fiscal year ended March 31, 2023, we have made a carbon neutral claim for the three parcel delivery services. This claim consists of achievement of carbon neutrality pursuant to the international standard ISO 14068-1:2023 in each fiscal year since the fiscal year ended March 31, 2023 and commitment to achieving carbon neutrality for the three parcel delivery services by 2050 through continuous efforts to reduce in-house GHG emissions from our business activities. This claim was verified by BSI Group Japan K.K., a third-party organization. Through the provision of such climate-friendly transportation services, the Yamato Group will further promote the use of these services by individual and corporate customers.

Moreover, we promote efforts to generate economic value through the creation of business models that solve environmental issues. In the fiscal year ended March 31, 2026, we expanded the provision of "EV Lifecycle Service" that leverages expertise in the adoption and utilization of commercial EVs developed in the last-mile domain. Yamato Energy Management Co., Ltd., established in January 2025, also began providing services aimed at decarbonization, such as electricity derived from renewable energy sources, initially to Yamato Transport Co., Ltd.'s facilities across Japan. Furthermore, Sustainable Shared Transport Inc., established in May 2024, is structuring an open platform that enables various stakeholders including shipping and logistics companies to participate in joint transportation and delivery and expanding its business, aiming to standardize and streamline logistics through joint transportation and delivery that transcends corporate boundaries. In November 2025, Yamato Transport Co., Ltd. launched the GHG Emissions Reporting Service nationwide, with calculations conducted in compliance with the international standard ISO 14083:2023. Through these initiatives, we aim to contribute to the Yamato Group's profit growth and the sustainability of society and the logistics industry as a whole.

^{*6} An international standard for quantifying and reporting GHG emissions arising from transportation across road, rail, air, sea, inland waterway and other transport modes.

iii) Risk management

A dedicated department has been established in our Company to oversee the promotion of measures related to climate change throughout the Yamato Group. In addition, each Group company has appointed an environmental officer (President and Representative Director) and an environmental promotion representative (Promoter), as the entire Group promotes action against climate change.

The Yamato Group Environment Committee, chaired by the President and Representative Director and composed of Executive Officers, etc. of Yamato Transport Co., Ltd. and Presidents of major Group companies, meets once a year to deliberate and resolve issues and risks related to the environment, including climate change. In addition, important items are discussed and resolved at the Management Committee and the Board of Directors as necessary.

iv) Indicators and targets

A. Indicators used in evaluations of climate-related risks and opportunities in accordance with strategy and risk management processes

As indicators to manage response to climate change, for transition risk, the Yamato Group refers to energy-related indicators such as “carbon pricing” published in the World Energy Outlook by the IEA. For physical risk, we reference data such as flood occurrence frequency to understand changes in trends using the likes of materials based on climate change that are disclosed by the Ministry of Land, Infrastructure, Transport and Tourism, the Ministry of Education, Culture, Sports, Science and Technology, and the Japan Meteorological Agency.

B. GHG emissions

(Unit: tCO₂e)

	FY2021/3	FY2025/3	FY2026/3
Scope 1	673,381	649,522	643,795
Scope 2	262,278	129,507	107,993
Scope 1 & Scope 2 total (in-house emissions)	935,659	779,029	751,787
Scope 3	1,750,716	2,417,091	2,478,237
Scope 1, Scope 2 & Scope 3 total	2,686,375	3,196,120	3,230,024

- Applicable scope of Scope 1 & Scope 2: Consolidated subsidiaries in Japan and Swan Co., Ltd.
- Due to changes in the scope of consolidation, Scope 1 & Scope 2 emissions data have been retrospectively revised from the base year (FY2021/3) onward to align with the reporting boundary used for the fiscal year ended March 31, 2026.
- Applicable scope of Scope 3: Categories 1, 2, 3, 4, 5, 6, 7, 11 and 12

C. Targeted and actual figures used in climate change-related risk and opportunity management

[Targeted GHG emission reductions*1]

Short term: 25% reduction by 2026 compared with FY2021/3

Medium term: 48% reduction by 2030 compared with FY2021/3

Long term: Virtually zero emissions by 2050

[Actual GHG emissions*1]

751,787 tCO₂e for FY2026/3 (20% reduction compared with FY2021/3)

*1 In-house emissions of consolidated subsidiaries in Japan and Swan Co., Ltd. (Scope 1 & Scope 2)

[Targeted ratio of electricity derived from renewable energy sources]

Short term: 70% of overall electricity by 2026

[Actual ratio of electricity derived from renewable energy sources]

68% of overall electricity for FY2026/3

The actual GHG emissions and ratio of electricity derived from renewable energy sources for the fiscal year ended March 31, 2026, as described in (iv) Indicators and targets, are provisional data as of the filing date of the Annual Securities Report. The finalized data will be included in the “Integrated Report 2026” to be released in the fiscal year ending March 31, 2027.

In parallel with implementing measures aimed at achieving the above targets, we are making concrete preparations to obtain accreditation for the SBT1.5°C.

Note that disclosures on “2. Approach to Sustainability and Associated Initiatives” have been made with the judgment that there are no significant differences between the situation at the Company and its consolidated subsidiaries and the situation in the Yamato Group, including its unconsolidated subsidiaries, etc.

3. Business and Other Risks

Among the matters related to business conditions, accounting conditions, etc., as described in the Annual Securities Report, the major risks that are recognized as having a significant impact on the Yamato Group's business results, etc., from the perspective of their impact on management and the likelihood that they will materialize, are categorized as risks related to the business environment and corresponding strategies, and risks related to business operations, and they are summarized as follows.

Forward-looking statements in the text are based on the judgment of the Yamato Group as of the filing date of the Annual Securities Report.

(1) Risks related to the business environment and corresponding strategies

i) Risks due to changes in the market and competitive environment

The market environment surrounding the Yamato Group is changing with the advancement of e-commerce, the division of the world into political and economic blocs, reshaping of global supply chains, and the worsening of climate change and a declining working population. The progress in the shift to e-commerce is also changing the competitive environment, not only intensifying competition with logistics providers, but also making it more important to have strategic relationships with EC operators that are converting to in-house logistics, as well as the need to be aware of start-ups that have the potential to change business practices through digital means. In these circumstances, failure to respond to the changing and diversifying needs of consumers and the logistics needs of corporate customers who are restructuring their existing distribution structures could result in a decline in operating revenue and missed growth opportunities, which could affect the Yamato Group's business results. In addition, if we are unable to respond appropriately to important issues related to sustainability for the Yamato Group, we may face a decline in customer support, deterioration in relationships with the regional society, difficulty in securing talented human resources, and higher financing costs. This may affect the business results of the Yamato Group in the mid- to long-term.

In light of these risks, the Yamato Group has set its vision for 2030 as "a value-creating company that contributes to the realization of a sustainable future," and is promoting initiatives to enhance its corporate value.

In the reinforcement of the TA-Q-BIN network and expanding the value it provides, we will work to reform our revenue structure in order to transform our basic domain TA-Q-BIN business into a business structure that can ensure stable profits. In addition, in terms of expanding our corporate business domain, we are working to grow profits by viewing changes as an opportunity amid increasing risk factors such as division of the world into political and economic blocs, reshaping of global supply chains, and global environmental problems, and by providing corporate customers with high-value-added solutions that utilize the Group's management resources, such as our transportation and delivery network, including domestic and international warehouses and cargo air transportation, as well as know-how of logistics, customs clearance, and real estate. Additionally, we are working with a diverse range of partners to promote initiatives that generate economic value by creating business models that solve environmental and social issues.

We are also promoting our HR strategy, digital strategy, and environmental/social strategy, and are working on the reinforcement of sustainable management and corporate governance, etc., as a Group management foundation to support these initiatives.

ii) Risks due to the declining working population

Many of the businesses operated by the Yamato Group are labor-intensive, and it is essential for us to secure high-quality human resources as our workforce and to assign them to their positions appropriately. If the supply-and-demand for labor becomes even tighter due to a decline in Japan's working population, if it is not possible to secure sufficient human resources including transportation and delivery partners, or if costs significantly increase due to more intense competition over human resources, the Yamato Group's business results may be affected.

In light of these risks, in addition to appropriately implementing human capital investment, including our partners, based on the Yamato Group Human Resources Management Policy, the Yamato Group is promoting to build an environment in which employees can advance while being motivated to work through an attractive personnel and evaluation system that contributes to the acquisition and retention of human resources. It is also developing a workplace environment in which human rights and diversity are respected and employees can work with greater peace of mind, and working to strengthen cooperation with our transportation and delivery partners, including in terms of safety and quality. In addition, in the transportation domain, to increase transportation and load efficiencies as well as restrain fixed costs and control variable costs according to workload while making our TA-Q-BIN network social infrastructure more efficient and sustainable and meeting the needs of our customers, we are making efforts to station workers taking on sorting properly by reviewing the way of carrying between terminals and between terminals and collection and delivery bases in conformity with changes in the fluid volume of loads.

iii) Risks involved in the evolution of technology

The logistics industry in which the Yamato Group operates is undergoing various changes due to the evolution of technology, such as resource optimization through the utilization of AI, IoT, big data, and more, the automation of warehouse operations through the utilization of robotics, reformation of trunk route transportation and last-mile delivery through the utilization of drones and automated driving, and overwhelming efficiency improvements in white-collar operations through the utilization of generative AI and AI agents. If the Yamato Group is unable to respond appropriately to the emergence of new business models expected in the short to mid-term, or if there is a misunderstanding of technological trends or inadequacies in the implementation method of cutting-edge technologies, the investment effect may not be achieved as expected, which may affect the Yamato Group's business results.

In light of these risks, the Yamato Group has positioned its digital strategy as one of the Group's management foundations for achieving sustainable improvement in corporate value, promoting data-driven management with the principal axis of product development that utilizes big data accumulated through its TA-Q-BIN business, and price optimization and cost control through modeled and elaborated future prediction. Moreover, strengthening our DX promotion framework and accelerating change of "operations" and our way of "working" and generative AI-centric business process reengineering of back-office operation, we are promoting DX in tandem with our business, eyeing the possibility of new business creation. We are also striving to quickly detect technologies and business models that could become a threat to the Yamato Group through collaboration with CVC and VC funds, as well as to create new growth models through open innovation.

iv) Risks involved in information security

In addition to confidential business information, the Yamato Group also holds a great deal of personal and customer information through its logistics operations and commissioned information processing. If information were to be leaked externally or data were to be lost due to causes such as cyber-attacks or inadequate management, the business results of the Yamato Group may be affected due to damaged public trust, claims for damage compensation, and doubts about the digital strategy we are promoting. In addition, if the TA-Q-BIN system were to go down due to a cyber-attack, etc., and TA-Q-BIN deliveries were to be suspended nationwide, the Yamato Group's business results could be affected by lost revenue opportunities, etc.

In light of these risks, the Yamato Group is engaged in organizational and personnel-based measures as well as multi-layered technical measures, etc. in Japan and overseas assuming more advanced and more sophisticated cyber-attacks. Other security measures include 24 hours a day and 365 days a year monitoring against unauthorized access to the network and unauthorized entry into the facility. In addition, as a countermeasure against system outages due to broad-based disasters, we have decentralized data centers for critical systems and operate mutual backups. As a countermeasure against system breakdowns, we have maintenance contracts with manufacturers to deal with hardware degradation over time and potential bugs in their products, and we are constantly coordinating information on problems or defects. Furthermore, we are striving to prevent information leaks from within by enhancing data governance, such as by developing usage environments and usage rules.

v) Risks involved in depopulation of the region

Japan, which is the Yamato Group's main market, is experiencing a decline in the total population as well as a variety of issues in regional lifestyles and regional economies. In depopulated and aging regions, declining delivery efficiency and a shortage of human resources for pickup and delivery have become apparent. In the future, the business results of the Yamato Group may be affected if problems such as the decline of the regional social infrastructure due to a shrinkage of the local economy become more serious, or if it becomes more difficult to maintain a logistics network that covers the entire country in fine detail from a mid- to long-term perspective due to the decreasing profitability in such regions.

In light of these risks, to make our TA-Q-BIN network social infrastructure more efficient and sustainable, we are making efforts to station workers taking on sorting properly by reviewing the way of carrying between terminals and between terminals and collection and delivery bases in conformity with changes in the fluid volume of loads in the transportation domain. In addition, in order to respond to various needs of regional society, we are working to provide solutions aimed at solving regional issues, such as the reallocation of pickup and delivery bases in consideration of local market conditions and operational efficiency, and the deployment of community-based service locations that aim to provide new services beyond just sending and receiving packages.

vi) Risks involved in climate change

The Yamato Group uses a large number of vehicles to carry out its business. If global environmental issues, including climate change, become more serious, and if greenhouse gas (GHG) emission regulations or reduction obligations are tightened, or if carbon taxes are raised, the Yamato Group's business results may be affected due to increased costs for the introduction of low-carbon vehicles and facility renovations, etc. Also, with consumers becoming increasingly conscious of environmentally friendly consumption and with corporate customers' demands to reduce GHG emissions throughout their supply chains, if we are unable to meet the expected low-carbon transportation, operating revenue may decrease due to a decline in customer support, which may affect the Yamato Group's operating results among others. In addition, if the transition to a low-carbon society does not progress, the long-term effects could include frequent suspension of business activities due to damage to employees and facilities, road cutoffs, or power and fuel supply outages caused by more severe or more frequent natural disasters, which could affect the Yamato Group's operating results.

In light of these risks, the Yamato Group has set a medium-term target of reducing GHG emissions by 48% by 2030 compared to the fiscal year ended March 31, 2021, and is promoting initiatives such as "introduction of 23,500 EVs" and "increase in the use of electricity derived from renewable energy sources," in order to achieve the long-term target of effectively zero GHG emissions (in-house emissions) by 2050. We are also working to ascertain net emissions in the supply chain (Scope 3) and set reduction targets. We made a carbon neutral claim for TA-Q-BIN, TA-Q-BIN Compact, and EAZY (the three parcel delivery services). This claim consists of achievement of carbon neutrality pursuant to the international standard ISO 14068-1:2023 for our services in each fiscal year since the fiscal year ended March 31, 2023, and commitment to achieving carbon neutrality for the three parcel delivery services by 2050 through continuous efforts to reduce in-house GHG emissions from our business activities. Through the provision of such climate-friendly transportation services, the Yamato Group will further promote the use of these services by individual and corporate customers.

In addition, the entire Group is working to improve its resilience by strengthening its crisis management system in anticipation of various emergency situations caused by natural disasters. Specifically, we are conducting drills based on the business continuity plan (BCP), assessing the risk of flood damage to facilities, reallocating bases, and continuously reviewing manuals related to post-disaster response, suspension of pickup and delivery, maintenance work, etc. in preparation for unexpected disasters.

vii) Risks involved in M&As and strategic business alliances

Companies are required to take responses amid increasing risk factors such as division of the world into political and economic blocs, reshaping of global supply chains, and global environmental problems. The Yamato Group views changes as an opportunity, and positions the solutions business aiming to solve customers' management issues that extend throughout the entire supply chain as a growth area. In order to accelerate its expansion, we are promoting M&As and strategic alliances in addition to autonomous growth measures. However, if we are unable to achieve the expected results due to changes in the business environment or competition, or if unforeseen business problems occur, our business results may be affected.

In light of these risks, the Yamato Group will work with discipline, focusing on compatibility with the growth strategies of Contract Logistics business and Global business as well as establishing quantitative criteria to measure investment effectiveness, among other things. In addition, following M&A implementation, we continue to conduct regular monitoring in accordance with the business feasibility determination rules.

(2) Risks related to business operations

i) Risks involved in compliance

The Yamato Group promotes management that places the utmost priority on compliance. However, it may not be possible to completely avoid compliance risks in products and services, work and safety, and the entire supply chain, and if a situation that infringes on a law or regulation were to occur, the Yamato Group's social trust and brand image could be damaged, and additional costs could be incurred in response to that occurrence. This may affect the business results of the Yamato Group. In particular, if violations of laws and regulations occur in operation management or transportation, not only is there a possibility of administrative or criminal penalties, but there is also a possibility of impact on human life and the continuation of major businesses. In addition, if we are unable to respond appropriately to the revised Motor Truck Transportation Business Act and the Act on Advancement of Integration and Streamlining of Distribution Business (Logistics Efficiency Act), which were enforced in light of the "2024 issue" and other factors raising concerns about the stagnation of logistics, the Yamato Group's business results may be affected.

In light of these risks, based on its corporate philosophy, the Yamato Group carries out business activities in accordance with the law and social norms and actively promotes compliance management. As a foundation to improve the soundness of our Group management, we are striving for appropriate operation of our product management process based on our product management regulations, operation management using the system, implementation of philosophy training for employees, quick discovery and appropriate response to inappropriate incidents through our whistle blower system consultation desk for our transaction partners, regular consultations with business partners, and the establishment of appropriate systems, processes and mechanisms. In addition, the Internal Audit Department conducts audits using a risk-based approach in a planned manner. In addition, in response to recent legal

reforms in the logistics industry, we are implementing legal reform measures at each Group company, including making sufficient preparations during the period between the enactment and enforcement of the reforms and aligning current business operations and internal regulations with the provisions of the revised laws.

ii) Risks involved in large-scale natural disasters, and the like

The Yamato Group's main business is the transportation of parcels by vehicle, and we operate our business assuming the safety and health of our employees, the maintenance of our vehicles and facilities, and the stable supply of fuel and electricity. In the event of an unexpected large-scale natural disaster or power outage, etc., the Yamato Group's business results could be affected by a shortage of human resources due to employees and partners becoming victims, business stoppages due to damage or submersion of vehicles, facilities, data centers, and public cloud service infrastructure, etc., power or water outages or shortages of fuel or supplies, incurring repair or replacement costs for vehicles or facilities, or a decrease in shipment volume due to customers becoming victims, from immediately after the disaster and over the medium to long term.

In light of these risks, the Yamato Group, as a corporate group responsible for social infrastructure, has formulated a business continuity plan (BCP) to ensure that we can continue to provide stable services even in unexpected situations. The entire Group is working to strengthening its crisis management system in anticipation of various emergency situations. We are conducting drills based on the BCP, assessing the risks of facilities and implementing relocations, as well as continuously reviewing manuals related to post-disaster response, suspension of pickup and delivery, maintenance work, and other needs in preparation for unexpected disasters. In the event of an emergency, based on the Yamato Group basic BCP policy, which is centered on "placing the highest priority on human life," "aiming for early restoration of the business of each Group company," and "meeting the expectations of the local community as a social infrastructure," we will establish an internal task force in accordance with our standards, respond in cooperation with the Group companies, and work to provide value to the affected areas and customers in response to their issues.

iii) Risks involved in serious traffic accidents and occupational accidents

The Yamato Group conducts its business mainly using vehicles on public roads, and if a serious traffic accident were to arise, the Yamato Group could suffer a drop in social trust, discontinuation of the use of its vehicles due to administrative punishment, discontinuation of business operations at its offices due to the violation point system, revocation of its business license, and other measures. This could result in business being disrupted or suspended. In addition, causing a serious occupational accident that impairs the safety and health of employees and others could affect the business results of the Yamato Group.

In light of these risks, the Yamato Group places the utmost priority on respect for human life, and is working to promote initiatives in line with transportation safety management and occupational safety and health management systems (OSHMS), formulate and comply with rules to ensure safety, maintain facilities and systems, provide safety education and raise awareness among employees, implement periodic checks by the Audit Division and others on the status of compliance with laws and regulations in operations and maintenance management, and ensure a safe and secure working environment in accordance with the Industrial Safety and Health Act. In addition, the importance of heat countermeasures has increased from the perspective of preventing occupational accidents. To prevent employees from suffering from heatstroke or heatstroke complications, we are implementing measures tailored to job types and locations, such as establishing action guidelines based on the heat index (WBGT: Wet Bulb Globe Temperature), and introducing fan-equipped vests and cooling equipment.

iv) Risks involved in labor-related laws and systems

Many of the businesses operated by the Yamato Group are labor-intensive, and it is essential for us to secure high-quality human resources as our workforce and to assign them to their positions appropriately. In the event of revisions to laws, regulations, systems related to labor, social insurance, or the like, the Yamato Group's business results may be affected due to a significant increase in costs to comply with such revisions. In addition, the application of overtime caps in vehicle driving operations, etc., which will reduce capacity for long-distance transportation in the transportation industry and continue to increase the cost of outsourcing to transportation partners, which may affect the Yamato Group's business results.

In light of these risks, Yamato Group is promoting the development of a working environment and HR system that appropriately complies with laws and regulations. In the transportation domain, to increase transportation and load efficiencies as well as restrain fixed costs and control variable costs according to workload while meeting the needs of our customers, we are making efforts to station workers taking on sorting properly by reviewing the way of carrying between terminals and between terminals and collection and delivery bases in conformity with changes in the fluid volume of loads. In addition, we expand the use of trailers, including the Super Full Trailer SF25, which contributes to more efficient long-distance transportation, and promote modal shifts, and as a method of long-distance transportation toward building a sustainable logistics network, in addition to trucks, railroad, ferries, and cargo air transportation.

v) Risks due to the influence of international situations and the like

If the regions in which the Yamato Group conducts its business activities or the regions in which its major clients conduct their business activities are affected by terrorism, war, or other international conflicts or trade disputes, the business results of the Yamato Group may be affected by stagnating logistics caused by a reduction in international trade or disruptions in the supply chain or the like. In addition, as the Yamato Group's main business is the transportation of parcels by vehicle, a constant, stable, and appropriate supply of fuel such as diesel oil is essential in order to carry out the business. If supply were to be restricted or fuel prices, etc. were to skyrocket due to international situations or the like, the business results of the Yamato Group may be affected.

In light of these risks, the Yamato Group is working to meet the needs of its customers by combining a variety of transportation methods by land, sea, and air for the globally extending supply chains of its customers, and by viewing changes as an opportunity, to provide high-value-added solutions that utilize the Group's management resources, such as our transportation and delivery network, including domestic and international warehouses and cargo air transportation, as well as know-how of logistics, customs clearance, and real estate. Additionally, we are promoting measures to improve energy efficiency, such as streamlining transportation and delivery through reviewing the way of carrying between terminals and between terminals and collection and delivery bases in conformity with changes in the fluid volume of loads and stationing workers taking on sorting properly, modal shifts, the introduction of more fuel-efficient vehicles, and the introduction of energy management systems, while also working to optimize pricing for customers in light of rising fuel prices and other factors.

vi) Risks due to influence from the financial market

The Yamato Group acquires the necessary funding by effectively utilizing Group funds as well as combining borrowing from financial institutions and issuing bonds, etc., while referring to our investment plans for business continuity and growth. The future economic situations of Japan and abroad may make it difficult to procure funding if the financial markets become dysfunctional or if financial institutions are selective in their lending, and interest expenses may increase due to rising interest rates.

In light of these risks, we will work to strengthen balance sheet management while taking into consideration financial soundness and efficiency, such as cash generation, cash and deposits held, equity ratio, etc. as well as effective utilization of Group funds. We will also consider measures to generate funds through liquidating non-current assets as appropriate. Additionally, when raising funds through borrowings from financial institutions and issuance of corporate bonds as necessary, we will strive to appropriately diversify our funding sources and timing.

4. Management's Analysis of Financial Conditions, Business Results and Cash Flows

The analysis of the Yamato Group's financial conditions, business results and cash flows for the fiscal year ended March 31, 2026 is provided below.

Forward-looking statements in the text are based on the judgment of the Yamato Group as of the filing date of the Annual Securities Report.

(1) Business results

In the economic environment during the fiscal year under review, the continuing decline in real wages amid a growing likelihood of price increases led to a persistent sense of stagnation in personal consumption. In addition, the business environment remains challenging due to a worsening labor shortage and soaring energy and raw material prices due to the escalating tensions in the Middle East towards the end of the fiscal year, making it difficult to predict the future.

In these circumstances, to enhance its corporate value continuously through "helping enrich our society" held up in its Management Philosophy, in accordance with the Medium-term Management Plan "Sustainability Transformation 2030 —1st Stage—," the Yamato Group will promote efforts at: the reinforcement of the TA-Q-BIN network to achieve profit growth in basic domain; the expansion of corporate business domain through provision of business solutions; the commercialization of new business models to meet the diversifying needs of customers and society; and the strengthening of the Group's management base. The Group will also promote efforts to generate "economic value" and to create "environmental value" and "social value" toward social sustainability.

Our consolidated financial results for the fiscal year ended March 31, 2026 were as follows.

Category	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026	Change	Growth (%)
Operating revenue (Millions of yen)	1,762,696	1,865,675	102,979	5.8
Operating profit (Millions of yen)	14,206	28,304	14,098	99.2
Ordinary profit (Millions of yen)	19,587	26,258	6,670	34.1
Profit attributable to owners of parent (Millions of yen)	37,937	13,662	(24,275)	(64.0)

For the fiscal year ended March 31, 2026, operating revenue amounted to 1,865,675 million yen, up 102,979 million yen year-on-year. This was mainly due to progress in initiatives to transform the revenue structure, including an increase in the volume of TA-Q-BIN parcels from small-scale corporate and individual customers which are handled by the TA-Q-BIN Department and progress in optimizing pricing for large-scale corporate customers for which the Corporate Business Department has made efforts, as well as expansion of corporate customers business.

Operating expenses amounted to 1,837,370 million yen, up 88,880 million yen year-on-year. This was mainly due to the implementation of initiatives to strengthen the TA-Q-BIN network, including investments in human capital, such as improving the treatment of employees and partners and network investment such as relocating collection and delivery bases, as well as the rising procurement costs. Meanwhile, we were working to reform the operation in the transportation domain to focus on cost control.

As a result, for the fiscal year ended March 31, 2026, operating profit amounted to 28,304 million yen, up 14,098 million yen year-on-year. Profit attributable to owners of parent amounted to 13,662 million yen, down 24,275 million yen from the previous fiscal year, despite continued efforts to improve capital efficiency through asset securitization and sale of shares under cross shareholdings in the fiscal year under review. This was because we recorded extraordinary income in the previous fiscal year related to a large sale-and-leaseback of the head office building, etc.

<Business strategies of each segment>

○ Express Business

- i) In the Express business, we provide individual and corporate customers with domestic transportation and delivery services mainly through TA-Q-BIN. Also, we are working to expand the volume of parcels from small-scale corporate and individual customers which are handled by the TA-Q-BIN Department and to optimize pricing according to added value for large-scale corporate customers for which the Corporate Business Department has made efforts. Moreover, while putting more resources towards developing an environment where sales drivers can interact with customers to focus on providing better services, we proceed with the development of products and services that meet customer needs, the relocation of pickup and delivery bases based on local market demand, and the deployment of community-based service locations that provide services beyond just sending and receiving of TA-Q-BIN parcels. We are also working to improve the efficiency of transportation, which will contribute to strengthening the TA-Q-BIN network.
- ii) During the fiscal year under review, in light of rising costs due to changes in the external environment, we have continued to strengthen sales efforts for small-scale corporate and individual customers in the TA-Q-BIN Department, and to respond to the diverse transportation needs and optimize pricing according to added value for large-scale corporate customers in the Corporate Business Department. Specifically, in October 2025, we revised reported fares of TA-Q-BIN, and from November 2025, we launched the “Same-Day TA-Q-BIN Delivery” service that delivers packages received in the morning on the same day, as well as the new inter-prefectural fare. Also, we have provided convenient receiving experiences for more customers, such as making “Okihai” (unattended delivery service) more available in collaboration with e-commerce businesses, which has contributed to reducing redeliveries, improving logistics efficiency, and reducing greenhouse gas emissions. In addition, in order to meet the needs for delivering small packages, we also promoted the expansion of sales of “Koneko-Bin 420,” a service that allows customers to send packages nationwide for a flat fee by purchasing product-specific materials in advance, throughout the nation excluding Okinawa.

With regard to reinforcement of the TA-Q-BIN network, to improve transportation and loading efficiency and optimize operating costs while responding to customer needs and ensuring appropriate working conditions for transportation partners, we are reviewing our current transportation methods, including switching to a relay system that connects long-distance routes by establishing intermediate transit points, and promoting modal shift, including the use of dedicated freight aircraft. We are also promoting efforts on the appropriate allocation of personnel responsible for sorting operations, etc.
- iii) Operating revenue from customers was 1,557,978 million yen, up 1.5% from the previous fiscal year, mainly due to an increase in the volume of parcels from small-scale corporate and individual customers which are handled by the TA-Q-BIN Department and progress in optimizing pricing for large-scale corporate customers for which the Corporate Business Department has made efforts. Operating profit was 2,299 million yen, up 15,198 million yen from the previous fiscal year.

○ Contract Logistics Business

- i) In the Contract Logistics business, we provide solutions that help solve problems and grow business of corporate customers by combining our transportation and delivery network with added value services such as warehouse operations, etc.
- ii) In the fiscal year under review, we worked to propose higher value-added supply chain solutions, such as the operation of inter-company inventory and distribution bases and comprehensive logistics centers for e-commerce businesses and the improvement of the quality and productivity of operations by utilizing the know-how of Nakano Shokai Co., Ltd., which is one of our consolidated subsidiaries. Also, in October 2025, we opened an integrated business solution hub in Koriyama City, Fukushima Prefecture, which combines the Group's transportation terminal with a logistics center offering high value-added functions.
- iii) Operating revenue from customers was 164,602 million yen, up 69.6% from the previous fiscal year, due to progress in acquiring new projects and the consolidation of Nakano Shokai Co., Ltd. as a consolidated subsidiary. Operating profit was 6,217 million yen, up 634 million yen from the previous fiscal year.

○ Global Business

- i) As for Global business, the Yamato Group is combining international forwarding, international express, and contract logistics in international offices to provide solutions to optimize the entire global supply chain for corporate customers through cooperation of business companies in Japan and abroad. Viewing changes in the supply chain as an opportunity, and leveraging the existing vast customer base accumulated by TA-Q-BIN, we are making efforts to further expand business areas such as automotive, high-tech, and food industries where the Yamato Group is demonstrating its strength, and strengthening sales capabilities especially in Japan, North America, China, and Southeast Asia.
- ii) During the fiscal year under review, our domestic business companies and the Group companies that are locally operated in various countries have strengthened their collaboration more than before and established a system for integrated business promotion. We have also continued to promote initiatives such as improving the efficiency in mixed-loading of international forwarding, strengthening proposals to the growing cross-border e-commerce businesses, and capturing the logistics demand accompanying the expansion of domestic demand in the focus regions.
- iii) Operating revenue from customers was 97,552 million yen, up 13.5% from the previous fiscal year, mainly due to increasing sales in international forwarding services. Operating profit was 8,150 million yen, down 877 million yen from the previous fiscal year.

Category	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026	Change	Growth (%)
TA-Q-BIN/TA-Q-BIN Compact/EAZY (Million units)	1,961	1,941	(20)	(1.0)
Nekopos/Kuroneko Yu-Packet (Million units)	391	451	60	15.4
Kuroneko Yu-Mail (Million parcels)	110	95	(14)	(13.6)

○ Mobility Business

- i) In the Mobility business, by utilizing our know-how of EVs, solar power generation equipment, energy management, etc. accumulated so far through environment investment and demonstration experiments within the Yamato Group, we are expanding the sales of the "EV Lifecycle Service," that includes EV procurement and efficient utilization know-how, supply of renewable energy-derived electricity, and an energy management system developed by the Yamato Group in order to meet the environmental needs of corporate customers who use vehicles, in addition to vehicle maintenance services. In addition, we offer vehicle maintenance services that enable servicing without the need to stop business operations, thereby facilitating operational safety and extending vehicle uptime of transportation companies.
- ii) During the fiscal year under review, we have strengthened the sales system of the "EV Lifecycle Service" to promote the expansion of sales. Also, we have promoted creation of an environment where automotive mechanics can focus on their main duties, by reviewing business processes, while also working to expand sales of vehicle maintenance services and collect appropriate fees.
- iii) Operating revenue from customers was 22,033 million yen, up 7.5% from the previous fiscal year, mainly as a result of an increase in the number of contracted vehicles and collection of appropriate fees. Operating profit was 5,221 million yen, up 1,440 million yen from the previous fiscal year, mainly due to efforts to optimize costs.

○ Other

- i) The Yamato Group's IT, call center, financial service, and other functions are supporting our customers' efforts to expand the value they provide to the entire supply chain. During the fiscal year under review, we continued to promote the provision of IT services that contribute to streamlining the operations of our customers and the convenience of end users.
- ii) Operating revenue from customers was 23,507 million yen, down 3.9% from the previous fiscal year. Operating profit was 6,629 million yen, down 1,571 million yen from the previous fiscal year.

<Other initiatives>

- i) The Yamato Group places utmost priority on protecting human life and conducts a range of safety measures. Accordingly, its transport safety management practices in that regard involve drawing up its Safety Management Regulations, building up its transport safety management systems, and formulating fiscal year plans, all centered on respective Group companies whose main operations involve transport. Yamato Transport Co., Ltd. has been sequentially replacing driving recorders installed in approximately 46,000 delivery vehicles since October 2025, aiming to further improve safety awareness and driving skills through the visualization of driving situations. In addition, we continued to conduct the "Traffic Safety Class for Children" at kindergartens and elementary schools, as well as engage in activities to raise safety awareness, including the "Zero Traffic Accidents Campaign" by the entire Group.
- ii) The Yamato Group believes that building strong communities is the foundation for the growth and development of the Yamato Group, and is working on corporate citizenship activities with the aim of ensuring the healthy and sustainable development of local communities and quality of life for the people living there. With regard to the Environment, as a corporate group with a nationwide network, we have held the "Kuroneko Yamato Environmental Class" sessions more than 3,600 times nationwide since 2005 to support environmental education for children who will bear responsibilities of the next generation, in order to pass on the rich nature of local communities to future generations. The total number of participants has reached approximately 270,000. Moreover, with regard to Local Communities, we have held the Music TA-Q-BIN "Kuroneko Family Concert" 367 times nationwide since 1986 as an expression of gratitude to our customers and local residents, with the aim of delivering authentic music to everyone regardless of age or region. The total number of participants has reached approximately 600,000.
- iii) Aspiring to be a company that continually evolves in step with society, led by Yamato Welfare Foundation, the Yamato Group conducts various activities to help realize a society in which disabled people can freely enjoy a lifestyle as a member of each community. Specifically, we engage in ongoing programs that support economic independence of people with disabilities, such as actively employing people with disabilities at the Swan Bakery, which makes and sells bread, and operating job-finding support facilities where they take part in training to acquire the skills and knowledge necessary for employment.

(2) Production, orders received and sales results

Operating revenue by segment is as follows.

Since service focused on the cargo transport business is the main product of the Yamato Group, production and orders received have been omitted from the description.

Business segment		Fiscal year ended March 31, 2025 (From April 1, 2024 To March 31, 2025)		Fiscal year ended March 31, 2026 (From April 1, 2025 To March 31, 2026)		Change (%)

(3) Financial conditions

Total assets were 1,280,170 million yen as of March 31, 2026, up 12,742 million yen from the end of the previous fiscal year. This was largely attributable to the 30,158 million yen increase in cash and deposits, the decrease of 10,479 million yen in land due to the securitization of non-current assets based on our real estate strategy, and the amortization of 13,434 million yen of goodwill following the valuation of goodwill in the Contract Logistics business. In addition, due to the shifting of part of our vehicle sourcing to leases, mainly in the Express business, vehicles declined by 7,525 million yen, while leased assets increased by 13,298 million yen.

Liabilities increased 31,035 million yen from the end of the previous fiscal year to 698,113 million yen. This was mainly due to the 17,441 million yen increase in lease liabilities due to the acquisition of leased assets, and the 7,096 million yen increase in short-term borrowings due to factors including the increase in borrowings as working capital following the increase in installment sales in the Other segment.

Net assets were 582,057 million yen, down 18,293 million yen from a year earlier. The major factors included the profit attributable to owners of parent being 13,662 million yen, the payout of 14,807 million yen of dividends of surplus, and the 18,915 million yen purchase of our own shares. As a result, the equity ratio dropped to 44.6% from the 46.5% at the end of the previous fiscal year.

(4) Cash flows

○ Cash flows from operating activities

Net cash provided by operating activities amounted to 72,218 million yen, which is an increase of 24,485 million yen compared with the previous fiscal year. This was mainly due to the 24,936 million yen decline in profit before income taxes, and the 19,145 million yen increase in depreciation and amortization of goodwill, which are not cash items, and the 18,533 million yen increase in loss (gain) on sale of non-current assets and loss (gain) on sale of investment securities, which are P&L items that are included in cash flows from investing activities, compared with the previous fiscal year. Moreover, there was a 14,729 million yen increase in “Increase (decrease) in accrued consumption taxes” due to the increase in accrued consumption taxes, and a 14,910 million yen increase in income taxes paid.

○ Cash flows from investing activities

Net cash used in investing activities amounted to 7,270 million yen, which is a decrease of 37,086 million yen compared with the previous fiscal year. There was a 17,393 million yen decrease in expenditure for purchase of property, plant and equipment, due to the shifting of vehicle sourcing to leases, and an expenditure of 35,307 million yen for purchase of shares of subsidiaries resulting in changes in scope of consolidation in the Contract Logistics business in the previous fiscal year, and a 12,013 million yen decline in proceeds from sale of investment securities.

○ Cash flows from financing activities

Net cash used in financing activities was 37,073 million yen, which is an increase of 46,494 million yen compared with the previous fiscal year. This was largely attributable to the 57,883 million yen decrease in proceeds from borrowings, and the 12,178 million yen decrease in purchase of treasury shares.

As a result of the above, cash and cash equivalents were 237,822 million yen as of March 31, 2026, up 29,765 million yen from a year earlier.

(5) Information concerning financial resources for capital and liquidity of funds

Based on the Medium-term Management Plan “Sustainability Transformation 2030 —1st Stage—,” which ends in the fiscal year ending March 31, 2027, the Yamato Group aspires to become “a value-creating company that contributes to the realization of a sustainable future” and simultaneously creates economic value as well as environmental and social value, thereby taking steps to realize a medium- to long-term increase in corporate value. During the period of the Medium-term Management Plan, we will promote growth investments in facility strategy and AI and DX strategies, etc. to help improve operation efficiency, while also promoting environmental investments in EVs, solar power generation equipment, etc. to realize a low-carbon society, balancing the provision of logistics services with low environmental impact to customers and the improvement of energy efficiency of operations. In the growth domain of Contract Logistics business and Global business, we will utilize M&As and strategic alliances in addition to autonomous growth.

To support the above plan from a financial perspective, we will work to strengthen balance sheet management and consider liquidating non-current assets as appropriate, while raising funds through borrowings from financial institutions and issuance of corporate bonds as necessary by taking into consideration financial soundness and efficiency, such as status of cash generation, cash and deposits held, equity ratio, etc. as well as effective use of funds held in the Group. From the perspective of financial soundness, we set the equity ratio at around 45% and the D/E ratio at 0.3 to 0.5 times as guides. With regard to shareholder returns, the Company set a target payout ratio of 40% or more based on profit attributable to owners of parent. We will flexibly consider the acquisition of treasury shares from standpoints of the progress of growth investments, cash flow trends, stock price movement, etc.

(6) Extent to which target indicators are being achieved

When formulating the Medium-term Management Plan, we have set targets of consolidated operating revenue of 2.0-2.4 trillion yen, consolidated operating profit of 120-160 billion yen (consolidated operating margin of at least 6%), ROE of at least 12%, and ROIC of at least 8% for the fiscal

year ending March 31, 2027, the final year of the Medium-term Management Plan. However, in light of changes in the business environment and the progress of initiatives, we revised our consolidated earnings forecast for the fiscal year ending March 31, 2027 to consolidated operating revenue of 1.92 trillion yen, consolidated operating profit of 42.0 billion yen (consolidated operating margin of 2.2%), ROE of 4.2%, and ROIC of 3.7%.

Under the Plan, we aim to be “a value-creating company that contributes to the realization of a sustainable future” and will continue to focus on the “Reinforcement of the TA-Q-BIN network and transformation of the business portfolio.” We will continue to seek to maximize profit growth drivers such as pricing optimization, expansion of corporate customers business, optimization of operating costs, and reduction of indirect costs, for which we made progress in the fiscal year under review, while enhancing balance sheet management and optimizing capital allocation to achieve sustainable improvement in corporate value.

(7) Significant accounting estimates and assumptions used in these estimates

The Yamato Group’s consolidated financial statements have been prepared based on the accounting standards generally accepted in Japan. For matters that need to be estimated when preparing these consolidated financial statements, the accounting estimates are based on reasonable standards.

Significant accounting estimates and the assumptions used in these estimates are shown in “V. Financial Information, 1. Consolidated Financial Statements, etc., (1) Consolidated Financial Statements, Notes to Consolidated Financial Statements (Significant accounting estimates).”

5. Significant Contracts

Not applicable

6. Research and Development Activities

The Yamato Group is engaged in initiatives that include those for research and development concerning digital technology to realize the improvement of logistics services. The total amount of research and development activities in the fiscal year ended March 31, 2026 was 3,718 million yen, which is broken down into 3,301 million yen for the consolidated subsidiary Yamato Transport Co., Ltd. (Express business, Contract Logistics business and Global business) and 416 million yen for the Company (as a whole).

III. Property, Plant and Equipment

1. Overview of Capital Investments

During the fiscal year under review, the Yamato Group made capital investments of 69,446 million yen (including leasehold deposits), mainly for the improvement of the efficiency of transportation, which will contribute to strengthening the TA-Q-BIN network, and for growth investments to expand the value provided to the entire supply chain.

The Express business made capital investments of 48,794 million yen for the tenant improvement construction at DPL Tokyo Shinonome, the acquisition of Shiomibashi Building, purchase of vehicles, etc.

The Contract Logistics business recorded the capital investment of 15,745 million yen for the construction of logistics facilities and the refurbishment construction of offices, among others.

There are no particular matters to state in relation to the Global business, the Mobility business and Other.

Disposals and sales of important facilities during the fiscal year under review included the sales of 19 properties in the possession of Yamato Transport Co., Ltd., including Konan Building in Minato-ku, Tokyo, partially through sale and leaseback transactions, in order to effectively utilize owned assets. There is no significant impact on transportation and delivery capabilities.

2. Overview of Major Facilities

The Yamato Group's major facilities are as follows, together with the figures by segment and according to the disclosure method for the main property, plant and equipment. Further, major facilities are described with the inclusion of intangible assets.

(1) Segment breakdown

Business segment	Book value (Millions of yen)								Number of employees (Number of people)
	Vehicles	Buildings and structures	Machinery and equipment	Land (Ground area 1,000 m ²)	Leased assets	Other property, plant and equipment	Intangible assets	Total	
Express Business	21,354	143,789	13,296	155,006 (1,822) [5,826]	50,548	8,500	28,756	421,252	157,902

Note: The common shares in the cell for “Shares with full voting rights (other)” includes 469,200 of the Company’s shares held by the Board Benefit Trust (BBT) (Number of voting rights: 4,692 units).

ii) Treasury shares, etc.

As of March 31, 2026

Name of shareholder	Address of shareholder	Number of shares held under own name	Number of shares held under the names of others	Total number of shares held	The ratio of the number of shares held relative to the total number of issued shares (%)
The Company	16-10, Ginza 2-chome, Chuo-ku, Tokyo	43,350,700	–	43,350,700	12.03
Total	–	43,350,700	–	43,350,700	12.03

Note: The aforementioned treasury shares do not include the Company’s shares held by BBT (Board Benefit Trust).

(8) Details of Stock Ownership System for Officers and Employees

The Company has, in accordance with a resolution of the 155th Ordinary General Meeting of Shareholders convened on June 23, 2020, established the "Stock Benefit Trust (BBT [Board Benefit Trust], hereinafter the "System")," a performance-linked stock compensation plan, in order to clarify the linkage between the compensation of Directors (excluding Outside Directors) and executive officers who do not concurrently serve as directors (hereinafter the "Officers") and the Company's business performance and stock value and also to have the Officers share not only the benefits of higher stock prices but also the risks of lower stock prices with shareholders, thereby raising awareness of contributing to improving the Company's medium- to long-term business performance and increasing its corporate value.

i) Overview of the System

The System is a performance-linked and share-based remuneration system under which the Company's shares are acquired through a trust using money contributed by the Company as the source of funds (hereinafter the "Trust"), and the Officers are provided with the Company's shares and an amount of money equivalent to the market value of the Company's shares (hereinafter the "Company's Shares, Etc.") through the Trust in accordance with the Regulations on Share-based Remuneration for Officers established by the Company. The Officers shall receive the Company's Shares, Etc. upon their retirement, in principle.

The Company introduced the System for the three fiscal years from the fiscal year ended March 31, 2022 to the fiscal year ended March 31, 2024 (hereinafter, such three-fiscal-year period is referred to as the "Initial Period," and the Initial Period and each three consecutive fiscal years following the Initial Period are respectively referred to as the "Applicable Period"), as well as each Applicable Period thereafter and contributed 1,377 million yen (including 519 million yen for Directors) to the Trust as the source of funds to acquire the Company's shares for the purpose of granting the Company's Shares, Etc. to the Officers in the Initial Period. Furthermore, after the expiration of the Initial Period, in principle, the Company shall make additional contributions to the Trust, of up to 1,377 million yen (including 519 million yen for Directors) for each Applicable Period until the termination of the System. However, in the case of making such additional contributions, if the Company's shares (excluding a number of the Company's shares that have not yet been provided to Officers equivalent to points granted to them for each Applicable Period up to the immediately preceding Applicable Period) and money remain in the trust asset (hereinafter the "Remaining Shares, etc."), the total amount of the Remaining Shares, etc. (the amount for the Company's shares shall be the market value on the final day of the immediately preceding Applicable Period) and additionally contributed money shall not exceed 1,377 million yen (including 519 million yen for Directors). The acquisition of the Company's shares by the Trust shall be through the stock market or by a method of underwriting the treasury shares disposed by the Company, funded by the contributed funds.

ii) The total number of the Company's shares intended to be acquired under the System

The trustee of the Trust, Mizuho Trust & Banking Co., Ltd., has acquired 483,700 shares from the stock market with the 1,377 million yen contributed to the Trust by the Company to grant the Company's Shares, Etc. to Officers in the Initial Period.

Note that the Company plans to shift the current stock compensation plan to the performance-linked post-delivery restricted stock compensation plan after being submitted to the Ordinary General Meeting of Shareholders scheduled in June 2026 and approved at the Board of Directors meeting to be held thereafter. Accordingly, no further acquisitions of the Company's shares are planned under the System.

iii) The scope of persons eligible to receive beneficiary rights and other rights under the System

Officers who have retired and satisfy the beneficiary requirements prescribed in the Regulations on Share-based Remuneration for Officers.

2. Status of Acquisition of Treasury Shares, etc.

*¹ The number of shares in the period after the reporting period to the filing date of this Annual Securities Report does not include shares for which there was a demand for sales of less than one unit of stock in the period from June 1, 2026 until the filing date of this Annual Securities Report.

*² The number of treasury shares held in the period after the reporting period to the filing date of this Annual Securities Report does not include the change in shares due to purchases or sales of less than one unit of stock in the period from June 1, 2026 until the filing date of this Annual Securities Report.

*3 The number of treasury shares held in the fiscal year ended March 31, 2026 or that in the period after the reporting period to the filing date of this Annual Securities Report does not include the Company's shares held by the Board Benefit Trust (BBT).

3. Dividend Policy

With regard to shareholder returns, the Company set a target payout ratio of 40% or more based on profit attributable to owners of parent, and will implement stable and continuous dividend payments.

Regarding the acquisition of treasury shares, the Company will flexibly consider it, taking into account the progress of growth investments, cash flow trends, share prices, and the balance between financial soundness and efficiency, with a target equity ratio at around 45% and a D/E ratio at around 0.3 to 0.5 times.

Retained earnings will be used for growth investments contributing to strengthening the profit base as well as environmental investments, in order to realize continuous improvement in corporate value.

The Company pays dividends of surplus twice a year with an interim dividend and year-end dividend, and these dividends of surplus are determined by resolution of the Board of Directors. In addition, apart from the matters prescribed in each item of Article 459, paragraph (1) of the Companies Act, the Company prescribes the interim dividend and year-end dividend and the record date, and the fact that the dividends of surplus can be paid by resolution of the Board of Directors in its Articles of Incorporation.

For the fiscal year under review, the year-end dividend is set at 23 yen per share. This, together with the interim dividend of 23 yen per share, brings the annual dividend to 46 yen per share. The dividend for the next fiscal year will also be determined based on the profit attributable to owners of parent in accordance with the Basic Policy.

The dividends of surplus for the fiscal year under review are as follows.

Date of resolution	Total amount of dividends (Millions of yen)	Dividend per share (Yen)
October 30, 2025 Board of Directors' resolution	7,294	23
May 13, 2026 Board of Directors' resolution	7,294	23

4. Status of Corporate Governance, etc.

(1) Overview of Corporate Governance

i) Basic views on corporate governance

Based on its corporate philosophy, the Yamato Group carries out business activities in accordance with the law and social norms and actively promotes compliance management. Striving to maximize corporate value by effectively utilizing the management resources of the Group is one of the top priorities of management, and we have implemented measures and bolstered management systems as part of our corporate governance initiative.

A schematic diagram of the status of the preparation of matters such as the oversight and internal controls for the Company's business execution and management is as follows.

ii) Overview of the corporate governance framework and the reasons for adopting such framework

The Company is a company with an Audit & Supervisory Board. In addition to the Board of Directors supervising important management decision-making and business execution, Audit & Supervisory Board Members and the Audit & Supervisory Board which are independent from the Board of Directors shall audit the status of execution of duties by Directors.

In addition, apart from this, we have established a Management Committee and Executive Conference as executive management organizations related to management decision-making and execution. We adopted this management structure for prompt and appropriate decision-making on important matters. In addition, to increase management transparency, we have established a Nomination and Compensation Committee, as an advisory committee to the Board of Directors to deliberate on particularly important matters such as nominations and compensation. The Company can have up to 12 Directors and up to five Audit & Supervisory Board Members in accordance with the Articles of Incorporation and as of the filing date, the Company's Board of Directors comprised a total of seven members including five Outside Directors and the Audit & Supervisory Board comprised a total of five members including three Outside Audit & Supervisory Board Members. In addition, to clarify the management responsibilities in each fiscal year, the Directors' terms of office are one year.

The objectives, authority, chairperson and members of the Board of Directors, Management Committee, Executive Conference, Nomination and Compensation Committee, and Audit & Supervisory Board as of the filing date are as follows.

A. Board of Directors

a. Objectives and authority

Convened for the purpose of deliberating and deciding on important matters concerning the Basic Policy for executive management and other management matters, and apart from the matters prescribed in laws and regulations and in the Articles of Incorporation, it decides on all matters prescribed in the Board of Directors Regulation including matters related to medium to long-term management plans.

b. Chairperson and Members

Comprised of all Directors.

Directors:

Yutaka Nagao, Toshizo Kurisu, Shiro Sugata (Chairperson, Outside Director), Noriyuki Kuga (Outside Director), Charles Yin (Outside Director), Junichiro Ikeda (Outside Director), Tami Kihara (Outside Director)

Furthermore, the following Audit & Supervisory Board Members attend Board of Directors meetings and express their opinions when deemed necessary.

Audit & Supervisory Board Members:

Tsutomu Sasaki, Yoshito Shoji, Ryuji Matsuda (Outside Audit & Supervisory Board Member), Setsuko Ino (Outside Audit & Supervisory Board Member), Akihito Terada (Outside Audit & Supervisory Board Member)

B. Management Committee

a. Objectives and authority

Apart from deliberating and determining important matters related to business execution other than matters to be resolved by the Board of Directors, convened for the purpose of prior deliberation on matters submitted to the Board of Directors. It determines each matter prescribed in the Management Committee Regulations including matters concerning the start of sales of major new products and services by subsidiaries and affiliates and changes to existing services.

b. Chairperson and Members

Comprised of Executive Directors, Executive Officers and Full-time Audit & Supervisory Board Members.

Executive Directors:

Yutaka Nagao, Toshizo Kurisu

Executive Officers:

Toshiyuki Sakurai (Chairperson, Executive Officer and President), Masaru Nomura

Full-time Audit & Supervisory Board Members:

Tsutomu Sasaki, Yoshito Shoji

C. Executive Conference

a. Objectives and authority

Apart from reporting the status of execution of business for which the executive officers are in charge, convened for the purpose of discussing matters under investigation and shared matters.

b. Chairperson and Members

Comprised of Executive Officers.

Executive Officers:

Toshiyuki Sakurai (Chairperson, Executive Officer and President), Masaru Nomura

D. Nomination and Compensation Committee

a. Objectives and authority

The Committee deliberates and verifies the appropriateness of the details of agenda items concerning the appointment and dismissal of Directors, Audit & Supervisory Board Members, and Executive Officers and the method for determining the compensation to be received by Directors and Executive Officers to bring them up at the Board of Directors meeting.

b. Chairperson and Members

Comprised of Directors elected by resolution of the Board of Directors, with a majority being Outside Directors.

Directors:

Junichiro Ikeda (Chair, Outside Director), Shiro Sugata (Outside Director), Noriyuki Kuga (Outside Director), Charles Yin (Outside Director), Tami Kihara (Outside Director), Yutaka Nagao

E. Audit & Supervisory Board

a. Objectives and authority

The Audit & Supervisory Board is convened for the purpose of receiving reports, consulting and resolving important matters concerning audits. Apart from the matters prescribed in laws and regulations or the Articles of Incorporation, it determines all matters prescribed in the Audit & Supervisory Board regulations including the audit policy, the method for studying the operations and financial positions, and the determination of other matters concerning the execution of duties by Audit & Supervisory Board Members.

b. Chairperson and Members

Comprised of Audit & Supervisory Board Members.

Audit & Supervisory Board Members:

Tsutomu Sasaki (Chairperson, Full-time Audit & Supervisory Board Member), Yoshito Shoji, Ryuji Matsuda (Outside Audit & Supervisory Board Member), Setsuko Ino (Outside Audit & Supervisory Board Member), Akihito Terada (Outside Audit & Supervisory Board Member)

iii) Basic approach to internal control systems and status of development

In accordance with the Companies Act and the Regulation for Enforcement of the Companies Act, the Company has established Policy to develop its internal control system, as follows.

- A. Corporate framework ensuring that execution of duties by Directors of the Company complies with laws and regulations and the Articles of Incorporation, and other systems for ensuring the proper business operation of the corporate group consisting of the Company and its subsidiaries
 - a. To ensure that execution of duties by Directors of the Company complies with laws and regulations and the Articles of Incorporation, and to ensure the proper business operation of the Company and each Group company, the Company has established the "Group Corporate Philosophy" and the "Statement of Compliance." The Representative Director of the Company is responsible for ensuring that this statement is fully understood by directors of the Company and each Group company. At the same time, directors shall perform their businesses in accordance with this statement.
 - b. To ensure that the above directives are fully understood, the Company establishes the "Compliance and Risk Committee" chaired by the Representative Director or an officer or director designated by the Representative Director and shall monitor the undertaking of the Group-wide compliance and risk management. The Chair of the Committee shall monitor compliance at the Company and each Group company and report the situation to the Board of Directors of the Company.
 - c. The Company shall develop a whistle-blower system for the Group to allow employees to report any compliance violations by directors of the Company and each Group company.
 - d. In "Corporate Stances" of the "Group Corporate Philosophy," the Company declares it shall have no relationship with antisocial forces, and shall station employees to perform related businesses in departments responsible for compliance and risk management of the Company and each Group company. Departments responsible for compliance and risk management make systematic efforts in collaboration with outside specialized institutions, such as the police and attorneys, to prevent antisocial forces from being involved in management and prevent possible damage caused by antisocial forces.
- B. Framework for storing and managing information related to execution of duties by Directors of the Company

Directors of the Company shall prescribe the retention period of the documents and the division in charge in the organization regulations and basic regulations on document management and prepare, store and manage the material documents in relation to the execution of duties by Directors and minutes of each meeting.
- C. Policy and framework for managing risks of loss of the Company and its subsidiaries
 - a. The Company shall assign an executive officer to oversee Group-wide compliance and risk management. Employees shall be stationed to perform related businesses in the Company and each Group company.
 - b. The Company shall develop a "Risk Management Basic Policy" as the basis of risk management. Each Group company shall also develop a "Risk Management Basic Policy" on the basis of this policy.
 - c. Large companies under the Companies Act in the Group companies shall establish a division in charge of compliance and risk supervising and assign an officer in charge of the same. Departments responsible for compliance and risk management of the Company shall oversee this, and monitor and manage the risk status at each Group company in a timely manner.
 - d. The Company shall establish the Internal Audit Department to audit the implementation status and the effectiveness of risk management at the Company and each Group company.
- D. Framework ensuring the efficiency of execution of duties by directors of the Company and its subsidiaries
 - a. The Company shall adopt the executive officer system in order to realize the efficiency of the management and the clarification of responsibility through the clear division of management decision-making, supervision and execution.
 - b. The Company shall hold a Board of Directors meeting once or more a month. In addition, material matters to be deliberated at the Board of Directors meeting shall be discussed and examined at the Management Committee comprising Executive Directors, Executive Officers, and Full-time Audit & Supervisory Board Members.
 - c. The Company shall define in the organizational regulations the procedure and the officer in charge with respect to the business operation based on the resolution of the Board of Directors and at the Management Committee of the Company as well as the resolution of each Group company's Board of Directors.
- E. Framework ensuring that execution of duties by employees of the Company as well as directors and employees of its subsidiaries complies with laws and regulations and the Articles of Incorporation
 - a. To realize management in conformity with compliance at the Company and each Group company, the Company and each Group company shall formulate "Corporate Stances" and "Employee Credo of Conduct" as directives applicable to all employees. The documents shall be displayed and distributed etc. and training implemented.
 - b. Large companies under the Companies Act in the Group companies shall establish a division in charge of compliance and risk supervising and assign an officer in charge of the same. Departments responsible for compliance and risk management of the Company shall oversee this, and monitor and manage the status of compliance promotion at the Group in a timely manner.
 - c. The Company shall establish the Internal Audit Department to audit the implementation status and the effectiveness of compliance at the Company and each Group company.
 - d. The Company shall hold "Compliance and Risk Committee" meetings regularly to develop and promote specific measures to

- ensure compliance and monitor the progress at the Company and each Group company.
- e. The Company shall establish a whistle-blower system for the Group to develop an environment in which compliance violations are promptly reported.
 - F. Framework ensuring the proper business operation of the corporate group consisting of the Company and its subsidiaries
 - a. To ensure the proper business operation of the Company and each Group company, the Company shall establish the "Group Corporate Philosophy." The Company and each Group company shall formulate their company rules and execute business operations accordingly.
 - b. The Company shall assign an executive officer to be in charge of basic strategy for Group-wide management, and station employees to perform related businesses at the Management Strategy Department at the Company and each Group company.
 - c. The Company, as a pure holding company, shall be responsible for the planning and control of each Group company's operation in accordance with the executive management contract that prescribes the management duties that the Company will execute with respect to each Group company.
 - d. Each Group company shall execute business operations in accordance with the group company management rules established by the Company, and shall obtain the approval of the Company's Board of Directors or the Management Committee in advance, when executing material matters. In addition, all material management matters shall be reported to the Company's related division.
 - G. Appointment of supporting personnel when Audit & Supervisory Board Members of the Company request such personnel
The Internal Audit Department shall provide support to Audit & Supervisory Board Members and personnel shall be appointed when deemed necessary in consultation with the Audit & Supervisory Board.
 - H. Securing independence of the personnel in the preceding item from Directors and effectiveness of instructions from Audit & Supervisory Board Members
The personnel in the preceding item cannot hold a concurrent position that has the duties of planning or control of business operations. Accordingly, reassignment, evaluation, or disciplinary action against the supporting personnel requires the approval of the Audit & Supervisory Board in advance.
 - I. Framework for reporting to Audit & Supervisory Board Members by Directors and employees of the Company and framework for reporting to Audit & Supervisory Board Members of the Company by directors, audit & supervisory board members and employees of subsidiaries, or those who have received reports from the said persons
 - a. In addition to matters designated by law, Directors and employees of the Company and directors, audit & supervisory board members and employees of each Group company shall report the following to Audit & Supervisory Board Members of the Company without delay.
 - Material violations of laws and regulations and the Articles of Incorporation as well as misconduct, by directors or employees
 - Crucial information obtained through whistle blowing
 - Other facts that threaten to cause significant losses to the Company and each Group company
 - b. The Company and each Group company shall create a framework to ensure that persons who have reported to Audit & Supervisory Board Members of the Company and each Group company are not treated disadvantageously because of the said report.
 - J. Policy on procedures for advance payment or reimbursement of expenses incurred in the execution of duties by Audit & Supervisory Board Members of the Company, and other expenses incurred in the said execution of duties, or handling of debts
The Company shall develop a policy regarding the handling of audit expenses and secure a budget of a certain amount to cover audit expenses.
 - K. Framework ensuring the effectiveness of auditing by Audit & Supervisory Board Members of the Company
 - a. Audit & Supervisory Board Members of the Company may attend Board meetings, those of the Management Committee, the executive conferences, and other important meetings, and understand the process of important decision-making and status of business operation, and provide necessary opinions.
 - b. The Company shall establish regular meetings between Audit & Supervisory Board Members and the Representative Director to exchange opinions.
 - c. The Internal Audit Department of the Company shall report progress and results of internal audits of the Company and each Group company as necessary to Audit & Supervisory Board Members to realize a collaborative framework for effective audits.
 - d. Audit & Supervisory Board Members of the Company and each Group company shall exchange information and enhance collaboration throughout the Group at Group Audit & Supervisory Board Members' Liaison Meetings.
 - e. The Company shall establish a liaison office for the Audit & Supervisory Board and Group Audit & Supervisory Board Members' Liaison Meetings in the Internal Audit Department of the Company to promote efficient audits by Audit & Supervisory Board Members of the Company and each Group company.
 - f. The Company shall receive explanations on the contents of its accounts from the Accounting Auditor as needed and exchange information to realize a collaborative framework for effective audits.

iv) Overview of the agreement on liability limitation

The Company's Articles of Incorporation allow for the conclusion of agreements with Directors (excluding Executive Directors, etc.) and Audit & Supervisory Board Members limiting liability stipulated in Article 423, paragraph (1) of the Companies Act. The Company has entered into an agreement on liability limitation with all Outside Directors and Audit & Supervisory Board Members in accordance with such Articles of Incorporation. The amount of liability allowed for in those agreements is as per the minimum amount of liability provided for under Article 425, paragraph (1) of the Companies Act.

v) Summary of the directors' and officers' liability insurance policy

The Company has entered into a directors' and officers' liability insurance policy, as provided for in Article 430-3, paragraph (1) of the Companies Act, with an insurance company. The insureds of this policy include Directors, Audit & Supervisory Board Members and Executive Officers of the Company and its subsidiaries, and the insureds do not pay the insurance premium. This policy covers losses, such as the amount of indemnification and litigation expenses incurred by the insureds in case where claims for the insureds' action (or omission) based on their position in the Company is brought forward. However, in order not to lose appropriateness of the execution of operation by the insureds, the policy does not cover the insureds' criminal acts or illegal acts done intentionally.

vi) Requirements for resolution to elect Directors

The Company prescribes in its Articles of Incorporation that a resolution to elect Directors shall be made by a majority of the votes of the shareholders present at such meeting where the shareholders holding at least one-third of the voting rights of the shareholders entitled to exercise their votes at such meetings are present and that such resolutions shall not be conducted by cumulative voting.

vii) Organizational body to determine dividends of surplus, etc.

The Company prescribes in its Articles of Incorporation that unless otherwise provided for by laws and regulations, the Company may, by resolution of the Board of Directors, determine dividends of surplus and other matters set forth in the items of Article 459, paragraph (1) of the Companies Act. This is for the purpose of flexibly returning profits to shareholders by giving authority on dividends of surplus, etc. to the Board of Directors.

viii) Exemption of liabilities of Directors and Audit & Supervisory Board Members

The Company prescribes in its Article of Incorporation that pursuant to the provisions of Article 426, paragraph (1) of the Companies Act, the Company may, by resolution of the Board of Directors, exempt a Director (including a person who was formerly a Director) and an Audit & Supervisory Board Member (including a person who was formerly an Audit & Supervisory Board Member) from his/her liability for damages for their acts stipulated under Article 423, paragraph (1) of the Companies Act arising from neglecting his/her duties to the extent permitted by laws and regulations. This is for the purpose of establishing an environment in which Directors and Audit & Supervisory Board Members can adequately demonstrate their abilities and accomplish their expected roles when executing their duties.

ix) Requirements for special resolutions of the general meeting of shareholders

For the smooth operation of the general meeting of shareholders, the Company prescribes in its Articles of Incorporation that resolutions as prescribed in Article 309, paragraph (2) of the Companies Act shall be made by at least two-thirds of the votes of the shareholders present at such meeting where the shareholders holding at least one-third of the voting rights of the shareholders entitled to exercise their votes at such meetings are present.

x) Activities of the Board of Directors, etc.

A. Activities of the Board of Directors and the Nomination and Compensation Committee

During the fiscal year ended March 31, 2026, 19 meetings of the Board of Directors were held, and 13 meetings of the Nomination and Compensation Committee were held. Attendance of each Director and Audit & Supervisory Board Member is as follows.

Title	Name	Board of Directors meeting	Nomination and Compensation Committee Meeting
President (Note 2)	Yutaka Nagao	100% (19 of 19 meetings)	100% (13 of 13 meetings)

Title	Name
Executive Officer and President	Toshiyuki Sakurai
Senior Managing Executive Officer	Masaru Nomura

ii) Information about Outside Directors (and other outside officers)

The Company has elected five Outside Directors and three Outside Audit & Supervisory Board Members. There is no personal relationship, capital relationship, business relationship, or other interest between the Company and the Outside Directors and Outside Audit & Supervisory Board Members and between the Company and the companies where the Outside Directors and Outside Audit & Supervisory Board Members are, or were, officers or employees.

The Outside Directors provide remarks and advice that are necessary for overall management as appropriate and improve the management in cooperation with the Accounting Audit and Internal Audit Departments.

The Outside Audit & Supervisory Board Members attend meetings of the Audit & Supervisory Board and meetings between the President and the Outside Directors and Audit & Supervisory Board Members, which are regularly held. They provide remarks that are necessary from the standpoint of the Audit & Supervisory Board Members, confirm the job execution status of Directors, and ask questions about management measures.

The Company has the five Outside Directors, of the seven Directors in total, to check its management from an objective point of view, and its functioning is strengthened by having more than half of all the Directors being Outside Directors. In order to strengthen the auditing function over the Company's business execution, three of the five Audit & Supervisory Board Members are Outside Audit & Supervisory Board Members, and its functioning is strengthened by having more than half of all the Audit & Supervisory Board Members being Outside Audit & Supervisory Board Members.

The following is the Company's ideas about the election of Outside Directors and Outside Audit & Supervisory Board Members as of June 12, 2026 (the filing date of the Annual Securities Report).

<Outside Directors>

Name	Reasons for the election of the Outside Director
Shiro Sugata	Shiro Sugata possesses abundant experience and considerable insight, particularly in the fields of marketing/sales, IT/digital technology and global business as a corporate manager. He has been utilizing this insight to furnish advice on the Company's general management from a managerial standpoint, particularly regarding business execution, business strategy, increasing productivity, and cost structure reform. Accordingly, in order to further enhance our management structure, the Company has elected him as an Outside Director. The Company appointed Shiro Sugata as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered him as such with that exchange. Shiro Sugata satisfies the requirements for Criteria for Determining Independence of the Company.
Noriyuki Kuga	Noriyuki Kuga possesses abundant experience and considerable insight, particularly in the fields of personnel/labor management, finance/accounting and global business as a corporate manager. He has been utilizing this insight to furnish advice on the Company's general management from a managerial standpoint, particularly regarding business execution, financial strategy, and corporate governance. Accordingly, in order to further enhance our management structure, the Company has elected him as an Outside Director. The Company appointed Noriyuki Kuga as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered him as such with that exchange. Noriyuki Kuga satisfies the requirements for Criteria for Determining Independence of the Company.
Charles Yin	Charles Yin possesses abundant experience and considerable insight, particularly in the fields of marketing/sales, IT/digital technology and global business as a corporate manager. He has been utilizing this insight to furnish advice on the Company's general management from a managerial standpoint, particularly regarding business execution and global business strategy. Accordingly, in order to further enhance our management structure, the Company has elected him as an Outside Director. The Company appointed Charles Yin as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered him as such with that exchange. Charles Yin satisfies the requirements for Criteria for Determining Independence of the Company.
Junichiro Ikeda	Junichiro Ikeda possesses abundant experience and considerable insight, particularly in the fields of human resources and global business, as a corporate manager. He has been utilizing this insight to furnish advice on the Company's general management from a managerial standpoint, particularly regarding business execution, business strategy, and human resources strategy. Accordingly, in order to further enhance our management structure, the Company has elected him as Outside Director. The Company appointed Junichiro Ikeda as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered him as such with that exchange. Junichiro Ikeda satisfies the requirements for Criteria for Determining Independence of the Company.

Name	Reasons for the election of the Outside Director
Tami Kihara	Tami Kihara possesses abundant experience and considerable insight, particularly in the fields of IT/digital/technology and human resources. We expect her to use this insight to furnish advice on the Company's general management from an expert standpoint, particularly regarding business execution, digital strategy, and human resources strategy. Accordingly, in order to further enhance our management structure, the Company has elected her as Outside Director. The Company appointed Tami Kihara as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered her as such with that exchange. Tami Kihara satisfies the requirements for Criteria for Determining Independence of the Company.

<Outside Audit & Supervisory Board Members>

Name	Reasons for the election of the Outside Audit & Supervisory Board Member
Ryuji Matsuda	The Company has elected Ryuji Matsuda as an Outside Audit & Supervisory Board Member in order to draw on his sophisticated expertise as a lawyer with respect to the Company's audit structure. The Company appointed Ryuji Matsuda as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered him as such with that exchange. Ryuji Matsuda satisfies the requirements for Criteria for Determining Independence of the Company.
Setsuko Ino	The Company has elected Setsuko Ino as an Outside Audit & Supervisory Board Member in order to draw on her abundant experience and broad knowledge, particularly in the fields of finance and accounting, at other companies with respect to the Company's audit structure. The Company appointed Setsuko Ino as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered her as such with that exchange. Setsuko Ino satisfies the requirements for Criteria for Determining Independence of the Company.
Akihito Terada	The Company has elected Akihito Terada as an Outside Audit & Supervisory Board Member in order to draw on his expertise related to finance and accounting as a certified public accountant with respect to the Company's audit structure. The Company appointed Akihito Terada as an independent officer, as provided for under the provisions of Tokyo Stock Exchange, Inc., and registered him as such with that exchange. Akihito Terada satisfies the requirements for Criteria for Determining Independence of the Company.

For electing the Outside Directors and Outside Audit & Supervisory Board Members, the Company has established the following original criteria for determining their independence from the Company, based on the Criteria for Determining Independence shown by Tokyo Stock Exchange, Inc.

The Company has appointed all of the Outside Directors and Outside Audit & Supervisory Board Members as independent officers, as provided for under the provisions of the Tokyo Stock Exchange, Inc., and registered them as such with that exchange.

<Criteria for Determining Independence>

A party with respect to whom any of the following apply shall be deemed as not having met the requirements of independence for an Outside Director or Outside Audit & Supervisory Board Member of the Company.

- A. A party who is a major business partner^{*1} of either the Company or a Group company (hereinafter collectively referred to as the "Company"), or otherwise if such party is a corporation or other such entity, a person who executes business thereof;
- B. A major business partner^{*2} of the Company, or otherwise if such party is a corporation or other such entity, a person who executes business thereof;
- C. A consultant, accounting professional or legal professional who receives substantial monetary consideration and/or other economic benefits^{*3} from the Company besides officer remuneration;
- D. A consultant, accounting professional, legal professional or other such professional who is a member of a corporation or other such entity^{*4} that provides professional services acting as a major business partner of the Company;
- E. A major shareholder^{*5} of the Company, or otherwise if such major shareholder is a corporation or other such entity, a person who executes business thereof;
- F. A recipient of donations^{*6} from the Company or a person who executes business thereof;
- G. A party who fell under (A) through (F) above in the past three years;
- H. A CPA or member of an audit corporation that served as the accounting auditor of the Company in the past three years;

- I. A person who served in the past ten years as a Director (excluding Outside Director), Audit & Supervisory Board Member (excluding Outside Audit & Supervisory Board Member), Executive Officer, or employee of the Company;
- J. A close relative^{*8} of a person (limited to significant persons^{*7}) who falls under any of the above.

*1 This refers to a business partner whose transaction amount in the most recent fiscal year exceeds 2% of the annual consolidated operating revenue of such group.

*2 This refers to a business partner whose transaction amount in the most recent fiscal year exceeds 2% of the Company's annual consolidated operating revenue, or a financial institution whose financing to the Company in the most recent fiscal year exceeds 2% of the Company's consolidated total assets.

*3 This refers to monetary consideration and/or other economic benefits that exceed 10 million yen per annum in the most recent fiscal year.

*4 This refers to a corporation or other such entity that has received payments from the Company that make up 2% or more of the consolidated operating revenue of the said corporation or other such entity on average in the past three fiscal years.

*5 This refers to a person or corporation who directly or indirectly holds voting rights that constitute 10% or more of all voting rights of the Company.

*6 In the event that the donation exceeds 10 million yen in one fiscal year or if the party receiving the donation is a corporation, this refers to donations that exceed 2% of the annual operating revenue of the said party in the most recent fiscal year.

*7 "Significant person" refers to Directors (excluding Outside Directors), executive officers (Shikkoyaku), executive officers (Shikkoyakuin), and other persons who execute business in positions of general manager or above; certified public accountants belonging to audit corporations or accounting offices; attorneys at law belonging to legal professional corporations or law firms; and other persons objectively and reasonably deemed to be in positions of similar importance.

*8 A spouse or a relative within the second-degree of kinship.

(3) Information about Audits

i) Information about audits by Audit & Supervisory Board Members

A. Organization, staff, and procedures of audits by Audit & Supervisory Board Members

The Audit & Supervisory Board is comprised of two Full-time Audit & Supervisory Board Members and three Outside Audit & Supervisory Board Members as of the filing date of the Annual Securities Report. Yoshito Shoji, Full-time Audit & Supervisory Board Member, possesses considerable insight into finance and accounting related matters through his many years of experience in group financial accounting. Ryuji Matsuda, Outside Audit & Supervisory Board Member, possesses considerable insight into finance and accounting related matters through his services as an attorney. Setsuko Ino, Outside Audit & Supervisory Board Member, possesses considerable insight into finance and accounting related matters through her rich experience mainly in the fields of finance and accounting at other companies. Akihito Terada, Outside Audit & Supervisory Board Member, possesses considerable insight into finance and accounting related matters through his services as a certified public accountant.

The Company has assigned a dedicated person who supports the Audit & Supervisory Board Members to ensure a system where their audit work is executed smoothly.

The Audit & Supervisory Board Members attend the Board of Directors meetings and other important meetings and oversee the execution of duties by the Directors in accordance with the audit policy, allocation of work, etc., thereby enhancing sound management and social trust in the Company. The Audit & Supervisory Board Members hold Group Audit & Supervisory Board Members' Liaison Meetings once a month and discuss the audit policy and method with the full-time audit & supervisory board members of the Group's major business companies, exchange information, and strengthen the relationships with them. They also hold monthly reporting sessions with internal auditors and exchange information with them. The Audit & Supervisory Board Members maintain independence from the Accounting Auditor and monitor and verify whether they implemented appropriate audits, and they receive reports from the Accounting Auditor regarding the performance of their duties and seek explanations as necessary.

B. Activities of Audit & Supervisory Board Members and Audit & Supervisory Board

In the fiscal year under review, the Audit & Supervisory Board held 16 meetings, made 13 resolutions (about the audit plan, the audit report, agenda items on the election of Audit & Supervisory Board Members at the General Meeting of Shareholders, evaluated reappointing the Accounting Auditor, and other items) and issued 31 reports (details of the reports based on the whistleblowing system, the status of implementing the internal audit, the operational status of the internal control system, and others) throughout the year. Each meeting lasted about 81 minutes on average. The following shows the attendance records of the Audit & Supervisory Board Members.

Title	Name	Attendance at Audit & Supervisory Board meetings
Full-time Audit & Supervisory Board Member	Tsutomu Sasaki	16 of 16 meetings (100%)
Full-time Audit & Supervisory Board Member	Yoshito Shoji	16 of 16 meetings (100%)
Outside Audit & Supervisory Board Member	Ryuji Matsuda	15 of 16 meetings (94%)
Outside Audit & Supervisory Board Member	Setsuko Ino	16 of 16 meetings (100%)
Outside Audit & Supervisory Board Member	Akihito Terada	12 of 12 meetings (100%)
Outside Audit & Supervisory Board Member	Takashi Yamashita	3 of 4 meetings (75%)

※ The attendance at Audit & Supervisory Board meetings of Akihito Terada, Outside Audit & Supervisory Board Member, is his attendance at the Audit & Supervisory Board meetings that were held after his appointment on June 20, 2025. The attendance at Audit & Supervisory Board meetings of Takashi Yamashita, Outside Audit & Supervisory Board Member, is his attendance at the Audit & Supervisory Board meetings that were held before his retirement on June 20, 2025.

The Audit & Supervisory Board set the following as its significant audit items: the status of decision making by Directors, the internal control systems, the status of initiatives to reinforce Group companies' management, the compliance and risk management systems, the information management systems, and the status of decision-making by Directors and operation of the internal control systems in the context of initiatives for the "Sustainability Transformation 2030 —1st Stage—" Medium-term Management Plan, etc. In addition, the Audit & Supervisory Board received detailed explanation for the results of the impairment test for Yamato Transport Co., Ltd.'s non-current assets and valuation of shares of the Company's subsidiaries and associates, which were recognized as Key Audit Matters (KAMs) for the fiscal year ended March 31, 2026, from the finance department and the Accounting Auditor and asked them questions. The Audit & Supervisory Board Members attended the Board of Directors meetings, oversaw the proceedings of management and the resolutions, and expressed their opinions as necessary. The total attendance rate was 100%. The Audit & Supervisory Board held semi-annual meetings to exchange opinions with the President and exchanged opinions based on the audit reports and audit findings. It also received reports from Executive Officers and general managers in charge of business departments and exchanged opinions with them as necessary.

The Full-time Audit & Supervisory Board Members attended meetings of the Management Committee and other important meetings. The Full-time and Outside Audit & Supervisory Board Members exchanged opinions with the representative directors of Group companies as necessary.

ii) Information about internal audits

The Company has established the Internal Audit Department as an independent organization. Under the internal audit supervisor of the Company, there are 153 internal auditors within the Group. According to the annual audit plan, they conduct audits using a risk-based approach aimed at mitigating risks throughout the Group. As for audit results, the Company has established a dual-reporting structure, including monthly reports to the President and Audit & Supervisory Board Members as well as regular reports to the Board of Directors and the Audit & Supervisory Board. The Company holds regular Group internal audit meetings to discuss audit policies and problems and improvement proposals based on audit results. The Company also makes efforts to improve and maintain the effectiveness of internal control over financial reporting in cooperation with the internal control departments of Group companies. In addition, internal auditors, Audit & Supervisory Board Members, and the Accounting Auditor regularly exchange information with each other on audit plans and audit results. They also attend each other's audits. The Company is thus working to strengthen coordination in its three-pillar audit system for effective audits.

iii) Information about accounting audits

A. Name of audit firm

Deloitte Touche Tohmatsu LLC

B. Years of continuous auditing

Since 1983

C. Certified public accountants who executed the audit duties

Designated Engagement Partner CPA Michiyuki Yamamoto

Designated Engagement Partner CPA Shinji Seki

Designated Engagement Partner CPA Yusuke Kumei

D. Composition of assistants who supported audit duties

The auditing team for the Company includes 14 other CPAs and 29 other assistants.

E. Policy and reason for appointing audit firm

The Company comprehensively takes into account the capabilities of the Accounting Auditor to properly react to the Company's business size, diversification and internationalization of its business domains in line with the development of Group management and environmental changes, such as revisions to the laws, orders, and criteria with respect to accounting. And it evaluates the Accounting Auditor according to the evaluation criteria for selecting and reappointing or not reappointing the Accounting Auditor set by the Audit & Supervisory Board. Based on the above, the Company confirms the Accounting Auditor's quality control system, independence, and expertise before electing the Accounting Auditor.

Moreover, the Audit & Supervisory Board evaluates whether the election of the Accounting Auditor is proper or not according to the criteria for the election and reappointment or not of the Accounting Auditor.

If the Company's Audit & Supervisory Board recognizes a fact about the Accounting Auditor, as the Company's accounting auditor, that falls under the matters prescribed in each item of Article 340, paragraph (1) of the Companies Act, it shall deliberate on the dismissal of the Accounting Auditor based on that fact and shall dismiss the Accounting Auditor if there is consent from all members of the Audit & Supervisory Board.

If the Company's Audit & Supervisory Board recognizes a fact deemed to show that the audit quality and other standards of the Accounting Auditor, as the Company's accounting auditor, are insufficient for performing audit services, it shall deliberate on the non-reappointment of the Accounting Auditor based on that fact and shall resolve an agenda item for the non-reappointment of the Accounting Auditor to be submitted to the General Meeting of Shareholders.

The details of the criteria for the election of the Accounting Auditor are as follows.

(Details of criteria for election of Accounting Auditor)

- a. Overview of audit firm
- b. Audit implementation system, etc.
- c. Estimated audit fee amount

F. Evaluation of audit firm by the Audit & Supervisory Board and its Members

The Audit & Supervisory Board has set the criteria for electing and reappointing or not reappointing the Accounting Auditor. According to the criteria, the Audit & Supervisory Board monitors and verifies whether the Accounting Auditor maintains independence and implements appropriate audits and receives reports from the Accounting Auditor regarding the performance of their duties and carries out evaluations after seeking explanations as necessary. In addition, the Audit & Supervisory Board received notice from the Accounting Auditor that "the system for ensuring that duties are performed correctly" (matters set forth in each item of Article 131 of the Regulations on Corporate Accounting) is organized in accordance with the "product quality management standards regarding audits" (Business Accounting Council) and other relevant standards and sought explanations as necessary.

As a result, the Audit & Supervisory Board has reappointed the Accounting Auditor of the Company after comprehensively evaluating and considering the audit quality, independence and expertise of the audit firm, as well as the effectiveness of communication with the Audit & Supervisory Board Members and senior executives, etc.

The details of the criteria for the reappointment or non-reappointment of the Accounting Auditor are as follows.

(Details of criteria for reappointment or non-reappointment of an Accounting Auditor)

- a. Quality control of audit firm
- b. Independence and expertise of the audit team
- c. Estimated audit fee amount, etc.
- d. Communication with Audit & Supervisory Board Members, etc.
- e. Relationships with corporate managers, etc.
- f. Group audits
- g. Handling of fraud risk

iv) Details of audit fees and other matters

A. Audit fees paid to auditing certified public accountants, etc.

Classification	Fiscal year ended March 31, 2025		Fiscal year ended March 31, 2026	
	Fees for audit certification services (Millions of yen)	Fees for non-audit services (Millions of yen)	Fees for audit certification services (Millions of yen)	Fees for non-audit services (Millions of yen)
Reporting Company	96	3	87	8
Consolidated subsidiaries	207	1	244	5
Total	304	5	331	14

The details of the non-audit services at the Company included the provision of lectures at training sessions for employees, etc. for the fiscal year ended March 31, 2025, and advice, guidance, etc. on managing the disclosure of sustainability-related financial information for the fiscal year ended March 31, 2026.

The details of the non-audit services at consolidated subsidiaries included advice, guidance, etc. on the translation of their non-consolidated financial statements and audit reports for the fiscal year ended March 31, 2025, and included acceptance procedures related to audit engagements, etc. for the fiscal year ended March 31, 2026.

B. Remuneration to the same network (Deloitte) as the auditing CPAs, etc.
(Excluding A.)

Classification	Fiscal year ended March 31, 2025		Fiscal year ended March 31, 2026	
	Fees for audit certification services (Millions of yen)	Fees for non-audit services (Millions of yen)	Fees for audit certification services (Millions of yen)	Fees for non-audit services (Millions of yen)
Reporting Company	–	6	–	128
Consolidated subsidiaries	152	168	160	58
Total	152	174	160	187

The details of the non-audit services at the Company included advice on the introduction of the Group Tax Sharing System, etc. for the fiscal year ended March 31, 2025, and due diligence services, etc. for the fiscal year ended March 31, 2026.

The details of the non-audit services at consolidated subsidiaries included the advisory service related to new product development for the fiscal year ended March 31, 2025, and the tax advisory service related to overseas subsidiaries for the fiscal year ended March 31, 2026.

C. Details of fees for other significant audit certification services

(Fiscal year ended March 31, 2025)

Among the Company's subsidiaries, Nakano Shokai Co., Ltd. is audited by an audit corporation other than the Company's Accounting Auditor.

(Fiscal year ended March 31, 2026)

Among the Company's subsidiaries, Nakano Shokai Co., Ltd. had been audited by an auditing firm other than the Company's accounting auditor. From the fiscal year beginning October 1, 2025, however, it has changed its accounting auditor to Deloitte Touche Tohmatsu LLC.

D. Policy on determining audit fees

The Company determined audit fees to the auditing CPAs and others after considering the number of days needed for audits, the Company's business size and characteristics, and others.

E. Reason for the Audit & Supervisory Board's consent to fees for Accounting Auditor

The Audit & Supervisory Board agreed with the audit fees to the Accounting Auditor according to Article 399, paragraph (1) of the Companies Act after it made the necessary inspection of the details of the Accounting Auditor's audit plans, implementation status of their accounting audits, grounds for calculating estimated fee amounts, and other factors.

(4) Remuneration for Directors (and other officers)

- i) Total amount of remuneration by category of Directors (and other officers) and by type of remuneration as well as the number of eligible Directors (and other officers)

Categories of Directors (and other officers)	Total amount of remuneration, etc. (Millions of yen)	Total amount by type of remuneration (Millions of yen)				Number of eligible Directors (and other officers) (Persons)
		Basic remuneration	Short-term performance-linked remuneration	Medium- to long-term performance-linked stock compensation*	Of the left, non-monetary remuneration, etc.	
Directors	233	117	43	71	71	2
Outside Directors	77	77	–	–	–	6
Audit & Supervisory Board Members	51	51	–	–	–	2
Outside Audit & Supervisory Board Members	35	35	–	–	–	4

Note: The amount of expenses recorded for share delivery points during the fiscal year under review.

- ii) Total amount of remuneration, etc. to those whose total remuneration, etc. was 100 million yen or more

Name	Total amount of remuneration, etc. (Millions of yen)	Category of Directors (or other officers)	Category of companies	Total amount by type of remuneration (Millions of yen)			
				Basic remuneration	Short-term performance-linked remuneration	Medium- to long-term performance-linked stock compensation*	Of the left, non-monetary remuneration, etc.
Yutaka Nagao	150	Director	Reporting Company	70	28	51	51

Note: The amount of expenses recorded for share delivery points during the fiscal year under review.

- iii) Policy for determining performance-linked remuneration (variable remuneration)

The short-term performance-linked remuneration (variable) is based on the basic remuneration (fixed) determined by position, with a proportion set for each position and a standard amount set. Then the amount of the payment for each individual is determined within the range of 0% to 150% of the standard amount, depending on the Company's achievement rate of performance indicators and the mission assessment of each individual. The performance indicators are consolidated operating revenue, consolidated operating profit, and profit attributable to owners of parent.

The medium- to long-term performance-linked stock compensation (variable) is based on the basic remuneration (fixed) determined by position, with a proportion set for each position and a standard amount set. Then the amount of the payment for each individual is determined within the range of 0% to 150% of the standard amount, depending on the Company's achievement rate of performance indicators and the mission assessment of each individual. The performance indicators are ROE, ROIC, TSR, and ESG indicators. One point per share is granted each fiscal year as the number of points obtained by dividing the amount of medium- to long-term performance-linked stock compensation (variable) by the average closing price of the Company's shares on the Tokyo Stock Exchange during the month preceding the fiscal year in which the Medium-term Management Plan is initiated.

The above indicators for performance-linked remuneration are used to better link remuneration to corporate performance and also to achieve greater transparency and objectivity.

The Company has calculated the annual amount of performance-linked remuneration based on these results and then converted that result to a monthly amount, which is applied to the period extending from July 2025 through June 2026.

<Formula for calculating performance-linked remuneration>

Variable remuneration	Performance indicator	Indicator rate for each Director	Actual (Unit: 100 million yen)	Target (Unit: 100 million yen)	Achievement rate
Short-term performance indicator	i. The Group's consolidated operating revenue	○ 30%	17,627	18,200	96.9%
	ii. The Group's consolidated operating profit	○ 30%	142	500	28.4%
	iii. The Group's consolidated profit	○ 30%	379	320	118.4%
	iv. Mission evaluation (individual)	○ 10%	-		

[(i. Achievement rate × 0.3 + ii. Achievement rate × 0.3 + iii. Achievement rate × 0.3) + Mission evaluation (individual) 10% maximum]

Variable remuneration	Performance indicator	Details	Indicator rate for each Director	Actual	Target	Achievement rate
Medium- to long-term performance indicator	i. ROE	-	○ 20%	6.5%	5.4%	120.4%
	ii. ROIC	-	○ 20%	1.4%	4.9%	28.6%
	iii. TSR	Relative TSR (Index compared to TSR: Dividend-included TOPIX)	○ 30%	93.0% (Dividend-included TOPIX: 98.5%)	100%	94.5%
	iv. ESG indicators	Greenhouse gas emissions single-year target *15% reduction from FY2020	○ 20%	(15.4)%	(15)%	102.7%
	v. Medium- to long-term innovative action targets	Mission evaluation (individual)	○ 10%	-

- iv) Resolution of the General Meeting of Shareholders on remuneration and other compensation for Audit & Supervisory Board Members and Directors

A resolution of the General Meeting of Shareholders to determine remuneration for the Company's Directors was approved on June 23, 2020. Accordingly, it was resolved that remuneration for Directors shall amount to not more than 431 million yen per year (of which, up to 109 million yen is to be allocated to Outside Directors), and short-term and mid- to long-term performance-linked remunerations paid to Directors (excluding Outside Directors) shall amount to not more than 245 million yen and 173 million yen per year, respectively. The Company has deemed that these are competitive remuneration levels for recruiting and retaining talented persons amid its rapidly changing business environment. The Company furthermore seeks to contend with developments that include an increase in Director's responsibilities along with the Company having increased its number of Directors and Audit & Supervisory Board Members with the aims of achieving transparency and vigor of Board of Director's operations and enhancing management oversight. There were nine (9) Directors on the Company's Board of Directors upon approval of the resolution. Meanwhile, remuneration for Audit & Supervisory Board Members was set at an amount of up to 8.00 million yen per month at the General Meeting of Shareholders held on June 29, 1994. The Company had four (4) Audit & Supervisory Board Members upon approval of the resolution.

- v) Policy, etc. on making decisions on content of officer remuneration and other compensation

A. Basic policy

The Company determines matters regarding remuneration for the Company's Directors based on the following considerations.

- Competitive remuneration levels
 - The remuneration level shall reward Officers for their roles, responsibilities and business performance and shall be appropriate for securing talented persons.
- Remuneration system that places emphasis on increasing corporate value and shareholder value
 - The remuneration system shall be linked to business performance and furthermore serve as motivation for achieving performance targets.
 - The remuneration structure shall be linked to medium- to long-term corporate value and furthermore encourage a sense of common interests with shareholders.
- Fairness and impartiality of the remuneration system
 - The process of determining remuneration shall be objective and highly transparent.

B. Remuneration structure

The Company's remuneration for Directors consists of basic remuneration (fixed), short-term performance-linked remuneration (variable) and medium- to long-term performance-linked stock compensation (variable), considering the remuneration level at other companies and other factors. In addition, remuneration for Audit & Supervisory Board Members and Outside Officers consists exclusively of basic remuneration due to the nature of their functional roles.

C. Policy for determining basic remuneration (fixed)

Basic remuneration (fixed) is determined in accordance with rank and title and based on responsibilities, upon having considered remuneration levels at other companies and other such factors.

D. Policy for determining mix of remuneration and other compensation types for individual Directors

The mix of remuneration types is such that the higher a Director's position, the more weight assigned to performance-linked remuneration. The Company has opted for this approach after considering remuneration levels at other companies, in part because this approach makes it possible to further fuel motivation with respect to achieving performance targets, generating medium- to long-term corporate value, and attaining sustainable growth, and also because the Company seeks to offer remuneration levels competitive for recruiting and retaining talented persons.

E. Timing of delivery and conditions

The Company pays its basic remuneration (fixed) and short-term performance-linked remuneration (variable) as monetary sums on a monthly basis encompassing twelve equal installments annually. The medium- to long-term performance-linked stock compensation (variable) will be granted once a year in the form of points around June, which will be distributed at the time of retirement in accordance with the Regulations on Share-based Remuneration for Officers with the accumulated points up to the time of retirement being converted into one share per point.

- vi) Authority for decisions on remuneration and other compensation for individual Directors

On the basis of policy for decisions resolved by the Board of Directors, the Company decides the amounts of basic remuneration (fixed),

short-term performance-linked remunerations (variable), and medium- to long-term performance-linked stock compensation (variable) for individual Directors by judging in advance the amounts to be set in accordance with said policy for decisions upon having taken into consideration the amount of remuneration for individual Directors and details of calculation of such amount discussed and reported by the Nomination and Compensation Committee, where Independent Outside Directors occupy the majority of its members and which is chaired by one of the Outside Directors, so that it will assess each of the Directors while taking factors such as Company-wide business results into consideration.

vii) Others

A certain percentage of the monetary remuneration shall be allocated to the purchase of shares of the Company through the Officers and Executives' Shareholding Association. In order to implement a process with high objectivity and transparency for activities of the Nomination and Compensation Committee to decide remuneration and other compensation for individual Directors in the fiscal year ended March 31, 2026, the Company held 13 meetings of the Nomination and Compensation Committee, and the decision was made by the Board of Directors upon having taken into consideration the amount of remuneration for individual Directors and details of calculation of such amount based on the Policy for determining remuneration and other compensation for individual Directors. During the fiscal year under review, the Nomination and Compensation Committee has deliberated on revisions to the officer remuneration system with the aim of further strengthening officer motivation for improving corporate value and shareholder value in the medium to long term. The main directions of the revisions are as follows:

- Revision of the achievement rate on short-term performance indicators

We will optimize the achievement rate by increasing the proportion of operating profit, and by newly incorporating the performance of individual businesses and increasing the proportion of individual corporate missions to more directly reflect the contribution of businesses and individuals to the company's overall performance in compensation.

- Revision in the scheme of medium- to long-term performance-linked remuneration (stock compensation)

We will transform from the conventional board benefit trust scheme to the scheme of delivery of shares in kind in which shares are directly delivered to eligible officers in order to promote the sharing of interests with shareholders and strengthen our commitment to enhancing shareholder value in the medium to long term.

[Time to launch the scheme and future plans]

The revision on the achievement rate on short-term performance indication is effective from April 2026, and the revision in the scheme of medium- to long-term performance-linked remuneration is in effect from the evaluation period starting in April 2026. These revisions will be formally launched after being submitted to the Ordinary General Meeting of Shareholders scheduled in June 2026 and approved at the Board of Directors meeting to be held thereafter.

(5) Status of Shareholdings

i) Standards and approach to investment share classification

The Company classifies shares held purely for investment purposes as those held solely for the purpose of receiving profit from a change in their value or from their dividends. Among investment shares held for any purpose other than a pure investment purpose, the Company classifies shares it deems to be significant for holding, having taken into account comprehensively their relationship with the Group's business developments, profitability, possibility for creating business opportunities, and other factors from medium and long-term perspectives.

ii) Investment shares held for any purpose other than a pure investment purpose

A. Shareholding policies, method of verifying the reasonableness for shareholdings, and the Board of Directors' review on appropriateness of shareholdings of individual issues

The Company has a policy that it holds shares it deems to be significant for holding, having taken into account comprehensively their relationship with the Group's business developments, profitability, possibility for creating business opportunities, and other factors from medium and long-term perspectives.

Each year, the Board of Directors reviews the benefits and risks associated with holding them, quantitatively and qualitatively, and determines whether or not to continue holding them on the basis of trading performance, market prices, and other factors. The Company sells shares if it has found insufficient holding significance as a result of the review.

During the fiscal year ended March 31, 2026, at the Board of Directors meeting held on December 18, 2025, the Company reviewed the trading-related profit, dividend income, and evaluation difference amounts, verified their relationship with the Group's business developments and possibility to create future business opportunities from medium to long-term perspectives, and comprehensively determined whether or not to continue holding those shares. As a result, the Company sold shares of two issues it deemed to be of insufficient holding significance while taking into account the possible impact on the market.

Not applicable

5. Status of Employees, etc.

(1) Basic policy, etc. on human resource strategies

i) HR strategies

HR strategies are described in “II. Business Overview, 2. Approach to Sustainability and Associated Initiatives, (2) Promotion of HR strategies that support management strategies.”

ii) Policy on determining wages

A. Basic policy

The Group's basic policy is to ensure fair and impartial treatment based on roles and performance, thereby developing an environment in which diverse human resources can fully demonstrate their capabilities and contribute to enhancing corporate value over the medium to long term. We have established and operate a remuneration system that promotes each employee's autonomous growth and encourages them to take on new challenges.

B. Salary structure and performance evaluation system

Employee salaries are determined based on a comprehensive assessment of each individual's role, scope of duties, and demonstrated capabilities and performance. Our performance evaluation system takes a multifaceted approach, considering not only performance but also the processes undertaken and the extent to which employees embody the Group's corporate philosophy.

C. Ensuring market competitiveness and enhancing employee engagement

To recruit and retain talented persons, we regularly benchmark our compensation practices against trends in external labor market and among peer companies and strive to maintain and improve competitive salary levels. In addition, our performance-linked bonus system aligns individual compensation with the Company's growth and enhances employee engagement.

D. Ensuring transparency and employee acceptance

Our evaluation criteria and salary determination process are clearly defined in internal regulations and are communicated to all employees. Moreover, through regular goal-setting and feedback sessions, we promote dialogue between managers and their team members, ensuring that the system operates transparently and maintains a high level of employee acceptance.

(2) Status of Employees

i) Consolidated companies

As of March 31, 2026

Business segment	Number of employees (full-timers)	Number of employees (part-timers)	Total number of employees
Express Business	76,551	81,351	157,902
Contract Logistics Business	3,970	3,633	7,603
Global Business	2,578	192	2,770
Mobility Business	1,411	585	1,996
Other	2,819	1,588	4,407
Corporate	18	–	18
Total	87,347	87,349	174,696

- Notes:
1. Employees in the Express Business include employees in the Head Office division of Yamato Transport Co., Ltd.
 2. The number for “Corporate” is the number of employees belonging to the Company.

ii) Status of the Reporting Company, etc.

As of March 31, 2026

Number of employees (Number of people)	Average age (Years old)	Average length of service (Years)	Average annual salary (Yen)	YoY change in average annual salary (%)
18	36.4	10.3	12,483,061	1.8

- Notes:
1. Average annual salary (including tax) includes non-standard allowances and bonuses.
 2. Since the Company is a pure holding company, its workforce consists primarily of employees engaged in corporate management functions.

iii) Status of the company with the largest workforce

Company with the largest number of employees in the fiscal year under review

Yamato Transport Co., Ltd.

As of March 31, 2026

Number of employees (Number of people)	Average age (Years old)	Average length of service (Years)	Average annual salary (Yen)	YoY change in average annual salary (%)
76,882	45.9	17.3	6,096,295	3.8

- Notes:
1. Average annual salary (including tax) includes non-standard allowances and bonuses.
 2. All figures presented relate to full-timers.
 3. The number of part-time employees is 83,491.

iv) Status of the labor union

Yamato Transport Labor Union, etc. are organized in the Yamato Group. There are no particular matters to describe in relation to labor-management relations.

v) Percentages of female employees in managerial positions, percentages of male employees who have taken childcare leave, and gender pay gaps

The Yamato Group actively promotes diverse ways of working so that all employees have opportunities to succeed. We pursue diversity, fairness, and inclusiveness in the workplace for our employees, including part-time and fixed-term employees who work under limited conditions for working hours and/or places of work, among others.

Fiscal year under review					
Reporting Company and consolidated subsidiary	Female employees in managerial positions (%) (Note 1)	Male employees who have taken childcare leave (%) (Note 2)	Gender pay gap (%) (Notes 1 and 3)		
			All employees	Permanent employees	Part-time and fixed-term employees
Yamato Transport Co., Ltd.	6.4	46.9	58.1	75.3	98.0
Okinawa Yamato Transport Co., Ltd.	13.5	50.0	52.9	79.2	89.0
YAMATO BOX CHARTER CO., LTD.	4.8	28.6	60.9	81.7	190.4
Yamato Multi Charter Co., Ltd.	0.0	0.0	44.1	85.1	122.0
Nakano Shokai Co., Ltd.	10.6	80.0	56.5	80.1	75.5
Konan Industry Co., Ltd.	4.5	66.6	71.3	74.8	102.2
Yamato Autoworks Co., Ltd.	8.4	51.0	56.5	78.3	86.4
Yamato System Development Co., Ltd.	9.0	80.0	65.1	80.3	68.1
YAMATO CONTACT SERVICE CO., LTD.	29.9	100.0	59.6	68.1	119.7
Yamato Credit & Finance Co., Ltd.	10.2	100.0	—	—	—

- Notes:
1. The percentages were calculated in accordance with the provision of the Act on the Promotion of Women's Active Engagement in Professional Life (Act No. 64 of 2015).
 2. These calculated percentages are of employees who have taken childcare leave as specified in Article 71-6, item (i) of the Ordinance

for Enforcement of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Ordinance of the Ministry of Labor No. 25 of 1991) in accordance with the provision of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Act No. 76 of 1991).

3. With regard to gender pay gaps, the Company's personnel and compensation systems are not based on gender.
The gaps shown above are attributed mostly to the fact that many female employees are part-timers who work fewer hours, and to differences in numbers of employees between the lines of work.

V. Financial Information

1. Preparation of the consolidated financial statements and non-consolidated financial statements

(1) The consolidated financial statements of the Company are prepared in accordance with the “Regulation on Terminology, Forms, and Preparation Methods of Consolidated Financial Statements” (Ministry of Finance Order No. 28 of 1976).

(2) The non-consolidated financial statements of the Company are prepared in accordance with the “Regulation on Terminology, Forms, and Preparation Methods of Financial Statements” (Ministry of Finance Order No. 59 of 1963 (“Regulation on Financial Statements”)).

The Company is a company filing non-consolidated financial statements prepared in accordance with special provisions and prepares non-consolidated financial statements pursuant to Article 127 of the Regulation on Financial Statements.

2. About audit certificate

Pursuant to the provisions of Article 193-2, paragraph (1) of the Financial Instruments and Exchange Act, the consolidated financial statements of the Company for the fiscal year (April 1, 2025 to March 31, 2026) and the non-consolidated financial statements for the 161st fiscal year of the Company (April 1, 2025 to March 31, 2026) were audited by Deloitte Touche Tohmatsu LLC.

3. About special initiatives to secure the adequacy of the consolidated financial statements, etc.

The Company implements special initiatives to secure the adequacy of the consolidated financial statements, etc. Specifically, the Company joins the Financial Accounting Standards Foundation to prepare a system that can adequately grasp the details of the financial accounting standards and other matters and properly respond to changes therein.

Notes to Consolidated Financial Statements

(Significant matters forming the basis of preparing the consolidated financial statements)

1. Scope of consolidation

(1) Number of consolidated subsidiaries: 31

Major consolidated subsidiaries are described in "I. Overview of the Company, 4. Status of Subsidiaries and Associates."

Effective from the beginning of the fiscal year under review, YAMATO INVESTMENT (HONG KONG) LIMITED has been excluded from the scope of consolidation due to the conclusion of its liquidation.

(2) Unconsolidated subsidiaries, etc.

OTL ASIA SDN. BHD. and certain other subsidiaries are not included within the scope of consolidation. The total assets, operating revenue, profit, and retained earnings of these unconsolidated subsidiaries are immaterial and, even taken together as a group, they do not exert a significant influence on the consolidated financial statements.

2. Application of equity method

(1) Number of affiliates accounted for using equity method: 5

Major entities accounted for using equity method are described in "I. Overview of the Company, 4. Status of Subsidiaries and Associates."

Effective from the beginning of the fiscal year under review, GDEX BHD. and its 34 subsidiaries have been excluded from the scope of the equity method due to the partial transfer of shares in GDEX BHD. held by the Company.

(2) Unconsolidated subsidiaries and affiliates not accounted for using equity method

Entities not subject to the equity method such as OTL ASIA SDN. BHD. and certain other unconsolidated subsidiaries and YAMATO UNYU (THAILAND) CO., LTD. and certain other affiliated companies are excluded from the scope of entities accounted for using the equity method because they do not exert a significant influence on the consolidated financial statements even when taken together as a group, given immateriality of their profit, retained earnings and other financial results corresponding to the ownership held by the Company.

(3) Special note on the application of equity method

The fiscal year end dates of certain entities accounted for using the equity method differ from the consolidated balance sheet date, and, accordingly, the financial statements have been prepared on the basis of the financial statements and provisional financial results for the respective fiscal years of each of those entities.

3. Closing date of consolidated subsidiaries

Of the Company's consolidated subsidiaries, YAMATO TRANSPORT U.S.A. INC. and eight other subsidiaries have a fiscal year-end of December 31, and IS Tosu II Development Special Purpose Company has a fiscal year-end of June 30. The accompanying consolidated financial statements have been prepared using the financial statements of these subsidiaries that were provisionally closed as of the consolidated balance sheet date.

Effective from the beginning of the fiscal year under review, Nakano Shokai Co., Ltd. has changed its financial closing date from September 30 to March 31, making it the same as the consolidated balance sheet date.

4. Accounting policies

(1) Valuation basis and methods for significant assets

i) Securities

Available-for-sale securities

Other than stocks and other securities with no market price

Stated at the fair market value based on the quoted market price (valuation differences are recognized in net assets; the cost of securities sold is calculated by the moving-average method).

Stocks and other securities with no market price

Stated at cost using the moving-average method.

Investments in investment limited partnerships and similar partnerships

(Investments deemed to be securities pursuant to Article 2, paragraph (2) of the Financial Instruments and Exchange Act)

Stated at the net amount of the Company's interest in the partnership based on the most recent financial statements available according to the reporting date stipulated in the partnership agreement.

ii) Inventories

Stated at the cost by first-in first-out method (for the value stated in the balance sheet, book value is written down based on the decreased profitability)

(2) Depreciation and amortization methods for significant depreciable and amortizable assets

i) Property, plant and equipment (excluding leased assets)

Depreciated using the straight-line method.

ii) Intangible assets (excluding leased assets)

Amortized using the straight-line method.

However, software is amortized by the straight-line method over the estimated useful life (five years or less), and customer-related intangible assets are amortized by the straight-line method over a period of benefit.

iii) Leased assets

Leased assets related to finance lease transactions that transfer ownership

Adopted the same method as that applied for the depreciation of non-current assets owned by the Company.

Leased assets related to finance lease transactions that do not transfer ownership

Adopted the straight-line method where the useful life of leased assets shall be equal to the lease period and their residual value shall be zero.

(3) Accounting method for significant provisions

i) Allowance for doubtful accounts

The allowance for doubtful accounts is provided to prepare for losses from uncollectible credits. For ordinary receivables, the amount is estimated using the rate based on the historical bad debt experience. For special receivables with higher uncertainty, collectivity is considered on individual cases and the prospective uncollectible amount is provided.

ii) Provision for bonuses

The provision for bonuses is provided for the payment of bonuses to employees based on the amount expected to be paid.

iii) Provision for share awards for directors (and other officers)

In preparation for the payment of shares based on the Regulations on Share-based Remuneration for Officers, the expected amount of compensation is recorded according to the points allocated to Directors (and other officers).

iv) Provision for special repairs

In preparation for the expenditure of costs that would be incurred to conduct special repairs for freighters based on the Civil Aeronautics Act, an amount based on the estimated costs is reported herein for the future.

(4) Method of accounting for retirement benefits

i) Method of attributing expected retirement benefits to periods

In calculating the retirement benefit obligations, the straight-line basis is used in determining the amount of the expected retirement benefit obligation attributed to service performed up to the end of the fiscal year under review.

ii) Method of recognizing actuarial differences and prior service costs

The entire amount of prior service cost is recognized in profit or loss in the fiscal year during which it arises.

Actuarial differences are recognized in profit or loss in the year following the year in which a respective gain or loss arises and are amortized proportionally on a straight-line basis over a period (mainly five years), which is within the average remaining years of service of the eligible employees.

iii) Method of accounting for unrecognized actuarial difference

Unrecognized actuarial difference is accounted for in remeasurements of defined benefit plans, after adjusting for tax effects, under accumulated other comprehensive income of net assets.

(5) Accounting method for significant revenues and costs

Revenue from contracts with customers

The following is a summary of the principal performance obligations in the Company's and its consolidated subsidiaries' principal businesses relating to revenues from contracts with customers and the normal time at which such performance obligations are satisfied (the normal time for recognizing revenues).

i) Express Business

The Express business mainly provides small parcel delivery service, including TA-Q-BIN. In this transportation service, based on contracts with customers, the Company provides pickup and delivery services at the request of customers, and revenues from these services are recognized in proportion to the satisfaction of performance obligations measured by the progress of deliveries since other companies are not required to re-perform the transportation process that has already been executed even if the delivery to the designated destination cannot be completed.

ii) Contract Logistics Business and the Global Business

In addition to the logistics support services, such as cargo storage and logistics services for inbound and outbound shipments and customs clearance, in order to provide value to the entire supply chain of its customers, the Contract Logistics business and the Global business provide the same transportation services that the Express business does. In these logistics support services, we provide value-added services tailored to customer needs, including storage, shipping and receiving, inventory management, arrangement of customs clearance, and delivery of cargo based on contracts with customers, and the Company recognizes each contractually agreed-upon process as a performance obligation. The Company recognizes revenue for each process under the contract as the satisfaction of the performance obligation, which is measured by the progress of the work, as the customer receives the economic benefit of the work as it progresses.

iii) Mobility Business

The Mobility business provides vehicle maintenance services, including inspection and maintenance of customers' vehicles. The vehicle maintenance services include maintenance and management of vehicles owned or used by customers, including legal inspection, as well as those accompanying such services. Revenues from these services are recognized upon the fulfillment of the performance obligation, which is to say, when inspected or maintained vehicles are delivered back to and received by the customers.

(6) Goodwill amortization method and periods

Goodwill is amortized on a straight-line basis over a period of benefit that is reasonably estimated. However, if the amount of goodwill is immaterial, the entire amount of goodwill is amortized in the fiscal year during which it arises.

(7) Scope of cash and cash equivalents in consolidated statement of cash flows

The funds (cash and cash equivalents) in the consolidated cash flow statement consist of cash on hand and short-term investments that are readily convertible into cash and exposed to insignificant risk of changes in value and which mature or become due within three months from the date of acquisition. Bank overdrafts are included in cash equivalents, excluding the case when they are clearly recognized as fundraising activities similar to short-term borrowings.

(Significant accounting estimates)

(Impairment of non-current assets)

(1) Amount recorded in the consolidated financial statements for the fiscal year under review

The following is a list of items that have been recognized in the consolidated financial statements for the fiscal year under review based on accounting estimates and that may have a material effect on the consolidated financial statements for the following fiscal year.

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Property, plant and equipment	474,354	469,156
Intangible assets	82,574	65,640

(2) Information on significant accounting estimates for identified items

For accounting estimates pertaining to impairment of non-current assets, the cash-generating unit, which is the unit used to determine whether impairment is required, is the smallest unit of the asset group identified as generating cash inflows that are generally independent of the cash inflows of other assets or asset groups. Asset groups are created in consideration of the management accounting classification and the unit used for investment decision making. For Yamato Transport Co., Ltd., the grouping is based on business segments, and assets associated with the Head Office division are classified as corporate assets. Upon assessment, if there are indicators of impairment on each asset group, the Company determines the recognition of impairment loss on the asset group with indicators of impairment based on the comparison of undiscounted future cash flows and the book value of non-current assets. In the event that the undiscounted future cash flows fall below the book value of non-current assets, the non-current assets will be reduced to the recoverable amount and such reduction will be recognized as an impairment loss. The recoverable amount of the relevant asset group is the higher of either its net selling value or its value in use. The value in use is measured as the present value of the future cash flows.

Future cash flow and its underlying business plan used for the recognition and measurement of impairment loss, as well as the discount rate used for calculating the value in use, etc., are subject to accounting judgement and assumptions by their nature. Thus, they may be impacted by uncertain future economic and business conditions. Therefore, if it becomes necessary to revise the premise and assumptions of estimates, that may have a material impact on the Company's consolidated financial statements for the next fiscal year.

(3) Key assumptions used for calculating the amount recognized in the consolidated financial statements for the fiscal year under review and impact on the consolidated financial statements for the next fiscal year

Although indications of impairment in the Express Business of Yamato Transport Co., Ltd. were identified in the fiscal year under review, impairment loss was not recognized because undiscounted future cash flows exceeded the book value of non-current assets.

The total estimated undiscounted future cash flows in the Express Business are based on the future business plan, which includes key assumptions: state of income such as the trends of prices and delivery volumes of TA-Q-BIN and major customers' demand, cost situation caused by changes in the external environment such as the trends of resource and energy prices and hourly wage rates, and partial review of the providing form of transportation services and effect of this review on profit and loss.

For this reason, if the above key assumptions differ from future actual results, causing the deterioration of future cash flows, an impairment loss may be recorded in the next fiscal year.

The Express Business of Yamato Transportation Co., Ltd. recorded the following items and amounts in the consolidated financial statements for the fiscal year under review.

Property, plant and equipment	376,145 million yen
Intangible assets	376 million yen

(New accounting standards, etc. not yet applied)

- "Accounting Standard for Leases" (ASBJ Statement No. 34, September 13, 2024, Accounting Standards Board of Japan)
- "Implementation Guidance on Accounting Standard for Leases" (ASBJ Guidance No. 33, September 13, 2024, Accounting Standards Board of Japan) and other guidance

(1) Overview

As part of its efforts to enhance the international consistency of Japanese GAAP, the Accounting Standards Board of Japan (ASBJ)

conducted a review aimed at developing a new accounting standard for leases that requires lessees to recognize assets and liabilities for all leases, in alignment with international accounting standards. Accordingly, the ASBJ issued the new accounting standard for leases and other guidance based on a basic policy that uses the single lessee accounting model introduced under IFRS 16 as its foundation, incorporating only its core provisions without fully aligning with all IFRS 16 provisions. The standard and other guidance aim to adopt a simplified and practical approach and to enable entities preparing non-consolidated financial statements to apply the provisions of IFRS 16 essentially without modification.

For the accounting treatment by lessees, the single lessee accounting model will be applied for the allocation of lease expenses. Under this model, depreciation on right-of-use assets and interest equivalent on lease liabilities are recognized for all leases, regardless of whether they are classified as finance leases or operating leases, consistent with IFRS 16.

(2) Scheduled date of application

The Company expects to apply these standard and guidance from the beginning of the fiscal year ending March 31, 2028.

(3) Effects of application of the accounting standard and other guidance

The Company is currently evaluating the effects of applying the "Accounting Standard for Leases" and other guidance on its consolidated financial statements.

(Changes in presentation)

(Consolidated balance sheet)

"Asset retirement obligations," which was included in "Other" under "Non-current liabilities" in the previous fiscal year, is separately presented in the fiscal year under review because the amount became material. The consolidated financial statements of the previous fiscal year have been reclassified to reflect this change in presentation.

As a result, 25,688 million yen presented in "Other" under "Non-current liabilities" in the consolidated balance sheet for the previous fiscal year has been reclassified as 12,156 million yen in "Asset retirement obligations" and 13,532 million yen in "Other."

(Consolidated statement of income)

"Loss on sale of investment securities" and "Loss on valuation of investment securities" in "Extraordinary losses" presented separately in the previous fiscal year are included in "Other" in the fiscal year under review because the amount became immaterial. The consolidated financial statements of the previous fiscal year have been reclassified to reflect this change in presentation.

As a result, 71 million yen of "Loss on sale of investment securities" and 849 million yen of "Loss on valuation of investment securities" under "Extraordinary losses" in the consolidated statement of income for the previous fiscal year are included in "Other."

(Consolidated statement of cash flows)

"Increase (decrease) in accrued consumption taxes" included in "Other, net" under "Cash flows from operating activities" in the previous fiscal year has been presented separately from the fiscal year under review because the amount became material. In addition, "Loss (gain) on valuation of investment securities" presented separately is included in "Other, net" in the fiscal year under review because the amount became immaterial. The consolidated financial statements of the previous fiscal year have been reclassified to reflect these changes in presentation.

As a result, in the consolidated statement of cash flows for the previous fiscal year, negative 15,552 million yen presented in "Other, net" under "Cash flows from operating activities" has been reclassified as negative 8,351 million yen in "Increase (decrease) in accrued consumption taxes" and negative 7,201 million yen in "Other, net," and negative 6,352 million yen was recorded as "Other, net," combined with the reclassification of 849 million yen in "Loss (gain) on valuation of investment securities" into "Other, net."

(Additional information)

(Board Benefit Trust (BBT) performance-linked and share-based remuneration system)

The Company has adopted the Board Benefit Trust (BBT) performance-linked and share-based remuneration system (the "System"). The purpose of the System is to further clarify the linkage of remuneration for Directors (excluding Outside Directors) and executive officers, etc. who do not concurrently serve as Directors (collectively, "Officers") and the Company's business performance and share value ensuring that not only the benefit of the increase in share prices but also the risk of the decrease in share prices are shared between the Officers and the shareholders, thereby further motivating the Officers to contribute to the improvement in the business performance and corporate value over the medium to long term.

(1) Overview of transactions

The System is a performance-linked and share-based remuneration system under which the Company's shares are acquired

through a trust using money contributed by the Company as the source of funds (hereinafter the “Trust”), and the Officers are provided with the Company’s shares and an amount of money equivalent to the market value of the Company’s shares (hereinafter the “Company’s Shares, Etc.”) through the Trust in accordance with the Regulations on Share-based Remuneration for Officers established by the Company. The Officers shall receive the Company’s Shares, Etc. upon their retirement, in principle.

(2) Accounting procedures

Accounting for the trust shall be carried out in accordance with the “Practical Solution on Transactions of Delivering the Company’s Own Stock to Employees etc. through Trusts” (ASBJ Practical Issues Task Force (PITF) No. 30, March 26, 2015).

(3) Shares of the Company remaining in trust

Shares of the Company remaining in trust are to be recorded as treasury shares under net assets at book value in trust (excluding incidental expense amounts). There were 471 thousand shares of such treasury shares at a book value of 1,342 million yen as of March 31, 2025, and 469 thousand shares at a book value of 1,335 million yen as of March 31, 2026.

(Dissolution and liquidation of subsidiaries)

At the Company’s Board of Directors meeting held on February 17, 2023, the Company resolved to liquidate its consolidated subsidiary, YAMATO ASIA PTE. LTD. The liquidation process is currently underway.

(1) Reasons for dissolution and liquidation

As the Company progresses with the reconstruction of an appropriate governance structure that aligns with business scale, characteristics, country/region-specific factors, and the growth stage of overseas operations, the Company has determined the need to reorganize the current management structure with an intermediate holding company based on the previous overseas governance framework. Consequently, the Company decided to initiate the liquidation of YAMATO ASIA PTE. LTD.

(2) Name, business content and ownership of the subsidiary

i) Name	YAMATO ASIA PTE. LTD.
ii) Description of business	Management of regional operations in Southeast Asia, business development and market research
iii) Ownership	100% owned by the Company

(3) Timing of dissolution and liquidation

Extraordinary General Meeting of Shareholders (companies concerned)	January 2026
Completion of liquidation	November 2026 (planned)

(4) Status and total liabilities of the subsidiary

Net assets	9,814 million yen
Total assets	9,814 million yen

(5) Impact on profit/loss due to the dissolution and liquidation

The impact caused by expenses incurred due to the dissolution and liquidation of the subsidiary on profit and loss is minor.

(6) Significant impact of the dissolution and liquidation on business activities

The impact of the dissolution and liquidation of the subsidiary on business activities is minor.

(Consolidated balance sheet)

*1 The amounts of notes and accounts receivable - trade and contract assets arising from contracts with customers are as follows:

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Notes receivable - trade	793	673
Accounts receivable - trade	189,436	192,943
Contract assets	4,381	4,781

*2 The amounts of "Investment securities" invested in unconsolidated subsidiaries and affiliates are as follows:

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Investment securities	13,793	7,498

*3 The amounts of contract liabilities in "Other" of "Current liabilities" are as follows:

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Contract liabilities	12,624	12,772

*4 Collateral assets and liabilities with collateral
Assets pledged as collateral are as follows.

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Buildings and structures	339	330
Land	939	939

Liabilities with collateral are as follows.

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Long-term borrowings (including current portion of long-term borrowings)	2,199	2,169

(Consolidated statement of income)

*1 Revenue from contracts with customers

Regarding operating revenue, the Company does not separately present revenues from contracts with customers and other revenues. The amount of revenue from contracts with customers is presented in "V. Financial Information, 1. Consolidated Financial Statements, etc., (1) Consolidated Financial Statements, Notes to Consolidated Financial Statements (Revenue recognition), 1. Information that breaks down revenue from contracts with customers."

*2 Research and development expenses included in general and administrative expenses are as follows:

(Millions of yen)

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Research and development expenses	2,832	3,718

*3 Gain on sale of non-current assets is as follows:

(Millions of yen)

Fiscal year ended March 31, 2025		Fiscal year ended March 31, 2026	
Land	23,850	Buildings and structures	4,647
		Land	13,386

*4 Loss on sale of non-current assets is as follows:

(Millions of yen)

Fiscal year ended March 31, 2025		Fiscal year ended March 31, 2026	
—		Buildings and structures	249
		Land	524

*5 Loss on retirement of non-current assets is as follows:

(Millions of yen)

Fiscal year ended March 31, 2025		Fiscal year ended March 31, 2026	
Buildings and structures	79	Buildings and structures	125
Dismantlement expenses	257	Vehicles	437

*6 Impairment losses

Fiscal year ended March 31, 2025

(Millions of yen)

Use of asset	Type of asset	Region	Impairment losses
Assets disposed of due to business closure, etc.	Intangible assets (Other), property, plant and equipment (Other), software, other	Yamato Transport Co., Ltd. Head Office (Chuo-ku, Tokyo) and four other lots	631

At the Yamato Group, asset groups are created in consideration of the management accounting classification and the unit used for investment decision making. For Yamato Transport Co., Ltd., the grouping is based on business segments, and assets associated with the Head Office division are classified as corporate assets. For the Company and its consolidated subsidiaries, the grouping is based on the unit of department. For idle assets, the grouping is based on individual assets.

During the fiscal year ended March 31, 2025, the Group recognized no future usage and a continuous decrease in profit and loss arising from operating activities or significant declines in market prices for the asset group consisting of the Head Office of Yamato Transport Co., Ltd. and four other premises, and it decreased the book value of the relevant asset group to the recoverable amount and recognized an impairment loss of 631 million yen under extraordinary losses.

A main breakdown of this decrease shows that 313 million yen was attributable to intangible assets (other), 159 million yen was attributable to property, plant and equipment (other), and 110 million yen was attributable to software.

If the recoverable amount of such asset group is calculated based on value in use, the amount is valued by discounting future cash flows with a discount rate (mainly 6.82%). Where the recoverable amount is calculated based on net realizable value, idle assets are assumed to be zero, and assets other than idle assets are valued based mainly on real estate appraisal standards, the assessed value of property tax or the posted land price.

Fiscal year ended March 31, 2026

(Millions of yen)

Use of asset	Type of asset	Region	Impairment losses
Logistics Center, Sales Office, etc.	Property, plant and equipment (Other), leased assets, machinery and equipment, etc.	Nakano Shokai Co., Ltd. Kawanishi Logistics Center (Kawanishi, Hyogo Prefecture) and ten other lots	1,225

At the Yamato Group, asset groups are created in consideration of the management accounting classification and the unit used for investment decision making. For Yamato Transport Co., Ltd., the grouping is based on business segments, and assets associated with the Head Office division are classified as corporate assets. For Nakano Shokai Co., Ltd., the grouping is based on premises such as Logistics Center and Sales Offices. For the Company and its consolidated subsidiaries, the grouping is based on the unit of department. For idle assets, the grouping is based on individual assets.

During the fiscal year under review, the Group recognized that the original income estimate is no longer viable or future usage is not expected for the asset group consisting of Kawanishi Logistics Center of Nakano Shokai Co., Ltd. and ten other premises, and it decreased the book value of the relevant asset group to the recoverable amount and recognized an impairment loss of 1,225 million yen under extraordinary losses.

A main breakdown of this decrease shows that 578 million yen were attributable to property, plant and equipment (other), 344 million yen were attributable to leased assets, and 203 million yen were attributable to machinery and equipment.

If the recoverable amount of such asset group is calculated based on value in use, the amount is valued by discounting future cash flows with a discount rate (mainly 11.3%). Where the recoverable amount is calculated based on net realizable value, idle assets are assumed to be zero, and assets other than idle assets are valued based mainly on real estate appraisal standards, the assessed value of property tax or the posted land price.

*7 Amortization of goodwill

Fiscal year ended March 31, 2026

This refers to amortization of goodwill in the consolidated statement of income based on paragraph 32 of Practical Guidelines on the Procedures to Consolidate Equity Accounts in Consolidated Financial Statements (ASBJ Transferred Guidance No. 4, July 1, 2024) in line with recording loss on valuation of shares of subsidiaries and associates in the non-consolidated statement of income for shares of Nakano Shokai Co., Ltd. held by the Company in order to reflect a decrease in the expected excess earning power, etc. that existed at the time of the acquisition.

(Consolidated statement of comprehensive income)

* Reclassification adjustments and their income taxes and tax effects relating to other comprehensive income

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Valuation difference on available-for-sale securities		
Amount arising during the year	7,572 Million yen	8,867 Million yen
Reclassification adjustments	(15,415)	(2,125)
Before income taxes and tax effects adjustments	(7,843)	6,741
Income taxes and tax effects	1,491	(1,598)
Valuation difference on available-for-sale securities	(6,351)	5,142
Foreign currency translation adjustment		
Amount arising during the year	1,378	2,110
Reclassification adjustments	—	(309)
Before income taxes and tax effects adjustments	1,378	1,800
Income taxes and tax effects	(54)	(165)
Foreign currency translation adjustment	1,324	1,635
Remeasurements of defined benefit plans, net of tax		
Amount arising during the year	25,518	(1,472)
Reclassification adjustments	(174)	(5,807)
Before income taxes and tax effects adjustments	25,344	(7,280)
Income taxes and tax effects	(7,968)	2,294
Remeasurements of defined benefit plans, net of tax	17,376	(4,985)
Share of other comprehensive income of entities accounted for using equity method		
Amount arising during the year	27	7
Reclassification adjustments	(124)	(38)
Share of other comprehensive income of entities accounted for using equity method	(96)	(31)
Total other comprehensive income	12,252	1,760

(Consolidated statement of changes in equity)

Fiscal year ended March 31, 2025

1. Class and total number of issued shares and treasury shares

	Number of shares at beginning of the fiscal year (Thousand shares)	Increase (Thousand shares)	Decrease (Thousand shares)	Number of shares at end of the fiscal year (Thousand shares)
Issued shares				
Common shares	360,496	–	–	360,496
Total	360,496	–	–	360,496
Treasury shares				
Common shares (Note)	17,548	16,770	8	34,311
Total	17,548	16,770	8	34,311

Note: The number of treasury shares of common shares includes the Company's shares held by the Board Benefit Trust (BBT) (480 thousand shares at the beginning of the fiscal year ended March 31, 2025 and 471 thousand shares at the end of the fiscal year ended March 31, 2025).

The increase of 16,770 thousand treasury shares of common shares is mainly due to the purchase of 16,770 thousand treasury shares.

The decrease of eight thousand treasury shares of common shares is due to the provision of eight thousand treasury shares to retired officers through the Board Benefit Trust (BBT).

2. Share acquisition rights and treasury share acquisition rights

Not applicable

3. Dividends

(1) Payments of dividends

(Resolution)	Type of shares	Total amount of dividends (Millions of yen)	Dividend per share (Yen)	Record date	Effective date
Board of Directors meeting on May 15, 2024	Common shares	7,898	23	March 31, 2024	May 31, 2024
Board of Directors meeting on November 5, 2024	Common shares	7,898	23	September 30, 2024	December 10, 2024

Notes: 1. The total amount of dividends resolved by the Board of Directors on May 15, 2024, includes dividends of 11 million yen for the Company's shares held by the Board Benefit Trust (BBT).

2. The total amount of dividends resolved by the Board of Directors on November 5, 2024, includes dividends of 10 million yen for the Company's shares held by the Board Benefit Trust (BBT).

(2) Dividends whose effective date falls in the fiscal year following the fiscal year of the record date

(Resolution)	Type of shares	Total amount of dividends (Millions of yen)	Source of dividends	Dividend per share (Yen)	Record date	Effective date
Board of Directors meeting on May 14, 2025	Common shares	7,513	Retained earnings	23	March 31, 2025	May 30, 2025

Note: The total amount of dividends resolved by the Board of Directors on May 14, 2025, includes dividends of 10 million yen for the Company's shares held by the Board Benefit Trust (BBT).

Fiscal year ended March 31, 2026

1. Class and total number of issued shares and treasury shares

	Number of shares at beginning of the fiscal year (Thousand shares)	Increase (Thousand shares)	Decrease (Thousand shares)	Number of shares at end of the fiscal year (Thousand shares)
Issued shares				
Common shares	360,496	–	–	360,496
Total	360,496	–	–	360,496
Treasury shares				
Common shares (Note)	34,311	9,511	2	43,819
Total	34,311	9,511	2	43,819

Note: The number of treasury shares of common shares includes the Company's shares held by the Board Benefit Trust (BBT) (471 thousand shares at the beginning of the fiscal year under review and 469 thousand shares at the end of the fiscal year under review).

The increase of 9,511 thousand treasury shares of common shares is mainly due to the purchase of 9,510 thousand treasury shares.

The decrease of two thousand treasury shares of common shares is due to the provision of two thousand treasury shares to retired officers through the Board Benefit Trust (BBT).

2. Share acquisition rights and treasury share acquisition rights

Not applicable

3. Dividends

(1) Payments of dividends

(Resolution)	Type of shares	Total amount of dividends (Millions of yen)	Dividend per share (Yen)	Record date	Effective date
Board of Directors meeting on May 14, 2025	Common shares	7,513	23	March 31, 2025	May 30, 2025
Board of Directors meeting on October 30, 2025	Common shares	7,294	23	September 30, 2025	December 10, 2025

Notes: 1. The total amount of dividends resolved by the Board of Directors on May 14, 2025, includes dividends of 10 million yen for the Company's shares held by the Board Benefit Trust (BBT).

2. The total amount of dividends resolved by the Board of Directors on October 30, 2025, includes dividends of 10 million yen for the Company's shares held by the Board Benefit Trust (BBT).

(2) Dividends whose effective date falls in the fiscal year following the fiscal year of the record date

(Resolution)	Type of shares	Total amount of dividends (Millions of yen)	Source of dividends	Dividend per share (Yen)	Record date	Effective date
Board of Directors meeting on May 13, 2026	Common shares	7,294	Retained earnings	23	March 31, 2026	May 29, 2026

Note: The total amount of dividends resolved by the Board of Directors on May 13, 2026, includes dividends of 10 million yen for the Company's shares held by the Board Benefit Trust (BBT).

(Consolidated statement of cash flows)

*1 Reconciliation of closing balance of cash and cash equivalents and the related account on the consolidated balance sheet

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Cash and deposits	208,654 Million yen	238,812 Million yen
Time deposits with maturity over 3 months	(597)	(989)
Cash and cash equivalents	208,057	237,822

*2 Major components of assets and liabilities of companies that newly became consolidated subsidiaries by acquisition of shares in the fiscal year ended March 31, 2025

The following is the breakdown of assets and liabilities upon consolidation of Nakano Shokai Co., Ltd., resulting from the acquisition of its shares, and a reconciliation between the acquisition price of the shares and the net payments for the acquisition.

Current assets	23,055 Million yen
Non-current assets	53,493
Goodwill	16,195
Current liabilities	(16,058)
Non-current liabilities	(25,446)
Non-controlling interests	(4,296)
Acquisition amount of the shares	46,943
Cash and cash equivalents	(11,635)
Net: Payments for the acquisition	35,307

*3 Major components of assets and liabilities of companies that ceased to be consolidated subsidiaries by sales of shares in the fiscal year ended March 31, 2025

The following is the breakdown of assets and liabilities on the sale of the shares of Yamato Dialog & Media Co., Ltd. (current: YDM Co., Ltd.), when it ceased to be a consolidated subsidiary by the sale of its shares, and the selling price and amount of proceeds from the sale of the shares.

Current assets	1,915 Million yen
Non-current assets	74
Current liabilities	(473)
Non-current liabilities	(7)
Gain on the sale of the shares	25
Selling amount of the shares	1,534
Cash and cash equivalents	(1,317)
Net: Proceeds from the sale	216

4 Details of significant non-cash transactions

Amount of assets and liabilities related to newly recorded lease transactions

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Amount of assets related to lease transactions	10,870 Million yen	23,718 Million yen
Amount of liabilities related to lease transactions	12,656	26,063

(Leases)

(Lessee)

1. Finance lease transactions

Finance lease transactions that do not transfer ownership

(1) Components of leased assets

Property, plant and equipment

Mainly buildings, dedicated cargo aircraft (freighters) and vehicles in the Express business and vehicles and buildings in the Contract Logistics business.

(2) Accounting method for depreciation of leased assets

The accounting method for depreciation of leased assets is as described in "V. Financial Information, 1. Consolidated Financial Statements, etc., (1) Consolidated Financial Statements, Notes to Consolidated Financial Statements (Significant matters forming the basis of preparing the consolidated financial statements), 4. Accounting policies, (2) Depreciation and amortization methods for significant depreciable and amortizable assets."

2. Operating lease transactions

Future lease payments to be made under non-cancellable leases of operating lease transactions

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Due within one year	35,251	45,152
Due after one year	204,241	272,557
Total	239,492	317,710

(Lessor)

1. Finance lease transactions

This information has been omitted due to its lack of significance.

2. Operating lease transactions

Future lease payments to be made under non-cancellable leases of operating lease transactions

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Due within one year	11,461	11,252
Due after one year	34,761	29,366
Total	46,222	40,618

(Financial instruments)

1. Matters concerning the status of financial instruments

(1) Policy on financial instruments

To finance further business growth, the Yamato Group has formulated an investment plan by separating its assets into assets to be held and assets to be utilized based on the balance sheet management. Based on the investment plan, the Group raises capital for assets to be held through bank loans and bond issuances in consideration of financial soundness and efficiency. For assets to be utilized, the Group acquires assets through lease for an optimal period according to the business plan. One-time surplus funds are invested in safe financial assets. Derivative products are mainly used for hedging against variable interest rate risk, and no speculative transactions are undertaken.

Some of the Group's consolidated subsidiaries are engaged in businesses such as third-party credit sales.

(2) Features and risks of financial instruments and risk management structure

Operating receivables, such as notes and accounts receivable - trade and accounts receivable - installment, carry the credit risk of trading partners, and thus the Company manages and controls cash received, as well as outstanding receivables, for each period to identify the credit risk of each trading partner.

Regarding investment securities, the Yamato Group mainly holds shares of companies with which the Group has business relationships or forms a capital alliance, and such shares involve the risk of stock price fluctuations.

The majority of operating payables, such as notes and accounts payable - trade, are due within one year.

Short-term borrowings are mainly used to raise capital for working capital, and long-term borrowings are mainly used to raise capital for capital investment. Borrowings are mainly procured at fixed rates of interest. Lease liabilities are primarily fundraising for capital investment.

Within the Yamato Group, each Group company controls liquidity risk associated with operating payables, borrowings, and lease liabilities by monitoring payments and settlements, bookkeeping, and balances, as well as managing cash positions.

(3) Supplemental remarks on the fair value of the financial instruments

Since variable factors are incorporated in the calculation of the market value of financial instruments, the value may change due to the adoption of different assumptions, etc.

2. Matters concerning fair value of financial instruments

Carrying amounts on the consolidated balance sheet, fair values and the differences between them were as follows.

As of March 31, 2025

(Millions of yen)

	Carrying amount on the consolidated balance sheet	Fair value	Difference
(1) Notes and accounts receivable - trade, and contract assets	219,762		
Allowance for doubtful accounts	(212)		
	219,550	219,565	15
(2) Accounts receivable - installment	56,415		
Allowance for doubtful accounts	(1,101)		
Deferred installment income	[5,669]		
	49,644	53,810	4,165
(3) Investment securities			
Available-for-sale securities	18,652	18,652	–
Shares of affiliates	3,847	8,048	4,201
(4) Short-term borrowings	[14,325]	[14,314]	(10)
(5) Long-term borrowings	[86,258]	[85,001]	(1,257)

- Notes: 1. Items recognized as liabilities are shown in square parentheses [] both under Carrying amount on the consolidated balance sheet and Fair value.
2. Cash and deposits are omitted because they are settled in a short period of time and their carrying amounts approximate fair value.
3. Notes and accounts receivable - trade, and contract assets are presented after deducting allowances for doubtful accounts set up for notes and accounts receivable - trade and contract assets not payable in the short term.
4. Accounts receivable - installment is presented after deducting the relevant allowance for doubtful accounts and deferred installment income.
5. Stocks and other securities that have no market price are not included in Investment securities. Such financial instruments are unlisted equity and investments in capital, which amounted to 16,000 million yen on the consolidated balance sheet.
6. Investments in partnerships and other similar entities that are recorded on the consolidated balance sheet at a net amount equivalent to the Company's ownership interest are not included in Investment securities. The amount of this investment in the consolidated balance sheet is 10,189 million yen.
7. Notes and accounts payable - trade are omitted because most of them are due within one year and their carrying amounts approximate fair value.
8. Expected redemption amounts of monetary claims and securities with maturity after the consolidated balance sheet date

(Millions of yen)

	Within 1 year	After 1 year through 5 years	After 5 years
Cash and deposits	208,654	–	–
Notes and accounts receivable - trade, and contract assets	219,712	50	–
Accounts receivable - installment	21,782	26,135	8,497
Total	450,148	26,186	8,497

9. Repayment schedule of long-term borrowings after the consolidated balance sheet date

(Millions of yen)

	Within 1 year	After 1 year up to 2 years	After 2 years up to 3 years	After 3 years up to 4 years	After 4 years up to 5 years	After 5 years
Long-term borrowings	2,525	2,418	2,127	30,865	50,846	–

As of March 31, 2026

(Millions of yen)

	Carrying amount on the consolidated balance sheet	Fair value	Difference
(1) Notes and accounts receivable - trade, and contract assets	223,914		
Allowance for doubtful accounts	(172)		
	223,742	223,756	14
(2) Accounts receivable - installment	60,299		
Allowance for doubtful accounts	(1,061)		
Deferred installment income	[6,320]		
	52,916	56,847	3,931
(3) Investment securities			
Available-for-sale securities	25,884	25,884	–
(4) Short-term borrowings	[21,422]	[21,354]	(67)
(5) Lease liabilities (current liabilities)	[7,728]	[6,969]	(758)
(6) Long-term borrowings	[83,839]	[81,458]	(2,380)
(7) Lease liabilities (non-current liabilities)	[62,925]	[57,744]	(5,181)

- Notes: 1. Items recognized as liabilities are shown in square parentheses [] both under Carrying amount on the consolidated balance sheet and Fair value.
2. Cash and deposits are omitted because they are settled in a short period of time and their carrying amounts approximate fair value.
3. Notes and accounts receivable - trade, and contract assets are presented after deducting allowances for doubtful accounts set up for notes and accounts receivable - trade and contract assets not payable in the short term.
4. Accounts receivable - installment is presented after deducting the relevant allowance for doubtful accounts and deferred installment income.
5. Stocks and other securities that have no market price are not included in Investment securities. Such financial instruments are unlisted equity and investments in capital, which amounted to 13,547 million yen on the consolidated balance sheet.
6. Investments in partnerships and other similar entities that are recorded on the consolidated balance sheet at a net amount equivalent to the Company's ownership interest are not included in Investment securities. The amount of this investment in the consolidated balance sheet is 12,037 million yen.
7. Notes and accounts payable - trade are omitted because most of them are due within one year and their carrying amounts approximate fair value.
8. Expected redemption amounts of monetary claims and securities with maturity after the consolidated balance sheet date

(Millions of yen)

	Within 1 year	After 1 year through 5 years	After 5 years
Cash and deposits	238,812	–	–
Notes and accounts receivable - trade, and contract assets	223,891	23	–
Accounts receivable - installment	22,580	29,405	8,313
Total	485,284	29,429	8,313

9. Repayment schedule of long-term borrowings and lease liabilities after the consolidated balance sheet date

(Millions of yen)

	Within 1 year	After 1 year up to 2 years	After 2 years up to 3 years	After 3 years up to 4 years	After 4 years up to 5 years	After 5 years
Long-term borrowings	6,152	2,127	30,955	50,755	–	–
Lease liabilities	7,728	6,504	5,764	5,354	5,081	40,219
Total	13,880	8,632	36,720	56,110	5,081	40,219

3. Matters concerning the breakdown of the fair value of financial instruments by level and other items

The fair value of financial instruments is classified into the following three levels based on the observability and materiality of the inputs used to calculate fair value.

- Level 1 fair value Of the inputs related to the observable fair value calculation, the fair value is calculated based on the market price of the asset or liability formed in the active market.
- Level 2 fair value Of the inputs related to the observable fair value calculation, the fair value is calculated based on inputs other than the inputs used in level 1.
- Level 3 fair value Fair value is calculated using inputs for calculating unobservable fair value.

When multiple inputs that have a significant influence on the market value calculation are used, the market value is classified into the lowest priority level in the market value calculation among the levels to which those inputs belong.

(1) Financial instruments carried on the consolidated balance sheet at fair value

As of March 31, 2025

Item	Fair value (Millions of yen)			
	Level 1	Level 2	Level 3	Total
Investment securities				
Available-for-sale securities				
Stocks	18,475	–	–	18,475
Others	176	–	–	176

Short-term borrowings	–	21,354	–	21,354
Lease liabilities (current liabilities)	–	6,969	–	6,969
Long-term borrowings	–	81,458	–	81,458
Lease liabilities (non-current liabilities)	–	57,744	–	57,744
Total liabilities	–	167,526	–	167,526

Note: Explanation of valuation techniques used and inputs related to the calculation of fair value

Investment securities

Stocks are listed stocks and are valued using quoted market prices. Since listed stocks are traded in active markets, their fair value is classified as Level 1 fair value.

Others are stock acquisition rights and are valued using quoted market prices. Since stock acquisition rights are traded in active markets, their fair value is classified as Level 1 fair value.

Notes and accounts receivable - trade, contract assets, and accounts receivable - installment

The fair value of those assets is determined using the discounted present value method based on the amount of the receivable, the period to maturity and the interest rate that takes into account credit risk for each receivable classified by certain time periods and is classified as Level 2 fair value.

Short-term borrowings, long-term borrowings, and lease liabilities

The fair value of those liabilities is determined using the discounted present value method based on the total amount of principal and interest, and an interest rate that takes into account the remaining term of the debt and credit risk and is classified as Level 2 fair value.

(Securities)

As of March 31, 2025

1. Available-for-sale securities

(Millions of yen)

	Type of asset	Carrying amount on the consolidated balance sheet	Acquisition cost	Difference
Items whose carrying amount exceeds acquisition cost	(1) Stocks	14,024	3,652	10,371
	(2) Debentures	—	—	—
	(3) Other	176	157	19
	Subtotal	14,201	3,810	10,390
Items whose carrying amount does not exceed acquisition cost	(1) Stocks	4,450	4,862	(412)
	(2) Debentures	—	—	—
	(3) Other	—	—	—
	Subtotal	4,450	4,862	(412)
Total		18,652	8,673	9,978

2. Available-for-sale securities sold during the fiscal year ended March 31, 2025

(Millions of yen)

Type of asset	Sale proceeds	Total gain on sale	Total loss on sale
(1) Stocks	15,767	14,703	—
(2) Debentures	—	—	—
(3) Other	—	—	—
Total	15,767	14,703	—

3. Securities for which impairment losses are recognized

During the fiscal year ended March 31, 2025, the Company recorded impairment losses on securities of 849 million yen.

For impairment of listed stocks, if the market prices at the end of the year dropped 30% or more from the book value, the full amount is impaired. With respect to other securities, if the net realizable value at the end of the year dropped by 30% or more from the book value, impairment is made for the amount deemed necessary by the Company, taking into consideration the possibility of recovery.

4. Securities reclassified due to a change in holding purpose

Not applicable

As of March 31, 2026

1. Available-for-sale securities

(Millions of yen)

	Type of asset	Carrying amount on the consolidated balance sheet	Acquisition cost	Difference
Items whose carrying amount exceeds acquisition cost	(1) Stocks	21,896	7,071	14,824
	(2) Debentures	—	—	—
	(3) Other	—	—	—
	Subtotal	21,896	7,071	14,824
Items whose carrying amount does not exceed acquisition cost	(1) Stocks	3,988	4,370	(382)
	(2) Debentures	—	—	—
	(3) Other	—	—	—
	Subtotal	3,988	4,370	(382)
Total		25,884	11,441	14,442

2. Available-for-sale securities sold during the fiscal year ended March 31, 2026

(Millions of yen)

Type of asset	Sale proceeds	Total gain on sale	Total loss on sale
(1) Stocks	3,168	2,472	—
(2) Debentures	—	—	—
(3) Other	28	—	14
Total	3,196	2,472	14

3. Securities for which impairment losses are recognized

During the fiscal year ended March 31, 2026, the Company recorded impairment losses on securities of 305 million yen.

For impairment of listed stocks, if the market prices at the end of the year dropped 30% or more from the book value, the full amount is impaired. With respect to other securities, if the net realizable value at the end of the year dropped by 30% or more from the book value, impairment is made for the amount deemed necessary by the Company, taking into consideration the possibility of recovery.

4. Securities reclassified due to a change in holding purpose

During the fiscal year ended March 31, 2026, we partially transferred our shares in GDEX BHD., which had previously been classified as shares of affiliates. As a result, the remaining shares were reclassified as available-for-sale securities, with a carrying amount of 4,956 million yen on the consolidated balance sheet.

(Retirement benefits)

1. Overview of retirement benefit plans adopted

The Yamato Group has adopted a lump-sum retirement allowance system as a defined benefit plan and has also established a defined contribution system.

The corporate pension fund system as a defined benefit plan was transitioned to a defined contribution pension plan from the defined benefit corporate pension plan in October 2021. Pension benefits continue to be provided to individuals eligible to receive benefits under the corporate pension fund system at the time of the transition.

2. Defined benefit plan

(1) Reconciliation between the balance at beginning of period and the balance at end of period of retirement benefit obligations

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Balance of retirement benefit obligations at beginning of period	159,351 Million yen	136,474 Million yen
Service cost	15,754	9,230
Interest cost	158	1,891
Actuarial gains and losses accrued	(25,722)	1,574
Retirement benefits paid	(14,046)	(13,447)
Past service cost incurred	262	—
Increase resulting from consolidation of newly acquired subsidiaries	717	—
Balance of retirement benefit obligations at end of period	136,474	135,724

Note: Some consolidated subsidiaries have adopted the simplified method in calculating the amount of retirement benefit obligations.

(2) Reconciliation between the balance at beginning of period and the balance at end of period of pension plan assets

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Balance of plan assets at beginning of period	56,273 Million yen	54,915 Million yen
Expected return on plan assets	562	549
Actuarial gains and losses accrued	(203)	101
Retirement benefits paid	(1,717)	(1,636)
Balance of plan assets at end of period	54,915	53,929

(3) Reconciliation between ending balance of retirement benefit obligations and plan assets and retirement benefit liability/asset recorded on the consolidated balance sheet

	As of March 31, 2025	As of March 31, 2026
Retirement benefit obligations of funded plans	7,885 Million yen	6,538 Million yen
Plan assets	(54,915)	(53,929)
	(47,029)	(47,391)
Retirement benefit obligations of unfunded plans	128,589	129,186
Net amount of liabilities and assets recorded on the consolidated balance sheet	81,559	81,794
Retirement benefit liability	128,589	129,186
Retirement benefit asset	(47,029)	(47,391)
Net amount of liabilities and assets recorded on the consolidated balance sheet	81,559	81,794

(4) Amounts of retirement benefit expenses and their components

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Service cost	15,754 Million yen	9,230 Million yen
Interest cost	158	1,891
Expected return on plan assets	(562)	(549)
Recognition of actuarial gains and losses	(174)	(5,807)
Recognition of past service cost	262	—
Other	(10)	14
Retirement benefit expenses associated with defined benefit plan	15,428	4,780

(5) Remeasurements of defined benefit plans, net of tax

The components of remeasurements of defined benefit plans (before deduction of income taxes and tax effects) are as follows:

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Actuarial gains and losses	25,344 Million yen	(7,280) Million yen
Total	25,344	(7,280)

(6) Remeasurements of defined benefit plans

The components of remeasurements of defined benefit plans (before deduction of income taxes and tax effects) are as follows:

	As of March 31, 2025	As of March 31, 2026
Unrecognized actuarial gains and losses	23,857 Million yen	16,577 Million yen
Total	23,857	16,577

(7) Plan assets

i) Major components of plan assets

The ratio of each major category to total plan assets is as follows:

	As of March 31, 2025	As of March 31, 2026
General account	56 %	57 %
Debentures	16	19
Other	28	24
Total	100	100

ii) Method for setting the long-term expected rate of return on plan assets

The Company set the expected long-term rate of return on plan assets taking into account the allocation of plan assets, the historical result of each component asset of the plan assets and market trends.

(8) Actuarial assumptions

Major actuarial assumptions

	As of March 31, 2025	As of March 31, 2026
Discount rate	primarily 1.4 %	primarily 1.4 %
Long-term expected rate of return	1.0	1.0

3. Defined contribution plans

The amounts of required contributions to defined contribution plans of the Company and certain consolidated subsidiaries were 11,753 million yen as of March 31, 2025, and 11,881 million yen as of March 31, 2026.

(Tax effect accounting)

1. Detailed deferred tax assets and deferred tax liabilities

	As of March 31, 2025	As of March 31, 2026
Deferred tax assets		
Provision for bonuses	9,608 Million yen	9,946 Million yen
Unpaid legal welfare expenses	1,599	1,660
Accrued enterprise tax	1,691	1,776
Excess allowance for doubtful accounts	518	482
Tax loss carryforwards*	10,751	9,928
Retirement benefit liability	40,457	40,817
Loss on valuation of land	15,472	14,960
Impairment losses	4,761	4,675
Loss on valuation of investment securities	1,113	1,724
Investments in subsidiaries and associates	11,423	5,715
Unrealized gain on non-current assets	3,694	3,698
Loss on valuation of telephone subscription rights	215	186
Asset retirement obligations	4,462	6,080
Provision for special repairs	1,033	2,403
Other	9,565	11,809
Subtotal	116,368	115,867
Allowance for valuation for tax loss carryforwards*	(4,853)	(6,485)
Allowance for valuation for the total deductible temporary difference, etc.	(21,347)	(21,604)
Subtotal	(26,201)	(28,090)
Total	90,167	87,777
Deferred tax liabilities		
Customer-related intangible assets	(9,140)	(8,729)
Retirement benefit asset	(14,840)	(14,953)
Valuation difference on available-for-sale securities	(3,103)	(4,703)
Reserve for reduction entry	(299)	(279)
Other	(7,760)	(8,364)
Total	(35,145)	(37,031)
Net deferred tax assets	55,022	50,746

* Tax loss carryforwards and amounts of their deferred tax assets by carryforward period

As of March 31, 2025

(Millions of yen)

	Within 1 year	After 1 year up to 2 years	After 2 years up to 3 years	After 3 years up to 4 years	After 4 years up to 5 years	After 5 years	Total
Tax loss carryforwards	38	2	–	–	557	10,152	10,751
Allowance for valuation	(38)	(2)	–	–	(557)	(4,254)	(4,853)
Deferred tax assets	–	–	–	–	–	5,898	5,898

Note: Tax loss carryforwards were calculated by multiplying the statutory effective tax rate.

As of March 31, 2026

(Millions of yen)

	Within 1 year	After 1 year up to 2 years	After 2 years up to 3 years	After 3 years up to 4 years	After 4 years up to 5 years	After 5 years	Total
Tax loss carryforwards	3	–	–	653	60	9,211	9,928
Allowance for valuation	(3)	–	–	(653)	(60)	(5,768)	(6,485)
Deferred tax assets	–	–	–	–	–	3,442	3,442

Note: Tax loss carryforwards were calculated by multiplying the statutory effective tax rate.

2. Breakdown of the main items that caused differences between the effective statutory tax rate and the actual effective tax rate by applying tax effect accounting

	As of March 31, 2025	As of March 31, 2026
Statutory effective tax rate of the reporting company's consolidated financial statements	–	30.6%
(Adjustments)		
Inhabitant per capita taxes	–	8.7
Allowance for valuation	–	1.4
Non-taxable dividend income	–	(0.4)
Share of loss of entities accounted for using equity method	–	2.6
Amortization of goodwill	–	15.3
Increase in deferred tax assets at period-end due to change in tax rate	–	(2.5)
Effect of taxable income allocated under the Group Tax Sharing System	–	(0.5)
Other	–	(1.1)
Effective rate of income taxes after application of deferred tax accounting	–	54.1

Note: The figures as of the end of the previous fiscal year are omitted because the difference between the statutory tax rate and the effective tax rate after applying tax effect accounting was equal to or less than 5% of the statutory tax rate.

3. Accounting for corporate income tax and local corporate tax or tax effect accounting related to these taxes

Regarding the accounting treatment and disclosure related to tax effect accounting for corporate income tax and local corporate tax, the Company and some domestic consolidated subsidiaries are applying the Group Tax Sharing System in compliance with the "Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System" (ASBJ Practical Solutions No. 42, August 12, 2021).

(Asset retirement obligations)

Asset retirement obligations reported on the consolidated balance sheet

1. Overview of the relevant asset retirement obligations

There are obligations to restore sites to their original conditions based on facility lease contracts and fixed-term land leasehold contracts.

2. Method for calculating the relevant asset retirement obligations

The Company calculated the amount of the relevant asset retirement obligations by estimating the expected period of use at 15 to 38 years and applying the yields on Japanese government bonds due in the expected period of use as the discount rates.

3. Change in the total amount of the relevant asset retirement obligations

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Beginning balance	10,547 Million yen	12,864 Million yen
Increase by purchase of property, plant and equipment	1,517	3,772
Adjustment amount over time	136	165
Increase (decrease) by change in estimate	174	1,204
(Decrease by implementing the asset retirement obligations)	(510)	(341)
Increase by acquisition of consolidated subsidiaries	1,005	—
Decrease by sale of consolidated subsidiaries	(7)	—
Other increase (decrease)	1	(12)
Balance at end of period	12,864	17,651

4. Change in the estimate for the relevant asset retirement obligations

Fiscal year ended March 31, 2025

As the Company found that the amount of the retirement cost for the relevant assets will change from the estimated amount at the beginning of each period by obtaining new information on the cost, it changed the estimate for the relevant asset retirement obligations, increasing the amount by 174 million yen.

Fiscal year ended March 31, 2026

For the amount of the retirement cost for the relevant assets, the Company changed the estimate for the relevant asset retirement obligations by reflecting rising construction material prices and personnel expenses following the recent surge in prices, increasing the amount by 1,204 million yen.

(Revenue recognition)

1. Information that breaks down revenue from contracts with customers

Fiscal year ended March 31, 2025

(Millions of yen)

	Express Business	Contract Logistics Business	Global Business	Mobility Business	Other (Note 1)	Total
Transportation income	1,514,931	18,825	6,510	–	–	1,540,267

Operating revenue by reportable segment	1,599,552	186,795	101,558	66,435	66,369	2,020,712
Inter-segment operating revenue or transfers	(41,573)	(22,192)	(4,006)	(44,401)	(42,861)	(155,036)
Operating revenue from customers	1,557,978	164,602	97,552	22,033	23,507	1,865,675

Notes: 1. Other includes Yamato System Development Co., Ltd. (information systems development).

2. Other revenue consists of real-estate rental income included in the scope of ASBJ Statement No. 13 "Accounting Standard for Lease Transactions" as well as transactions related to financial instruments included in the scope of ASBJ Statement No. 10 "Accounting Standard for Financial Instruments."

2. Information that provides a basis for understanding revenue from contracts with customers

Information that forms the basis for understanding revenue from contracts with customers is presented in "V. Financial Information, 1. Consolidated Financial Statements, etc., (1) Consolidated Financial Statements, Notes to Consolidated Financial Statements (Significant matters forming the basis of preparing the consolidated financial statements), 4. Accounting policies, (5) Accounting method for significant revenues and costs" and thus omitted.

None of the contracts include significant financial components or variable consideration, and the contractual consideration for services is generally received within 30–70 days from the time of revenue recognition. The contractual consideration for transportation services provided to individual customers in the Express business is received at the time the shipment is accepted.

3. Information about the relationship between the satisfaction of performance obligations under contracts with customers and cash flows from such contracts, and the amount and timing of revenue expected to be recognized in subsequent periods from contracts with customers that existed at the end of the fiscal year under review

(1) Balance of contract assets and liabilities, etc.

(Millions of yen)

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Receivables from contracts with customers (beginning balance)	183,854	190,229
Receivables from contracts with customers (balance at end of period)	190,229	193,616
Contract assets (beginning balance)	4,551	4,381
Contract assets (balance at end of period)	4,381	4,781
Contract liabilities (beginning balance)	13,431	12,624
Contract liabilities (balance at end of period)	12,624	12,772

Contract assets are mainly recognized in TA-Q-BIN transactions and are recognized based on the estimated revenue reflecting the progress of deliveries up to the end of the fiscal year. Contract assets are reclassified to receivables from contracts with customers when the consolidated subsidiary's rights to the consideration become unconditional.

Contract liabilities mainly relate to advances received from customers who have subscribed to the Kuroneko Member Discount program for TA-Q-BIN transactions. Contract liabilities are reversed upon the recognition of revenue.

Among the revenues recognized during the previous fiscal year, the amount included in the contract liability balance at the beginning of the period was 10,850 million yen.

The amount of revenue recognized in the previous fiscal year from performance obligations satisfied in prior periods was not material.

Among the revenues recognized during the fiscal year under review, the amount included in the contract liability balance at the beginning of the period was 10,462 million yen.

The amount of revenue recognized in the fiscal year under review from performance obligations satisfied in prior periods was not material.

(2) Transaction prices allocated to remaining performance obligations

The Company and its consolidated subsidiaries apply the practical expedient in noting transaction prices allocated to the remaining performance obligations and do not include performance obligations with original expected contractual terms of one year or less and performance obligations for which the entity is entitled to receive consideration directly corresponding to the value to the customer of the portion of the obligation that has been performed by the entity to date. As a result, there are no significant performance obligations that should be noted as the transaction price allocated to the remaining performance obligations.

The performance obligations with an initial expected term of one year or less mainly related to courier services such as TA-Q-BIN in the Express business.

In addition, there were no material amounts of consideration arising from contracts with customers that are not included in the transaction price.

(Segment information, etc.)

[Segment information]

1. Overview of reportable segments

The reportable segments of the Yamato Group are components of the Group for which discrete financial information is available and which are regularly reviewed by the Company's Board of Directors to make decisions about allocation of managerial resources and to assess their performance.

The Yamato Group has established the management structure under the Company, a pure holding company, in order to realize sustainable enhancement of corporate value based on the Medium-term Management Plan "Sustainability Transformation 2030 —1st Stage—," which is formulated with the fiscal year ending March 31, 2027, as the final year, and has divided its segments based on its main lines of business and related services.

As a result, our four reporting segments are "Express Business," "Contract Logistics Business," "Global Business" and "Mobility Business."

Type of services by reportable segment

Reportable segment	Type of services
Express Business	Small parcel delivery services for individual and corporate customers, cargo vehicle transportation service, roll box pallets transportation service
Contract Logistics Business	3PL (third-party logistics) business, real estate business
Global Business	Transportation services for corporate customers, planning and operation of logistics centers, import/export customs clearance services, air cargo agency services
Mobility Business	Vehicle maintenance business, fuel sales business, non-life insurance agent business
Other	IT system development, operation and management business, call center business, financial services business

2. Method for calculating amounts of operating revenue, profit/loss, assets and other items by reportable segment

The accounting method used for reported business segments complies with the accounting policy that has been adopted in preparing the consolidated financial statements.

(Change in method of calculation)

To better assess profit and loss by reporting segment, the allocation method for head office-related expenses of Yamato Transport Co., Ltd., a consolidated subsidiary, has been changed in the fiscal year ended March 31, 2026. If this change had been applied retroactively to the fiscal year ended March 31, 2025, segment profit (loss) would have increased by 2,303 million yen in the Express business, and decreased by 374 million yen in the Contract Logistics business and by 1,928 million yen in the Global business. This change has no impact on the figures reported in the Consolidated Statement of Income.

3 Information regarding the amounts of operating revenue, profit/loss, assets and other items by reportable segment

Fiscal year ended March 31, 2025

(Millions of yen)

	Express Business	Contract Logistics Business	Global Business	Mobility Business	Other (Note 1)	Total	Adjustments (Note 2)	Amount recorded in consolidated financial statements (Note 3)

Notes: 1. Other includes Yamato System Development Co., Ltd. (information systems development).

2. Adjustments made are as follows.

- (1) The adjustment of 512 million yen of segment profit (loss) includes group-wide expenses which have not been allocated to each reportable segment (general and administrative expenses of the Company, which is a pure holding company) of negative 6,935 million yen, as well as eliminations of transactions among segments of 7,448 million yen.
- (2) The adjustment of negative 87 million yen of segment assets includes eliminations of inter-segment receivables and payables, etc. of negative 106,420 million yen and group-wide assets of 106,333 million yen not allocated to each reportable segment.
- (3) The adjustment of 10,997 million yen of investment in entities accounted for using the equity method pertains to the amount of investment in those entities accounted for using the equity method which are not allocated to respective reportable segments.
- (4) The adjustment of 8,065 million yen of increases of property, plant and equipment and intangible assets is the Company's capital investment amount.

3. An adjustment was made between segment profit (loss) and operating profit in the consolidated statement of income.

4. The segment assets and the increase in property, plant and equipment and intangible assets of the Express business include the 364,511 million yen of segment assets of the Head Office division of Yamato Transport Co., Ltd. as well as the 12,688 million yen increase in their property, plant and equipment and intangible assets, respectively.

(Significant subsequent events)

(Transfer of shares of a consolidated subsidiary)

At a Board of Directors meeting held on May 14, 2026, the Company resolved to transfer all shares (representing 70% of the total issued shares) held by the Company in its consolidated subsidiary, Yamato Credit & Finance Co., Ltd. (hereinafter "YCF"), to NJM5 Corporation, a wholly-owned subsidiary of Nojima Corporation (hereinafter the "Share Transfer").

As a result of the Share Transfer, the percentage of voting rights of YCF held by the Company will decrease from 70% to 0%, and YCF will no longer be a consolidated subsidiary of the Company.

1. Reason for the Share Transfer

Since its establishment in 1974, YCF, the target company of the Share Transfer, has provided a variety of payment and financing services, centered on its consumer installment financing business. However, amid recent changes in the market environment and intensifying competition with IT payment service providers and others, the Company concluded that, in order for YCF to achieve sustainable growth and strengthen its competitiveness, it is essential to make continuous system investments in AI and other areas, as well as enhance financial business expertise, and that transferring the business to an external partner would be the optimal solution.

Nojima Corporation, which will become our key partner through the Share Transfer, operates a nationwide store network as a digital consumer electronics retailer, and is expanding the Group's financial business platform. We believe that by collaborating with the Nojima Group's business foundation, YCF will be able to achieve stable and sustainable growth.

2. Name of the counterpart of the share transfer

NJM5 Corporation

3. Date of share transfer

September 1, 2026 (planned)

4. Name and description of business of the subsidiary

- | | |
|-----------------------------|--|
| (1) Name | Yamato Credit & Finance Co., Ltd. |
| (2) Description of business | Credit services (individual and comprehensive installment financing services), inter-company accounts receivable settlement services, accounts receivable and movable asset-backed financing, and collection agency services |

5. Number of shares to be transferred, consideration for transfer, and number of shares held after transfer

- | | |
|--|---|
| (1) Number of shares to be transferred | 589,400 shares |
| (2) Consideration for transfer | 3,500 million yen |
| (3) Number of shares held after transfer | 0 shares (Percentage of voting rights held: 0.0%) |

6. Impact on earnings

In connection with the Share Transfer, the Company expects to book an extraordinary loss of approximately 9.0 billion yen in the consolidated financial results for the fiscal year ending March 31, 2027.

Basic earnings (loss) per share (Yen)	(15.38)	43.07

iii) Significant lawsuits, etc.

In December 2024, a lawsuit was filed against Yamato Transport Co., Ltd. (hereinafter “Yamato Transport”), a consolidated subsidiary of the Company, by Japan Post Co., Ltd. (hereinafter “Japan Post”) in the Tokyo District Court.

The lawsuit, which arises from the basic agreement dated June 19, 2023 and the Kuroneko Yu-Packet transportation services agreement dated September 16, 2023—both executed between the two companies—seeks confirmation of Yamato Transport’s contractual obligation to engage Japan Post to perform transportation services for delivering small, thin parcels accepted by Yamato Transport to consignees during the period from February 1, 2025, to January 31, 2026. The claim also includes a demand for 12 billion yen in damages should Yamato Transport fail to fulfill this obligation.

Yamato Transport has established a system for responding to the lawsuit in cooperation with external attorneys to ensure it is handled appropriately.

Notes to Non-consolidated Financial Statements

(Significant accounting policies)

1. Valuation bases and methods for assets

Valuation bases and methods for securities

Available-for-sale securities

Other than stocks and other securities with no market price

Stated at the fair market value based on the quoted market price (valuation differences are recognized in net assets; the cost of securities sold is calculated by the moving-average method).

Stocks and other securities with no market price

Stated at cost using the moving-average method.

Investments in investment limited partnerships and similar partnerships

(Investments deemed to be securities pursuant to Article 2, paragraph (2) of the Financial Instruments and Exchange Act)

Stated at the net amount of the Company's interest in the partnership based on the most recent financial statements available according to the reporting date stipulated in the partnership agreement.

Shares of subsidiaries and associates and investments in capital of subsidiaries and associates

Stated at cost using the moving-average method.

Investments in other securities of subsidiaries and associates (Investments in the limited partnership for investment)

Stated at the net amount of the Company's interest in the partnership based on the most recent financial statements available according to the reporting date stipulated in the partnership agreement.

2. Depreciation and amortization methods of non-current assets

(1) Property, plant and equipment

Depreciated using the straight-line method.

(2) Intangible assets

Amortized using the straight-line method.

However, software is amortized by the straight-line method over the estimated useful life (five years or less).

3. Accounting method for provisions

(1) Allowance for doubtful accounts

The allowance for doubtful accounts is provided to prepare for losses from uncollectible credits. For special receivables with higher uncertainty, collectivity is considered on individual cases and the prospective uncollectible amount is provided.

(2) Allowance for investment loss

To prepare for a valuation loss on investments in subsidiaries and associates, allowances are provided considering the financial position and recoverability of the relevant subsidiary or associate.

(3) Provision for bonuses

The provision for bonuses is provided for the payment of bonuses to employees based on the amount expected to be paid.

(4) Provision for retirement benefits

To provide for employees' retirement benefits, a provision for retirement benefits is recorded based on the projected retirement benefit obligations and related pension assets as of the end of the fiscal year ended March 31, 2026.

i) Method of attributing expected retirement benefits to periods

In calculating the retirement benefit obligations, the straight-line basis is used in determining the amount of the expected retirement benefit obligation attributed to service performed up to the end of the fiscal year under review.

ii) Method of recognizing actuarial differences

Actuarial differences are recognized in profit or loss in the year following the year in which a respective gain or loss arises and are amortized proportionally on a straight-line basis over a period of time (mainly five years), which is within the average remaining years of service of the eligible employees.

(5) Provision for share awards for directors (and other officers)

In preparation for the payment of shares based on the Regulations on Share-based Remuneration for Officers, the expected amount of compensation is recorded according to the points allocated to Directors (and other officers).

4. Accounting method for revenues and costs

The Company mainly engages in executive management of its subsidiaries. Under the executive management contracts, the Company provides management and planning guidance to its subsidiaries. Since the economic benefits of these services are

provided equally over the contract period, the Company recognizes revenue when the performance obligations are satisfied, which is measured by the passage of time.

5. Other significant matters for preparing non-consolidated financial statements

(Method of accounting for retirement benefits)

The method of accounting for unrecognized actuarial differences on retirement benefits is different to the method in the consolidated financial statements.

(Significant accounting estimates)

(Valuation of shares of subsidiaries and associates and investments in capital of subsidiaries and associates)

(1) Amount recorded in the non-consolidated financial statements for the fiscal year under review

The following is a list of items that have been recognized in the non-consolidated financial statements for the fiscal year under review based on accounting estimates and that may have a material effect on the non-consolidated financial statements for the following fiscal year.

	(Millions of yen)	
	As of March 31, 2025	As of March 31, 2026
Shares of subsidiaries and associates	357,736	325,361
Investments in capital of subsidiaries and associates	922	922
Allowance for investment loss	(54)	(54)

(2) Information on significant accounting estimates for identified items

In principle, shares of subsidiaries and associates and investments in capital of subsidiaries and associates are stated at the cost by the moving-average method. In the event of a decline in the net realizable value, the Company determines whether or not to recognize a write-down based on estimates of the business plans and other factors of the relevant company.

In the event that the net realizable value at year-end declines by more than 30% of the book value and the net realizable value is not expected to recover, the book value is reduced correspondingly and the difference between the net realizable value and the carrying amount is recognized as a loss in the relevant fiscal year.

In addition, in the event that the decline in the net realizable value is not less than 30% of the book value but it is expected to take a long time to recover, allowance for investment loss is recorded to prepare for loss on investments in associates in consideration of the relevant company's financial status and recoverability.

The net realizable value of shares of subsidiaries and associates with no market price used for judgment of the relevant accounting is calculated by multiplying the net asset amount per share of the issuing company with the number of owned shares. In addition, the value reflecting the excess earning power, etc. may be used as the net realizable value as well. When the value reflecting the excess earning power, etc. of the issuing company is as the net realizable value, the value may be based on the share value calculated by a corporate valuation method generally accepted in Japan.

In determining whether or not to recognize a write-down of shares of subsidiaries and associates and investments in capital of subsidiaries and associates, certain assumptions are made with respect to business plans and other estimates. These assumptions are subject to uncertain future economic and business conditions, which may have a material impact on the non-consolidated financial statements for the next period.

(3) Key assumptions used for calculating the amount recognized in the non-consolidated financial statements for the fiscal year under review and impact on the non-consolidated financial statements for the next fiscal year

With regard to shares of Nakano Shokai Co., Ltd. acquired by taking into account its excess earning power, etc. for the fiscal year under review, we compared the net realizable value calculated by a corporate valuation method with the book value. As a result, we recorded loss on valuation of shares of subsidiaries and associates, because the net realizable value declined by more than 30% of the book value.

The total estimated future cash flows in the relevant business are based on the business plan, which includes key assumptions such as productivity improvement at business sites and increases in unit sales prices. For this reason, if the above key assumptions differ from future actual results, causing the deterioration of future cash flows, an additional loss on valuation of

shares of subsidiaries and associates may be recorded in the next fiscal year.

(Changes in presentation)

(Non-consolidated balance sheet)

"Accounts payable - purchase of shares of subsidiaries and associates" in "Current liabilities" presented separately in the previous fiscal year is included in "Other" in the fiscal year under review because the amount became immaterial. The non-consolidated financial statements of the previous fiscal year have been reclassified to reflect this change in presentation.

As a result, 7,194 million yen in "Accounts payable - purchase of shares of subsidiaries and associates" and 201 million yen in "Other" under "Current liabilities" in the non-consolidated balance sheet for the previous fiscal year have been reclassified as 7,396 million yen in "Other."

(Additional information)

(Board Benefit Trust (BBT) performance-linked and share-based remuneration system)

The Company has adopted the Board Benefit Trust (BBT) performance-linked and share-based remuneration system. The purpose of the system is to further clarify the linkage of remuneration for Directors (excluding Outside Directors) and executive officers, etc. who do not concurrently serve as Directors (collectively, "Officers") and the Company's business performance and share value ensuring that not only the benefit of the increase in share prices but also the risk of the decrease in share prices are shared between the Officers and the shareholders, thereby further motivating the Officers to contribute to the improvement in the business performance and corporate value over the medium to long term.

This matter is presented in "V. Financial Information, 1. Consolidated Financial Statements, etc., (1) Consolidated Financial Statements, Notes to Consolidated Financial Statements (Additional information)" and thus omitted.

(Dissolution and liquidation of subsidiaries)

The Company's Board of Directors approved the liquidation of a subsidiary, YAMATO ASIA PTE. LTD., at a Board meeting held on February 17, 2023. The liquidation process is currently underway.

Details are shown on "V. Financial Information, 1. Consolidated Financial Statements, etc., (1) Consolidated Financial Statements, Notes to Consolidated Financial Statements (Additional information)."

(Non-consolidated balance sheet)

* Monetary receivables and payables to subsidiaries and associates are as follows.

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Short-term monetary receivables	6,090	6,352
Long-term monetary receivables	31,574	30,495
Short-term monetary payables	90,617	129,085

Contingent liabilities are as follows.

(Millions of yen)

	As of March 31, 2025	As of March 31, 2026
Joint and several guarantee based on clearing agreements with other transportation companies	300	300
Guarantee of obligation for debt financing	16,767	24,325

(Non-consolidated statement of income)

*1 Volume of transactions with subsidiaries and associates is as follows:

(Millions of yen)

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Operating revenue	42,698	28,498
Operating expenses	2,529	1,845
Non-operating transactions	3,685	2,512

*2 Major expense items and amounts included in selling, general and administrative expenses are as follows:

Since the Company is a pure holding company, all expenses are included in general and administrative expenses.

(Millions of yen)

	Fiscal year ended March 31, 2025	Fiscal year ended March 31, 2026
Personnel expenses	780	1,152

<Audit of Consolidated Financial Statements>

Opinion

Pursuant to the first paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited the consolidated financial statements of Yamato Holdings Co., Ltd. and its consolidated subsidiaries (the "Group") included in the Financial Section, namely, the consolidated balance sheet as of March 31, 2026, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the fiscal year from April 1, 2025 to March 31, 2026, and a summary of significant accounting policies and other explanatory information, and the consolidated supplementary schedules.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of March 31, 2026, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, including the ethical requirements that are relevant to audits of the financial statements of public interest entities, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

A key audit matter is a matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

Judgments on whether to recognize impairment losses on non-current assets related to Yamato Transport Co., Ltd.'s Express Business	
Key Audit Matter Description	How the Key Audit Matter Was Addressed in the Audit
The Group provides delivery and other logistics services. As described in [Notes] "Significant accounting estimates," as of March 31, 2026, the Group's main assets subject to accounting standards related to impairment of non-current assets are property, plant and equipment of ¥469,156 million and intangible assets of ¥65,640 million (approximately 42% of the consolidated total assets). Among these balances, property, plant and equipment of ¥376,145 million, and intangible assets of ¥376 million are attributed to the Express Business of Yamato Transport Co., Ltd. ("Yamato Transport"), a consolidated subsidiary. During the current consolidated fiscal year, as Yamato Transport's Express Business experienced continual operational losses, indications of impairment for these asset groups were identified. Despite this, Yamato Transport did not record impairment losses since the undiscounted future cash flows exceeded the carrying value of non-current assets. Yamato Transport tracks indications of impairment in each asset group and judges whether to recognize impairment losses by comparing the total undiscounted future cash flows gained from asset groups in which indications of impairment were identified with their carrying value. When impairment losses must be measured, non-current assets are reduced to their recoverable amount, with this reduction being recorded as an impairment loss. The undiscounted future cash flows used to judge whether to recognize impairment losses and the business plans that form their basis involve accounting judgments and assumptions. Of these, the business plan for Yamato Transport's Express Business includes the following as key assumptions: revenue conditions (e.g., delivery unit prices, delivery volumes, and demand trends for major customers), cost conditions due to changes in the external environment (e.g., resource/energy prices and hourly wage rates), and revisions to service delivery models for some transportation services and their resulting impact on profits and losses. As mentioned above, the monetary materiality of the non-current assets of Yamato Transport's Express Business is high. In addition, the business plan that forms the basis for judging whether to recognize impairment losses in these asset groups includes significant assumptions such as revisions to the service delivery models for some transportation services, with subjective judgments made by management and uncertainties having a significant impact on the estimate of total undiscounted future cash flows. Therefore, we have identified judgments on whether to recognize impairment losses for these non-current assets as a key audit matter.	Our audit procedures related to examining judgments on whether to recognize impairment losses for the non-current assets of Yamato Transport's Express Business include the following, among others: • We obtained an understanding of Yamato Transport's overall business environment through inquiry of the departments in charge and inspection of the minutes of the Board of Directors' meetings, the management meetings, and other important approval documents. Our understanding included information on delivery unit prices, delivery volume, external delivery resources, unit commission expenses, number of employees, the circumstances of labor management, and internal transfer of services between divisions. • We obtained an understanding of the internal controls for judging whether to recognize impairment losses for the non-current assets of Yamato Transport's Express Business, which includes inspection methods and approvals by the management at the appropriate level of documents on judging whether to recognize impairment losses. At the same time, we evaluated the design and operating effectiveness of these internal controls. • We tested the consistency of undiscounted future cash flows with future business plans that were approved at the Board of Directors' meetings. Furthermore, we evaluated the accuracy of future business plan estimates by comparing the business plans and actual results from prior fiscal years. • To evaluate the feasibility and impact of revisions to service delivery models for some transportation services, a significant assumption contained in the business plan, we inquired with management and inspected minutes of the Board of Directors' meetings, as well as contracts and other relevant documentation related to these services.

Other Information

Management is responsible for the other information. Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the other information. The other information comprises the information included in the Annual Securities Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are in accordance with accounting principles generally accepted in Japan, as well as the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with Audit & Supervisory Board members and the Audit & Supervisory Board, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

<Audit of Internal Control>

Opinion

Pursuant to the second paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited management's report on internal control over financial reporting of Yamato Holdings Co., Ltd. as of March 31, 2026.

In our opinion, management's report on internal control over financial reporting referred to above, which represents that the internal control over financial reporting of Yamato Holdings Co., Ltd. as of March 31, 2026, is effectively maintained, presents fairly, in all material respects, the results of the assessment of internal control over financial reporting in accordance with assessment standards for internal control over financial reporting generally accepted in Japan

Basis for Opinion

We conducted our internal control audit in accordance with auditing standards for internal control over financial reporting generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Internal Control Audit section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, including the ethical requirements that are relevant to audits of the financial statements of public interest entities, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for Report on Internal Control

Management is responsible for designing and operating effective internal control over financial reporting and for the preparation and fair presentation of its report on internal control in accordance with assessment standards for internal control over financial reporting generally accepted in Japan. Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing and verifying the design and operating effectiveness of internal control over financial reporting. There is a possibility that misstatements may not be completely prevented or detected by internal control over financial reporting.

Auditor's Responsibilities for the Internal Control Audit

Our objectives are to obtain reasonable assurance about whether management's report on internal control over financial reporting is free from material misstatement and to issue an auditor's report that includes our opinion.

As part of an audit in accordance with auditing standards for internal control over financial reporting generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Perform audit procedures to obtain audit evidence regarding the results of the assessment of internal control over financial reporting in management's report on internal control. The procedures selected depend on the auditor's judgment, including the significance of effects on reliability of financial reporting.
- Examine representations on the scope, procedures and results of the assessment of internal control over financial reporting made by management, as well as evaluating the overall presentation of management's report on internal control.
- Plan and perform the internal control audit to obtain sufficient appropriate audit evidence regarding the results of the assessment of internal control over financial reporting. We are responsible for the direction, supervision and review of the internal control audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the internal control audit, result of the internal control audit, including any identified material weakness which should be disclosed and the result of remediation.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

<Fee-Related Information>

<Audit of Nonconsolidated Financial Statements>

Opinion

Pursuant to the first paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited the nonconsolidated financial statements of Yamato Holdings Co., Ltd. (the "Company") included in the Financial Section, namely, the nonconsolidated balance sheet as of March 31, 2026, and the nonconsolidated statement of income and nonconsolidated statement of changes in equity for the 161th fiscal year from April 1, 2025 to March 31, 2026, and a summary of significant accounting policies and other explanatory information, and the supplementary schedules.

In our opinion, the accompanying nonconsolidated financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2026, and its financial performance for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Nonconsolidated Financial Statements section of our report. We are independent of the Company in accordance with the provisions of the Code of Professional Ethics in Japan, including the ethical requirements that are relevant to audits of the financial statements of public interest entities, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

A key audit matter is a matter that, in our professional judgment, was of most significance in our audit of the nonconsolidated financial statements of the current period. The matter was addressed in the context of our audit of the nonconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

Valuation of shares of subsidiaries and associates related to Nakano Shokai Co., Ltd.	
Key Audit Matter Description	How the Key Audit Matter Was Addressed in the Audit
The Company, as a holding company of the Group that provides delivery and other logistics services, has recorded, as of March 31, 2026, shares of subsidiaries and associates within the group in the amount of ¥325,361 million (about 64% of total assets). As described in "[Note] (Matters related to securities)," this included shares of subsidiaries amounting to ¥324,864 million and shares of associates amounting to ¥497 million, both of which had no market value. For shares of subsidiaries and associates that have no market value, if the net realizable value has declined by 30% or more compared to the carrying value at the end of the fiscal year and there is not sufficient evidence to support the possibility that the net realizable value will recover, the carrying value is written down by the Company to the net realizable value, and the difference is recorded as a loss for the current fiscal year. The net realizable value used in the evaluation of this accounting treatment is calculated as the amount obtained by multiplying the net asset amount per share of each issuing company by the number of shares held. However, in some cases, the net realizable value is evaluated by reflecting other factors such as the excess earning power of the Company. For the shares of subsidiaries and associates related to Nakano Shokai Co., Ltd. that were acquired during the current fiscal year after considering factors such as excess earning power, it was found that the net realizable value had declined by 30% or more compared to the carrying value when the net realizable was calculated using the business valuation method. For this reason, a valuation loss of ¥15,547 million was recorded. When calculating the net realizable value, the discounted cash flow method is used, where future cash flows based on the business plan are discounted using a discount rate. This business plan contains certain assumptions, with productivity improvements in business locations and increases in unit selling prices representing significant assumptions. As shown above, the business plan and other materials used to calculate the net realizable value of Nakano Shokai Co., Ltd. contain significant assumptions made by management, making this estimate subject to uncertainty and involving subjective judgments made by management. Therefore, we have identified the valuation of shares of subsidiaries and associates related to Nakano Shokai Co., Ltd. as a key audit matter.	Our audit procedures related to examining the Company's valuation of shares of subsidiaries and associates related to Nakano Shokai Co., Ltd. included the following, among others: • When calculating the net realizable value using the generally accepted business valuation method, we obtained an understanding of the Company's internal controls relating to the valuation of shares of subsidiaries and associates, such as the process for preparing future cash flow estimates using the business plan and the process for calculating and recording valuation losses based on the valuation results received from outside experts. • To evaluate the reasonableness of the assumptions set by management during the preparation of the business plan, we inquired with management with the goal of understanding the management environment and future business plans, and we confirmed the consistency of these assumptions with the business plans approved at the Board of Directors' meetings. • We analyzed why the actual results fell short of the business plan at the time the shares were acquired and examined whether these reasons were properly considered in the future cash flow estimates. • We performed the following procedures to test the reasonableness of productivity improvements in business locations and increases in unit selling prices, which are significant assumptions contained in the business plan. – Analyze trends in productivity metrics and the recent state of improvements in these business locations – Make a comparison with past improvements made to productivity metrics in similar locations and examine the results – Examine relevant documentation related to negotiations held with customers on increasing unit selling prices • We evaluated the reasonableness of the valuation techniques and the determined discount rate used by the Company to calculate share value, employing experts from our network firms.

Other Information

Management is responsible for the other information. Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the other information. The other information comprises the information included in the Annual Securities Report, but does not include the nonconsolidated financial statements and our auditor's report thereon.

Our opinion on the nonconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the nonconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the nonconsolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Nonconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the nonconsolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of nonconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the nonconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Nonconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the nonconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these nonconsolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the nonconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the nonconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether the overall presentation and disclosures of the nonconsolidated financial statements are in accordance with accounting principles generally accepted in Japan, as well as the overall presentation, structure and content of the nonconsolidated financial statements, including the disclosures, and whether the nonconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with Audit & Supervisory Board members and the Audit & Supervisory Board, we determine those matters that were of most significance in the audit of the nonconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

<Fee-Related Information>

Fee-related information is disclosed in independent auditor's report on the consolidated financial statements as of and for the year ended March 31, 2026.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Company which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

1. Matters related to the basic framework for internal control over financial reporting

Yutaka Nagao, President, and Masaru Nomura, Chief Financial Officer, are responsible for the design, implementation and maintenance of internal control over financial reporting of Yamato Holdings Co., Ltd. (the “Company”) and have designed, implemented and maintained internal control over financial reporting in accordance with the basic framework for internal control set forth in the “On the Revision of the Standards and Practice Standards for Management Assessment and Audit Concerning Internal Control Over Financial Reporting (Council Opinions)” published by the Business Accounting Council.

Internal control is designed to achieve its objectives to a reasonable extent when each basic element of internal control is organically linked and functions in an integrated manner. Therefore, there is a possibility that misstatements in financial reporting may not be completely prevented or detected by internal control over financial reporting.

2. Matters related to scope of assessment, record date, and assessment procedures

The assessment of internal control over financial reporting was conducted with the record date of March 31, 2026, which is the end of the fiscal year under review, in accordance with assessment standards for internal control over financial reporting generally accepted in Japan.

In making this assessment, we assessed internal controls that may have a material impact on the entire financial reporting on a consolidated basis (company-wide internal controls), and then, based on the results, we selected business processes to be assessed. In assessing the business process, after analyzing the selected business process, we assessed the effectiveness of internal control by identifying key control points that have a significant impact on the reliability of financial reporting and by assessing the design and operation of such key control points. The scope of the assessment of internal control over financial reporting was determined for the Company, its consolidated subsidiaries and equity-method affiliates based on the materiality of the effects on the reliability of financial reporting. The materiality of the effects on the reliability of financial reporting was determined by considering the monetary and qualitative effects on financial reporting, as well as the likelihood of their occurrence. The Company operates in the Express business, Contract Logistics business, Global business, and other related businesses. For the purpose of managing business operations, operating revenue at each business location is used as an indicator to assess the scale of business activities. Accordingly, after reviewing various indicators, including operating profit and assets, we have determined that consolidated operating revenue (before elimination of intercompany transactions) is the most appropriate monetary indicator that reflects the scale of business locations. Based on the results of the assessment of company-wide internal control conducted for the Company and its 15 consolidated subsidiaries, the scope of the assessment of internal control over business processes was reasonably determined. Although the Company has 31 consolidated subsidiaries, 16 were not included in the scope of the assessment of company-wide internal control, as they represent only an insignificant portion of consolidated operating revenue (before elimination of intercompany transactions) and were considered immaterial in terms of monetary or qualitative effects, or the likelihood of a material misstatement in the financial statements. In addition, 5 equity-method affiliates were not included in the scope of the assessment of company-wide internal control, as their share of loss or profit of entities accounted for using equity method was insignificant.

The scope of the assessment of internal control over business processes was primarily determined by the monetary effects. Based on the effectiveness of the assessment of company-wide internal control, the Express business and Contract Logistics business of Yamato Transport were designated as important business locations that exceeded approximately 2/3 of consolidated operating revenue (before elimination of intercompany transactions). Furthermore, as the Global business becomes an increasingly important growth area, Yamato Transport’s trading business—a key component of the Global business—has been designated as a core operating base in recognition of their qualitative significance. For the selected important business locations, the risk of misstatement inherent to each account was identified, and business processes related to accounts deemed quantitatively and qualitatively significant in the context of their operations were subject to assessment. Specifically, the following accounting items were selected: operating revenue; trade accounts receivable among notes and accounts receivable – trade, and contract assets related to such revenue; subcontracting expenses and personnel expenses among operating costs incurred in generating operating revenue; trade accounts payable among notes and accounts payable – trade related to such expenses; accrued expenses among other current liabilities; and property, plant and equipment, excluding leased assets and construction in progress. Additionally, regardless of the selected important business locations, we reviewed qualitative materiality criteria and identified any additional processes requiring assessment. Taking into account their impact on financial reporting, we have added them, as material business processes to be assessed, to the scope of assessment. Specifically, we selected (1) business processes related to significant accounts that involve estimates and management forecasts—such as the valuation of shares of subsidiaries and affiliates; recognition of income taxes, deferred tax assets and deferred tax liabilities; impairment of non-current assets; and recognition of allowance for doubtful accounts; and recognition of provisions for bonuses and retirement benefits—and (2) business processes requiring special attention as high-risk areas for potential misstatements involving non-routine or infrequent transactions—such as the preparation of consolidated financial statements and related notes; real estate lease transactions (identification of transaction classification); and the elimination of internal transactions.

3. Matters related to the results of assessment

Based on the results of the above assessment, we concluded that the Company's internal control over financial reporting as of the end of the fiscal year under review, was effective.
